| <i>June 1</i> | <i>Tuesday.</i> Commencement Day. Summer Vacation begins. |
| <i>September 1-4</i> | <i>Wednesday to Saturday.</i> Examinations for Removal of Conditions. |

THE UNIVERSITY

FOUNDATION AND GOVERNMENT. The University was established in obedience to the first Constitution of the State, which was adopted in December, 1776. A clause of section XLI declared that "all useful learning shall be duly encouraged, and promoted in one or more universities." The charter was granted by the General Assembly in 1789, the corner stone of the Old East Building was laid in 1793, and the University was opened in 1795.

The title, preamble, and first section of the Act of incorporation are as follows:

"An Act to Establish a University in this State."

"WHEREAS in all well regulated Governments, it is the indispensable Duty of every Legislature to consult the Happiness of a rising Generation, and endeavor to fit them for an honourable Discharge of the Social Duties of Life, by paying the strictest attention to their Education: And whereas an University supported by permanent Funds, and well endowed, would have the most direct Tendency to answer the above Purpose:

"I. *Be it therefore enacted by the General Assembly of the State of North Carolina, and it is hereby enacted by the Authority of the Same, That, Samuel Johnston, James Iredell, Charles Johnson, Hugh Williamson, Stephen Cabarrus, Richard Dobbs Spaight, William Blount, Benjamin Williams, John Sitgreaves, Frederick Hargett, Robert Sneed, Archibald Maclaine, Honourable Samuel Ashe, Robert Dixon, Benjamin Smith, Honourable Samuel Spencer, John Hay, James Hogg, Henry William Harrington, William Barry Grore, Reverend Samuel McCorkle, Adlai Osborne, John Stokes, John Hamilton, Joseph Graham, Honourable John Williams, Thomas Person, Alfred Moore, Alexander Mebane, Joel Lane, Willie Jones, Benjamin Hawkins, John Haywood, senior, John Macon, William Richardson Davie, Joseph Dixon, William Lenoir, Joseph McDowell, James Holland and William Porter, Esquires, shall be and they are hereby declared to be a body politic and corporate to be known and distinguished by the name of The Trustees of the Unirersity of North Carolina;** and

*The corporate name has been changed to The University of North Carolina.

by that name shall have perpetual Succession and a common Seal; and that they the Trustees and their Successors, by the Name aforesaid, or a Majority of them, shall be able and capable in Law to take, demand, receive and possess all Monies, Goods and Chattels that shall be given them for the Use of the said University, and the same apply according to the Will of the Donors, and by Gift, Purchase or Devise to take, have, receive, possess, enjoy and retain to them and their Successors forever, any Lands, Rents, Tenements and Hereditaments, of what Kind, Nature or Quality soever the same may be, in special Trust and Confidence that the same or Profits thereof shall be applied to and for the Use and Purpose of establishing the said University.”*

The University is governed by a board of trustees elected by the Legislature, and is free from sectionalism, sectarian, or political control. The Governor of the State is *ex-officio* President of the Board of Trustees.

Article IV of the Constitution of 1876 contains the following provisions regarding the University.

“SEC. 6. The General Assembly shall have power to provide for the election of Trustees of the University of North Carolina, in whom, when chosen, shall be vested all the privileges, rights, franchises, and endowments thereof, in anywise granted to or conferred upon the Trustees of said University; and the General Assembly may make such provisions, laws, and regulations from time to time as may be necessary and expedient for the maintenance and management of said University.

“SEC. 7. The General Assembly shall provide that the benefits of the University, as far as practicable, be extended to the youth of the State free of expense for tuition; also all the property which has heretofore accrued to the State, or shall hereafter accrue, from escheats, unclaimed dividends, or distributive shares of the estates of deceased persons, shall be appropriated to the use of the University.”

LOCATION. The seat of the University is Chapel Hill, Orange county, twenty-eight miles northwest of Raleigh. Two daily passenger trains run between Chapel Hill and University Junction, a station on the North Carolina Railroad. The site for the insti-

*Laws of the State of North Carolina, published by James Iredell Edenton, MDCCXCI.

tution was selected because of its healthfulness, its freedom from malaria, its supply of pure water, its beautiful scenery, and its central location in the State.

EQUIPMENT. The University campus contains forty-eight acres of land, affording ample grounds for buildings and for all sorts of athletic sports. The University owns, contiguous to the campus, five hundred acres of forest land, which is partly laid off in walks and drives. The University has twenty buildings.

The South Building contains two lecture rooms and thirty living rooms.

The Old East Building contains two lecture rooms and twenty-eight living rooms.

The Old West Building contains two lecture rooms, the Historical Museum, and twenty-seven living rooms.

Person Hall contains the Medical Laboratories and a lecture room.

Gerrard Hall is used for morning prayers, for the meetings of the Young Men's Christian Association, and for public lectures.

Smith Hall contains the library and lecture rooms of the Law School.

The New West Building contains the Dialectic Literary Society's Hall, the Pharmaceutical Laboratory, two lecture rooms, and nine living rooms.

The New East Building contains the Philanthropic Literary Society's Hall, the Biological Laboratory and Museum, the Geological Laboratory and Museum, the offices of the North Carolina Geological Survey, and three lecture rooms.

Memorial Hall commemorates the illustrious dead of the University. It is used at Commencement for public exercises.

The Alumni Hall contains the offices of administration, the Physical Laboratories, and ten lecture rooms.

The Carr Building, the gift of Gen. J. S. Carr, contains forty-two living rooms with every modern convenience.

The Mary Ann Smith Building contains forty living rooms of the most modern type.

The William Preston Bynum, Jr., Gymnasium is the gift of Judge William Preston Bynum, in memory of his grandson, William Preston Bynum, Jr., of the class of 1893. It is furnished with modern apparatus, swimming pool, baths, lockers, and running track; and contains a trophy room and the office of the Instructor in Physical Training.

The Young Men's Christian Association Building, recently completed gives greater efficiency to the valuable work already being done by the Association.

Chemistry Hall contains Chemical Laboratories, lecture rooms, offices for the instructors, and store rooms.

The new *Library* building, given by Andrew Carnegie, Esq., was opened at the beginning of the present session.

Davie Hall, the new building for the department of biology is now in process of construction and will be ready for occupancy by the opening of next session.

The Dissecting Hall, for the use of the Medical School, is apart from the other buildings.

The New Infirmary, a spacious and completely equipped building, was thrown open to the students at the beginning of the present session.

Commons contains a dining hall where students obtain board at nine dollars a month. The whole enterprise was made possible through the beneficence of Mrs. Frederick Baker, of New York.

The Power House contains the electric lighting plant, the central heating plant, filter and pumps of the system of water supply, and the rooms of the University Press.

The general equipment has been improved by a thorough system of sewers and baths, a supply of pure water in all the buildings, and hot water in all the offices, recitation rooms and reading rooms.

COLLEGE YEAR. The College year begins on the second Thursday in September. Commencement is held on Tuesday before the first Thursday in June. The Summer vacation begins at Commencement Day and ends on the Wednesday before the second Thursday in September. There is a Christmas recess of about ten days. The twelfth of October (University Day), Thanksgiving Day, and the twenty-second of February (Washington's Birthday) are holidays.

DEGREES. The degrees of Bachelor of Arts, Bachelor of Science, Master of Arts, Master of Science, Doctor of Philosophy, Doctor of Medicine, Bachelor of Laws, and Graduate of Pharmacy are conferred by the vote of the Trustees, after the recommendation of the Faculty, upon candidates who have satisfied the requirements of residence and study at the University. Students who are not

candidates for a degree may elect any studies they wish, devoting their time entirely to one or two subjects, or selecting groups of such subjects as suit their tastes and purposes.

GRADUATE STUDENTS. Free instruction is given in the College to graduates of colleges and universities. Women are admitted to the higher courses of the University.

PHYSICAL TRAINING. Hearty encouragement is given to athletic sports and to all kinds of physical culture. The athletic field furnishes ample facilities for football and baseball. The Lake Track is admirably adapted for running, bicycling, and general track athletics. Fifteen tennis courts are located on the campus. Systematic exercises in the Bynum Gymnasium under a skilled instructor is required of all students in the College, except Seniors.

GENERAL CULTURE. Prayers are conducted in Gerrard Hall, with the reading of the scriptures and singing, every weekday morning except Saturday, at 8:30 o'clock. Attendance at this service is required of all Freshmen and Sophomores, unless specially excused. Bible classes for young men are taught in each of the four churches of the village every Sunday. Religious services are held twice a week, or oftener, in each church. A series of sermons is delivered annually by the University Preachers, chosen by the Trustees from the various denominations. Bible lectures are delivered every Sunday morning in Gerrard Hall. The Young Men's Christian Association meets three times a week, for prayer and other services, and conducts a series of Bible courses, which are numerously attended by the students.

DISCIPLINE. The University endeavors to make young men manly and self-reliant, and to develop character by educating the conscience. The Faculty may, at their discretion, admonish, suspend, or dismiss students for neglect of duty or for misconduct.

MEDICAL ATTENDANCE. On the payment of an annual fee of \$5.00, each student receives the careful attention of the University Physician. In this way the best medical advice is to be had at the least cost. The Infirmary, under the supervision of the University Physician and provided with a trained nurse, affords the conveniences and comforts necessary for the students in their sickness.

TRUSTEES

ROBERT BRODNAX GLENN, GOVERNOR, President *ex-officio* of
the Board of Trustees.

RICHARD HENRY BATTLE, Secretary and Treasurer.

MEMBERS OF THE BOARD

COMMITTEES OF THE TRUSTEES*Executive Committee*

GOVERNOR ROBERT BRODNAX GLENN, Chairman,
ALEXANDER B. ANDREWS, JOSEPHUS DANIELS,
RICHARD H. BATTLE, CLAUDIUS DOCKERY,
FABIUS H. BUSBEE, JOHN W. GRAHAM,
JULIAN S. CARR, THOMAS S. KENAN,
RICHARD H. LEWIS.

Visiting Committee

HENRY A. LONDON, Chairman,
BENNEHAN CAMERON, PERRIN BUSBEE.

FACULTY

Officers of Administration

- FRANCIS PRESTON VENABLE, PH.D., D.Sc., LL.D., *President*.
EBEN ALEXANDER, PH.D., LL.D., *Dean*.
CHARLES ALPHONSO SMITH, PH.D., LL.D., *Dean of the Graduate School*.
JOSHUA WALKER GORE, C.E., *Dean of the School of Applied Sciences*.
JAMES CAMERON MACRAE, LL.D., *Dean of the Law School*.
ISAAC HALL MANNING, M.D., *Dean of the School of Medicine at Chapel Hill*.
HUBERT ASHLEY ROYSTER, A.B., M.D., *Dean of the School of Medicine at Raleigh*.
EDWARD VERNON HOWELL, A.B., PH.G., *Dean of the School of Pharmacy*.

Officers of Instruction

- KEMP PLUMMER BATTLE, LL.D., *Professor Emeritus of History*.
JOSHUA WALKER GORE, C.E., *Professor of Physics*.
THOMAS HUME, D.D., LL.D., *Professor Emeritus of English Literature*.
WALTER DALLAM TOY, M.A., *Professor of the Germanic Languages and Literatures*.
EBEN ALEXANDER, PH.D., LL.D., *Professor of the Greek Language and Literature*.
WILLIAM CAIN, C.E., *Professor of Mathematics*.
HENRY HORACE WILLIAMS, A.M., B.D., *Professor of Philosophy*.
HENRY VANPETERS WILSON, PH.D., *Professor of Zoology*.
COLLIER COBB, A.M., *Professor of Geology and Mineralogy*.
CHARLES STAPLES MANGUM, A.B., M.D., *Professor of Anatomy*.

EDWARD VERNON HOWELL, A.B., PH.G., *Professor of Pharmacy.*

MARCUS CICERO STEPHENS NOBLE, *Professor of Pedagogy.*

JAMES CAMERON MACRAE, LL.D., *Professor of Law.*

ISAAC HALL MANNING, M.D., *Professor of Physiology.*

CHARLES ALPHONSO SMITH, PH.D., LL.D., *Professor of the English Language and Literature.*

†HUBERT ASHLEY ROYSTER, A.B., M.D., *Professor of Gynecology.*

†WISCONSIN ILLINOIS ROYSTER, M.D., *Professor of Medicine.*

†AUGUSTUS WASHINGTON KNOX, M.D., *Professor of Surgery.*

†RICHARD HENRY LEWIS, A.B., M.D., *Professor of Diseases of the Eye and of General Hygiene.*

†KEMP PLUMMER BATTLE, JR., A.B., M.D., *Professor of Diseases of the Ear, Nose, and Throat.*

GEORGE HOWE, PH.D., *Professor of the Latin Language and Literature.*

†HENRY MCKEE TUCKER, M.D., *Professor of Obstetrics.*

†ANDREW WATSON GOODWIN, M.D., *Professor of Diseases of the Skin and of the Genito-Urinary System.*

†JAMES MCKEE, M.D., *Clinical Professor of Mental and Nervous Diseases.*

JOSEPH HYDE PRATT, PH.D., *State Geologist and Professor of Economic Geology.*

LUCIUS POLK McGEHEE, A.B., LL.B., *Professor of Law.*

CHARLES HOLMES HERTY, PH.D., *Smith Professor of General and Agricultural Chemistry.*

NATHAN WILSON WALKER, A.B., *Professor of Secondary Education.*

WILLIAM DEBERNIERE MACNIDER, M.D., *Professor of Pharmacology and Bacteriology.*

†JAMES WILLIAM MCGEE, JR., M.D., *Professor of Diseases of Children.*

CHARLES LEE RAPER, PH.D., *Professor of Economics.*

JAMES DOWDEN BRUNER, PH.D., *Professor of the Romance Languages and Literatures.*

- DAVID HOUGH DOLLEY, A.M., M.D., *Professor of Histology and Pathology.*
- EDWARD KIDDER GRAHAM, A.M., *Professor of English Literature.*
- THOMAS RUFFIN, LL.M., D.C.L., *Professor of Law.*
- ALVIN SAWYER WHEELER, PH.D., *Associate Professor of Organic Chemistry.*
- WILLIAM CHAMBERS COKER, PH.D., *Associate Professor of Botany.*
- ARCHIBALD HENDERSON, PH.D., *Associate Professor of Mathematics.*
- THOMAS JAMES WILSON, JR., PH.D., *Associate Professor of Latin.*
- JAMES EDWARD LATTA, A.M., *Associate Professor of Physics.*
- JAMES EDWARD MILLS, PH.D., *Associate Professor of Physical Chemistry.*
- WILLIAM STANLY BERNARD, A.M., *Associate Professor of Greek.*
- MARVIN HENDRIX STACY, A.M., *Associate Professor of Civil Engineering.*
- JOSEPH GREGOIRE DE ROULHAC HAMILTON, PH.D., *Associate Professor of History.*
- LOUIS ROUND WILSON, PH.D., *Librarian.*
- ROBERT BAKER LAWSON, M.D., *Director of the Gymnasium and Demonstrator of Anatomy.*
- PALMER COBB, A.M., *Associate Professor of German.*
- JAMES FINCH ROYSTER, PH.D., *Associate Professor of the English Language.*
- HENRY MCGILBERT WAGSTAFF, PH.D., *Associate Professor of History.*
-

*GEORGE MCFARLAND MCKIE, A.M., *Instructor in Public Speaking.*

*Absent on leave, 1907-1908.

ROYALL OSCAR EUGENE DAVIS, PH.D., *Instructor in Chemistry.*

†ROBERT SHERWOOD McGEACHY, M.D., *Instructor in Therapeutics and Anaesthetics.*

THOMAS FELIX HICKERSON, PH.B., *Instructor in Mathematics.*

ERASMUS HELM KLOMAN, *Assistant in Physiology.*
CLEVELAND FAIN KIRKPATRICK, *Assistant in Zoology.*
LOUIS HARWARD WEBB, *Assistant in Zoology.*

Other Officers

WALTER DALLAM TOY, M.A., *Secretary of the Faculty.*
EBEN ALEXANDER, PH.D., LL.D., *Supervisor of the Library.*
LOUIS ROUND WILSON, PH.D., *Librarian.*
NAN SPOTSWOOD STRUDWICK, *Assistant Librarian.*
MARMADUKE ROBINS, *Assistant in the Library.*
JOHN WESLEY UMSTEAD, JR., *Assistant in the Library.*
ROBERT BAKER LAWSON, M.D., *Director of the Gymnasium.*
CHARLES DIGBY WARDLAW, *Assistant in the Gymnasium.*
WILLIE THOMAS PATTERSON, *Bursar.*
CHARLES THOMAS WOOLLEN, *Registrar.*
JOHN FRANK PICKARD, *Superintendent of Buildings.*
FRANK BISANER RANKIN, A.B., *General Secretary of the
Young Men's Christian Association.*
BENJAMIN LEONIDAS BANKS, JR., *Assistant Secretary of the
Young Men's Christian Association.*
FLOYD SIMMONS, *Director of Outdoor Athletics.*

†Resides at Raleigh, N. C.

Standing Committees of the Faculty

The President is a member, *ex officio*, of all committees.

EXECUTIVE. President Venable; Deans Alexander, Gore, Smith.

CURRICULUM. Professors Gore, H. V. Wilson, Smith, Alexander, Bruner, Noble.

AUDITING. Professors Toy, Cain, Latta.

ATHLETICS. Professors Mangum, Herty, Graham, Howe.

CATALOGUE. Professors Howe, T. J. Wilson, P. Cobb.

COMMONS. Professors Toy, Williams; Mr. McKie.

LIBRARY. Professors Alexander, Raper, Smith, Graham.

RECORD. Professors Smith, Henderson, Howe.

PROFESSIONAL SCHOOLS. Deans MacRae, Manning, Howell.

UNIVERSITY MAGAZINE. Professors Cobb, Graham, Hamilton.

YOUNG MEN'S CHRISTIAN ASSOCIATION. Professors Gore, Smith, Graham; Dr. L. R. Wilson.

PUBLIC LECTURES. Professors Smith, Alexander, Henderson; Mr. Bryan.

DEBATES. Professors Smith, Williams, Raper, Graham, Hamilton.

SELF HELP. Professors Stacy, Wheeler, Walker; Mr. Hughes.

UNIVERSITY PRESS ASSOCIATION. Professors Latta, Mills.

UNIVERSITY SERMONS. Professors Toy, Raper, Henderson.

UNIVERSITY PRESS. Professor Cobb.

CLASS REUNIONS. Professors Latta, T. J. Wilson, Howe, P. Cobb.

GRADUATE DEPARTMENT. President Venable; Professors Smith, Gore, Alexander, Toy.

ENTRANCE CERTIFICATES. Professors Gore, T. J. Wilson, Toy.

UNIVERSITY BULLETIN. Professors Latta, Stacy.

SCHEDULES. Professors Gore, T. J. Wilson.

LIBRARY APPROPRIATIONS. President Venable; Professors Alexander, Gore.

ASSIGNMENT OF ROOMS. Professor Cobb; Messrs. Davis, Hickerson.

THE UNDERGRADUATE DEPARTMENT

The Undergraduate Department comprises the College and the School of Applied Sciences. The courses of instruction outlined in the College lead to the degree of Bachelor of Arts; those in the School of Applied Sciences lead to the degree of Bachelor of Science.

ADMISSION

Admission into the Freshman Class

The requirements for admission into the Freshman class are the same for the College and the School of Applied Sciences. Candidates are received by examination or by certificates from accredited schools.

Entrance examinations are held in September. Arrangements have been made with certain schools in the State whereby examinations for admission may be held in May, also, at the schools. The University will accept the uniform entrance examination papers of the Association of Colleges and Preparatory Schools of the Southern States, provided such papers are properly vouched for and sent sealed to the University for grading. Candidates for admission by examination must report at 9 A. M., *Monday, September 7, 1908*, to the Registrar, who will appoint time and place for examination.

Students who present certificates of work accomplished at preparatory schools and colleges may be admitted without examination, provided the certificates are approved. The right to examine, however, is reserved, when such a course is deemed necessary. Certificates must be made out on the printed forms furnished on application to the Registrar. They must be submitted for approval to the Committee on Entrance Certificates in No. 2 Alumni Building during the period of registration (*September 7, 8, 9, 1908.*)

Subjects Accepted for Entrance

The subjects accepted for entrance are arranged in two groups designated respectively *Required Subjects* and *Elective Subjects*. Every subject in both lists has a valuation by units as indicated below. All candidates for entrance must offer all the studies in the list of required subjects, making a total of 11 units, and, in addition, studies enough from the list of elective subjects to make a total of 4 units. Unconditioned entrance, therefore, to any one of the three courses leading to the bachelor's degree requires a total of 15 units.

Students entering Group 1 of Freshman year (see p. 30) may offer any science or sciences of the valuation of 1 unit as the science in the required subjects. They must offer Greek *a* and *b* (2 units), and Latin *a*, *b*, *c*, and *d* (3.7 units), two units of which may be substituted for the foreign language in the required subjects.

Students entering Group 2 of Freshman year (see p. 30) must offer Physics (1 unit) as the science in the required subjects; and also Latin *a*, *b*, *c*, *d* (3.7 units), and French *a* (2 units) or German *a* (2 units), two units of which may be substituted for the foreign language in the required subjects.

Students entering Group 3 of Freshman year (see p. 30) must offer Physics (1 unit) as the science in the required subjects; and also French *a* (2 units) and German *a* (2 units), two units of which may be substituted for the foreign language in the required subjects.

The lists are as follows:

Required Subjects

| | | | |
|-------------------------------|-----------|--------------------------|----------|
| English <i>a</i> and <i>b</i> | 3. units | Solid Geometry (in 1909) | .5 unit |
| History | 2. units | Science | 1. unit |
| Algebra | 1.5 units | *Foreign Language | 2. units |
| Plane Geometry | 1. unit | | |

*By Foreign Language is meant any language except English.

Elective Subjects

| | |
|--|----------|
| History, Mediaeval | 1. unit |
| Trigonometry | .5 unit |
| Botany | 1. unit |
| Chemistry | 1. unit |
| Physics | 1. unit |
| Physiography | .5 unit |
| Physiology | .5 unit |
| Zoology | 1. unit |
| Civics | .5 unit |
| Drawing | 1. unit |
| French, Elementary | 2. units |
| Intermediate | 1. unit |
| German, Elementary | 2. units |
| Intermediate | 1. unit |
| Greek, Grammar and Composition | 1. unit |
| Xenophon | 1. unit |
| Homer | 1. unit |
| Latin, Grammar and Composition | 1. unit |
| Caesar | 1. unit |
| Cicero | .7 unit |
| Vergil | 1. unit |
| Cornelius Nepos | 1. unit |
| Spanish, Elementary | 2. units |

The requirements in each of the subjects accepted for entrance are as follows:

English: (a) Reading and Practice 1.5 units
 Shakespere's *The Merchant of Venice* and *Macbeth*; *The Sir Roger de Coverley Papers* in the *Spectator*; Irving's *Life of Goldsmith*; Coleridge's *Ancient Mariner*; Scott's *Ivanhoe* and *Lady of the Lake*; Tennyson's *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*; Lowell's *The Vision of Sir Launfal*; George Eliot's *Silas Marner*.

The candidate is expected to have sufficient knowledge of these books to enable him to answer general questions on

their substance. The form of the examination will be the composition of paragraphs on a number of topics connected with the works. The ability of the candidate to express his ideas in clear, accurate English is a main consideration. No applicant should present himself who is notably deficient in spelling, grammar, or paragraphing.

(b) Study and Practice..... 1.5 units
Shakespeare's Julius Caesar; Milton's L'Allegro, Il Penseroso, Comus, and Lycidas; Burke's Speech on Conciliation with America; Macaulay's Essays on Addison and The Life of Johnson.

The questions on these books will be on subject matter and structure.

History: Either of the following Courses:

(a) The histories of the United States, Greece, and Rome, as outlined in the best text books for high schools2. units

(b) The histories of the United States and England as outlined in the best text books for high schools... 2. units

(c) Mediaeval History 1. unit

Mathematics: (a) Algebra1.5 units

The whole of a high school algebra including quadratic equations, binomial theorem, and progressions.

(b) The whole of Plane Geometry..... 1. unit

(c) The whole of Solid Geometry (in 1909)5 unit

(d) Trigonometry5 unit

Plane trigonometry and spherical trigonometry through right triangles.

•Greek: (a) Grammar and Composition..... 1. unit

Acquaintance with the more usual forms and constructions; simple narrative in English, based upon Xenophon's Anabasis, to be translated into Greek.

(b) Xenophon 1. unit

The first four books of the Anabasis.

(c) Homer 1. unit

The first three books of the Iliad (omitting II. 494—end), with study of Homeric forms, constructions, and prosody.

- Latin: (a) Grammar and Composition..... 1. unit
 Forms, syntax, and prosody; simple narrative in English, based upon the prose read, to be translated into Latin.
 (b) Caesar 1. unit
 The first four books of the *Bellum Gallicum*.
 (c) Cicero7 unit
 The four orations against Cataline.
 (d) Vergil..... 1. unit
 The first six books of the *Aeneid*; study of hexameter verse.
 (e) Cornelius Nepos 1. unit
 The first fifteen lives.
- French: (a) Elementary2. units
 The forms and uses of the various parts of speech, including irregular verbs; translation of 250 or more pages of easy prose into idiomatic English; translation of simple English sentences into French; pronunciation.
 (b) Intermediate..... 1. unit
 Translation of 400 or more pages of French of ordinary difficulty.
- German: (a) Elementary..... 2. units
 Inflection, including the most common strong verbs; the ordinary laws of German syntax; translation of 200 or more pages of easy German into idiomatic English; translation of simple English sentences, based upon passages read, into German.
 (b) Intermediate..... 1. unit
 Translation of 400 or more pages of German of ordinary difficulty.
- Spanish: (a) Elementary 2. units
 Inflections, including the most common irregular verbs; ordinary laws of syntax; translation of 250 pages or more of easy Spanish into idiomatic English; translation of simple English sentences, based upon the passages read, into Spanish.
- Botany: 1. unit
 Anatomy, morphology; physiology; ecology; natural

history of the plant groups, and classification; laboratory work.

Chemistry: 1. unit

A course such as is contained in any standard text book; laboratory work.

Physics: 1. unit

A course such as is contained in Milliken and Gale's Physics or Carhart and Chute's High School Physics; laboratory work such as is outlined in Milliken and Gale's Physics.

Physiography:5 unit

A course such as is contained in any standard text book.

Physiology:5 unit

A course such as is contained in any standard text book.

Zoology: 1. unit

A year's course such as is contained in any standard text book.

Civics:5 unit

A course such as is contained in any standard text book.

Drawing: 1. unit

A year's work, including simple geometrical plane and solid figures, simple pieces of machinery; elementary rules of perspective, light, and shade, as applied in freehand sketching.

Admission to Advanced Standing

A candidate for advanced standing may be admitted to the Sophomore, Junior, or Senior Class, with or without complete examination. He is subject not only to the examinations required of candidates for admission into the Freshman Class, but to special examinations both in all the required studies already pursued by the class which he desires to enter, and in as many elective studies as would have been required of him as a member of that class. When satisfied with the apparent fitness of the candidate, the examining committee may, in spite of his deficiencies in some studies, admit him to an advanced class; but a candidate so admitted is not recommended for the degree until the deficien-

cies are made good. The examining committee may accept, also, with proper restrictions, the official report of work satisfactorily completed at a college or university of good standing in place of an examination upon such previous work.

A candidate for advanced standing should present himself for examination on the same days and at the same hours with candidates for admission into the Freshman Class.

THE COLLEGE

Courses Leading to the Degree of Bachelor of Arts

In order to be recommended for the degree of Bachelor of Arts, the student must have passed satisfactory examinations in all the studies required in one of the groups prescribed for the Freshman and Sophomore years, and in a number of elective studies during the Junior and Senior years sufficient to amount to an average of fifteen hours of lectures or recitations a week for each of these years.

The group of studies selected for the Freshman and Sophomore years must correspond to the group of subjects offered for entrance.

Freshman Year

| GROUP 1. | | GROUP 2. | | GROUP 3. |
|-------------------|----------|-------------------|----------|-------------------|
| English 1 (3)* | | English 1 (3) | | English 1 (3) |

*Numerals in parentheses indicate the number of hours a week in each study.

SOPHOMORE ELECTIVES: Greek 2 (3), Latin 2 (3), German 1 (3), French 1 (3), History 3 (3), History 8 (3), Botany 1 (3), Chemistry 1 (3), Geology 3 (3), Mathematics 2 (3), Physics 1 (3), Zoology 1 (3).

The selection made must in each case be submitted to Professor Howe for approval.

Junior Year

ELECTIVE STUDIES amounting to fifteen hours a week, of which at least one study must be taken from each of the following groups, A, B, and C:

A.

English 3 (3), 4 (3), 5 (3), 6 (3), 9 (2), 10 (2), 11 (2), 14 (2),
 Greek 2 (3), 4 (2), 5 (1), 6 (2), 7 (3), 9 (1), 10 (1½), 14 (1).
 Latin 2 (3), 4 (2), 5 (2), 6 (2), 7 (1), 7A (1), 8 (1), 9 (2), 10 (2).
 German 2 (3), 3 (3), 4 (3), 5 (3), 6 (3), 7 (3), 8 (3).
 French 2 (3), 3 (3), 4 (3), 5 (2).
 Spanish 1 (3), 2 (3).
 Italian 1 (3).

B.

History 2 (2), 3 (3), 4 (2), 6 (2), 7 (3), 8 (3), 12 (2).
 Philosophy 1 (3), 2 (2), 3 (2), 4 (3).
 Economics 1 (2), 2 (2), 4 (2), 5 (1), 6 (1).
 Pedagogy 1 and 2 (3) (for teachers only), 3 (1½), 4 (1½), 5 (1), 6 (1).
 School Organization 1 (1) and 2 (1) (for teachers only).
 Law (3).

C.

Mathematics 2 (3), 3 (3), 3A (3), 3B (2), 4 (3), 5 (3).
 Physics 1 (3), 2 (2), 4 (2), 4A (2), 5 (2), 6 (3), 8 (1).
 Chemistry 1 (3), 2 (3), 3 (2), 4 (3), 5 (3 to 5), 7 (2).
 Zoology 1 (3), 2 (3), 3 (3).
 Botany 1 (3), 2 (3), 3 (3).
 Geology 2 (2), 3 (3), 4 (3), 5 (2), 8 (3), 13 (1½).

The selection made must in each case be submitted to the Dean of the Faculty for approval.

Senior Year

ELECTIVE STUDIES amounting to fifteen hours a week, subject to the condition stated above for the Junior Year. In addition to the courses named for Junior Year the following courses also are open to Seniors.

A.

English 7 (2), 8 (2), 12 (2), 13 (2).

B.

History 9 (2), 10 (2).

Economics 3 (2).

C.

Mathematics 6 (3), 7 (3), 7A (2), 8 (3) 10 (2).

Physics 7 (4), 9 (1½).

Chemistry 5A (2), 6 (2), 7A (3), 7B (2), 8 (5).

Geology 6 (3).

Anatomy 1 (3).

Physiology 1 (1½).

The selection made must in each case be submitted to the Dean of the Faculty for approval.

SPECIAL COURSES

Elective studies may be selected by students who are unable to complete a course leading to the degree. Students intending to pursue these elective studies must prove their qualifications according to the regulations on page 24. After satisfying these entrance requirements, they may elect such studies as they are qualified to pursue.

Special Course for Students Intending to Teach

FIRST YEAR: English 1 (3), Mathematics 1 (4), History 1 (3), Pedagogy, 1 and 2 (3); one study from the following group: Latin 1 (4), Greek A (4), Greek 1 (4), French A (3), French 1 (3), German A (3), German 1 (3).

SECOND YEAR: English 2 (3), Physics A (3) or Chemistry 1 (3), Pedagogy 3 and 4 (3), School Organization 2 (2); electives amounting to a total of six hours from the following group: German, French, Greek, Latin, Mathematics, Geology, Physiology, History.

A certificate will be granted upon the completion of this course.

Special Course Preparatory to Medicine

English 1 (3), German 1 (3), Zoology 1 (3), Physics A (3), Chemistry 1 (3), Chemistry 3 (2).

The prerequisites for this course are the requirements of the ordinary high school course which would admit a student regularly to the University. (See page 23).

Special Course in Soil Investigation

Students who have satisfied the entrance requirements and have completed the following prerequisites and prescribed two years' course will receive a certificate on SOIL INVESTIGATION.

Prerequisites: English 1, Mathematics 1, Physics A, and two of the following: German A, French A, Spanish 1.

FIRST YEAR: English 2 (3), Chemistry 1 (3), Chemistry 3 (2), Physics 1(3), Geology 1 (3), Soils 1 (3).

SECOND YEAR: Zoology 1 (3), Botany 1 (3), Chemistry 4 (3), Geology 8 (3), Soils 2 (2), Mapping (2).

Special Course in Road Engineering

A special course in Road Engineering is offered to such students as may desire to become familiar with the construction of public roads, their drainage and location, and a certificate will be granted to those who satisfactorily complete the following prescribed one year's course.

Surveying and Leveling, Mathematics 3 (3); Soils 1 (3); Rocks for road construction (1); Road construction (3); Drainage (1); Freehand and mechanical drawing 1 (2); Traverse mapping (2) (spring term); State Roads (1).

COURSES OF INSTRUCTION

DEPARTMENT OF GREEK

EBEN ALEXANDER, PH.D., LL.D., *Professor of the Greek Language and Literature.*

WILLIAM STANLY BERNARD, A.M., *Associate Professor of Greek.*

JOHN JOHNSTON PARKER, A.B., *Fellow in Greek.*

Associate Professor BERNARD and Mr. PARKER.

- A. A course for students who have had no opportunity of studying Greek in the preparatory schools. This course may be counted for entrance only. Moss's First Greek Reader; Babbitt's Greek Grammar; Xenophon's Anabasis. *Both terms, four hours*

Associate Professor BERNARD.

1. Lysias, selected speeches; review of important grammatical principles; Homer's Iliad, books I., II., and III., and Odyssey, book VI.; reading at sight. Required of Freshmen in Group 1, elective in Group 2. *Both terms, four hours.*

Professor ALEXANDER.

2. Plato, Apology and Crito; Aristophanes, Acharnians; Euripides, Medea; reading at sight; lectures on Greek Literature. Sophomore elective in Groups 1 and 2. *Both terms, three hours.*

Mr. PARKER.

3. Prose Composition, elementary course, intended as supplementary to Greek 1. Open to students who are taking Greek 1 or 2. *Both terms, one hour.*

Professor ALEXANDER.

4. Lectures on Old Greek Life; History of Greek Art, text-book and lectures. Junior and Senior elective. *Both terms, two hours.*
5. Modern Greek; Rangabe's Handbook; Bikelas' Stories; Newspapers. Junior and Senior elective. *Spring term, two hours.*
6. Homer, rapid reading of the entire Odyssey. Junior and Senior elective. *Both terms, two hours.*

Associate Professor BERNARD.

7. Greek Drama: Euripides, Iphigenia among the Taurians; Sophocles, Oedipus Tyrannus; Aeschylus, Agamemnon; Aristophanes, Clouds; Aristotle, Poetics. Junior and Senior elective. *Both terms, three hours.*

Professor ALEXANDER.

9. Demosthenes, three Philippics. Junior and Senior elective. *Spring term, two hours.*
10. Plato, selections from Dialogues. Junior and Senior elective. *Fall term, three hours.*

Associate Professor BERNARD.

14. The Acts of the Apostles; translation, comparison of versions, and a study of New Testament grammar and diction. Junior and Senior elective. *Fall term, two hours.*

For courses 8, 11, and 12, see *Graduate School*.

A certificate is granted to a student who has completed with credit courses 1, 2, and 3, and four hours of elective work.

DEPARTMENT OF LATIN

GEORGE HOWE, PH.D., *Professor of the Latin Language and Literature.*

THOMAS JAMES WILSON, JR., PH.D., *Associate Professor of Latin.*

JOHN BRAME PALMER, *Instructor in Latin.*

OSCAR RIPLEY RAND, JR., *Assistant in Latin.*

Professor HOWE, Associate Professor WILSON, and MESSRS. PALMER and RAND.

1. Cicero, *De Senectute* and *De Amicitia*; Livy, Book I.; Horace, *Odes* and *Epodes*. Required of Freshmen in Group 1, elective in Group 2. *Both terms, four hours.*

Associate Professor WILSON and Mr. PALMER.

2. Horace, *Satires* and *Epistles*; Plautus, *Menæchmi*; Terence, *Phormio*; Tacitus, *Agricola* and *Germania*. Sophomore elective in Groups 1 and 2. *Both terms, three hours.*
3. Latin Prose Composition, based on Cicero and Livy; intended as supplementary to Latin 1. Open to students who are taking Latin 1 or 2. *Both terms, one hour.*

Associate Professor WILSON.

4. Latin Comedy: reading of selected plays of Plautus and Terence with a study of the historical development of ancient comedy. Junior and Senior elective. *Both terms, two hours.*

This course alternates with course 6; to be omitted in 1908-1909.

Professor HOWE.

5. Pliny, selected *Letters*; Juvenal, *Satires*; Martial, selected *Epigrams*; reading with special reference to the private life of the Romans at the close of the first century A. D. Junior and Senior elective. *Both terms, two hours.*

This course alternates with course 9.

Associate Professor WILSON.

6. Cicero: rapid reading of the philosophical works, *De Officiis* and *Tusculan Disputations*, and of the rhetorical works, *Brutus* and *De Oratore*. Junior and Senior elective. *Both terms, two hours.*

Professor HOWE.

7. Roman Political Institutions; lectures. Junior and Senior elective, open also to Sophomores who are taking Latin 2. *Fall term, two hours.*

This course alternates with course 7A; to be omitted in 1908-1909.

7A. The private life of the Romans; lectures. Junior and Senior elective, open also to Sophomores who are taking Latin 2. *Fall term, two hours.*

8. History of Roman Literature; lectures. Junior and Senior elective, open also to Sophomores who are taking Latin 2. *Spring term, two hours.*

9. Roman elegiac poets; a detailed study of the lives of Catullus, Tibullus, Propertius, and Ovid, with rapid reading of selected elegies. Junior and Senior elective. *Both terms, two hours.*

To be omitted in 1908-1909.

Associate Professor WILSON.

10. A course for teachers, embracing pronunciation, prosody, the art of reading Latin, and a classification of moods and tenses. Junior and Senior elective. *Both terms, two hours.*

For courses 11 and 12, see *Graduate School*.

A certificate is granted to a student who has completed with credit courses 1, 2, and 3, and six hours of elective work.

DEPARTMENT OF GERMANIC LANGUAGES

WALTER DALLAM TOY, M.A., *Professor of the Germanic Languages and Literatures.*

PALMER COBB, A.M., *Associate Professor of German.*

SIMON RAE LOGAN, *Assistant in German.*

Professor TOY, Associate Professor COBB, and Mr. LOGAN.

A. Elementary Course: grammar; written and oral exercises; translation; sight reading. This course may be counted for entrance only. *Both terms, three hours.*

Professor TOY and Associate Professor COBB.

1. Translation, sight reading, composition, grammar. Required of Freshmen in Group 3, elective in Group 2; Sophomore elective. *Both terms, three hours.*

Professor TOY.

2. Schiller: Maria Stuart, Wallenstein's Tod; Goethe: Egmont, Iphigenie auf Tauris; Lessing: Minna von Barnhelm; lectures on German Literature. Sophomore elective in Group 2; Junior and Senior elective; prerequisite, German 1. *Both terms, three hours.*

3. History of German Literature; lectures with parallel reading and written reports. Junior and Senior elective; prerequisite, German 1. *Both terms, three hours.*

This course alternates with course 7; to be omitted in 1908-1909.

4. Middle High German: Paul's Mittelhochdeutsche Grammatik; Bachmann's Mittelhochdeutsches Lesebuch; translation into New High German. Junior and Senior elective; prerequisite, German 2 or 8. *Both terms, three hours.*

This course alternates with course 5; to be omitted in 1908-1909.

Associate Professor COBB.

5. Old High German: Braune's Althochdeutsche Grammatik; Braune's Althochdeutsches Lesebuch. Junior and Senior elective; prerequisite, German 2, or 3, or 8. *Both terms, three hours.*

This course alternates with course 4.

Professor TOY.

6. Gothic: Braune's Gotische Grammatik. Introduction to Germanic Philology. Junior and Senior elective; prerequisite, German 2, or 3, or 8. *Both terms, three hours.*

7. Goethe: Goetz von Berlichingen, Tasso, Dichtung und Wahrheit, Hermann und Dorothea, Faust. Junior and Senior elective; prerequisite, German 2, or 3, or 8. *Both terms, three hours.*

This course may be elected only after consultation with the instructor.

Associate Professor COBB.

8. History of German Literature in the nineteenth century after 1832; lectures with parallel reading and topical reports.

Junior and Senior elective; prerequisite, German 1. *Both terms, three hours.*

A certificate is granted to a student who has completed with credit any four courses exclusive of course A.

DEPARTMENT OF ROMANCE LANGUAGES

JAMES DOWDEN BRUNER, PH.D., *Professor of the Romance Languages and Literatures.*

LUTHER WOOD PARKER, A.B., *Instructor in French.*

ADOLPHE VERMONT, *Instructor in the Romance Languages.*

French

MESSRS. PARKER and VERMONT.

- A. Elementary Course: grammar; pronunciation; written exercises; rapid reading of easy prose; reading at sight. This course may be counted for entrance only. *Both terms, three hours.*

Professor BRUNER.

1. Modern French Literature; rapid reading of representative novels, short-stories, and dramas; collateral reading. Required of Freshmen in Group 3; elective in Group 2; Sophomore elective. *Both terms, three hours.*
2. Modern French Drama; rapid reading of representative comedies, tragedies, and romantic dramas; constant reference, for purposes of comparison, to other great dramas, both ancient and modern; lectures on the theory of the drama. Sophomore elective in Group 2; Junior and Senior elective; prerequisite, French 1. *Both terms, three hours.*
3. The History and Theory of French Tragedy; rapid reading of the tragedies of Corneille, Racine, Voltaire, and Victor Hugo; constant reference, for purposes of comparison, to other great tragedies, both ancient and modern; lectures and discussions. Junior and Senior elective; prerequisite, French 1. *Both terms, three hours.*

4. The History and Theory of French Comedy; rapid reading of the comédies of Moliere, Régnard, Marivaux, and Beaumarchais; constant reference, for purposes of comparison, to other great comedies, both ancient and modern; lectures and discussions. Junior and Senior elective; prerequisite, French 1. *Both terms, three hours.*
5. Old French Language and Literature, with special reference to the French element in English; rapid reading of Old French texts; lectures on the history of French sounds and inflections. Junior and Senior elective; prerequisite, French 2, or 3, or 4. *Both terms, two hours.*

To be omitted in 1908-1909.

A certificate is granted to a student who has completed with credit courses 1, 2, and 3, or 4, or 5.

Spanish

Mr. VERMONT.

1. Elementary Course: grammar; pronunciation; written exercises; rapid reading of prose; reading at sight. Junior and Senior elective. *Both terms, three hours.*
2. Cervantes: rapid reading of Don Quixote. Junior and Senior elective; prerequisite, Spanish 1. *Both terms, three hours.*

To be omitted in 1908-1909.

Italian

Professor BRUNER.

1. Elementary Course: grammar; pronunciation; reading of easy prose; reading and interpretation of Dante's Divine Comedy, partly in the original and partly in English. Junior and Senior elective. *Both terms, three hours.*

DEPARTMENT OF ENGLISH

THOMAS HUME, D.D., LL.D., *Professor Emeritus of English Literature.*

CHARLES ALPHONSO SMITH, PH.D., LL.D., *Professor of the English Language and Literature.*

EDWARD KIDDER GRAHAM, A.M., *Professor of English Literature.*

JAMES FINCH ROYSTER, PH.D., *Associate Professor of the English Language.*

*GEORGE MCFARLAND MCKIE, A.M., *Instructor in Public Speaking.*

WILLIAM FRANK BRYAN, PH.B., *Instructor in English.*

JAMES MOSES GRAINGER, A.M., *Instructor in English.*

HARVEY HATCHER HUGHES, A.B., *Instructor in English.*

IRVIN LEWIS POTTER, *Instructor in Public Speaking.*

Professor SMITH, Messrs. BRYAN, GRAINGER, and HUGHES.

1. Types of Literature: the short story, the novel, the essay, and the oration; the lyric, the epic, the ballad, and the drama. This course lays the foundation for the student's later studies in both literature and composition. The aim of the course is to inspire an appreciation of good literature by an intensive study of interesting and representative types. Practice in composition will be based chiefly upon the texts read. Required of Freshmen. *Both terms, three hours.*

Associate Professor ROYSTER, Messrs. BRYAN, GRAINGER, and HUGHES.

2. History of English and American Literature. Reports on assigned readings. Required of Sophomores. *Both terms, three hours.*

Professor GRAHAM.

3. Theory and Art of Prose Composition: an advanced course designed for students who have acquired facility of expression. Exercises in exposition, argumentation, description, and narration, supplemented by lectures and

* Absent on leave, 1907-1908.

critical study of representative specimens. Wendell's English Composition, Carpenter's Model English Prose, Cooper's Theories of Style. Junior and Senior elective. *Both terms, three hours.*

Professor SMITH.

4. (a) Essays, (b) Short Stories, and (c) Orations: lectures on the essay, the short story, and the oration as forms of discourse: representative essays, short stories, and orations read and analyzed; construction of essays, short stories, and orations. (a) Lobban's English Essays, Bronson's English Essays. (b) Cody's The World's Greatest Short Stories, Nettleton's Specimens of the Short Story. (c) Frink's New Century Speaker, Swift's Great Debate Between Hayne and Webster, George's Select Speeches of Webster. Junior and Senior elective. *Both terms, three hours.*

Professor GRAHAM.

5. The Rise and Development of the English Drama through Shakespere. First term, from the Miracle plays through Lyly, Green, Kyd, and Marlowe to Jonson. Second term, a detailed study of two or three of Shakespere's plays and a rapid reading of the remainder. Pollard's English Miracle Plays, Manly's Specimens of the Pre-Shakesperean Drama, Vol. 2, Cambridge edition of Shakespere's Complete Works. Junior and and Senior elective. *Both terms, three hours.*

Associate Professor ROYSTER.

6. Introductory Course in (a) Old English, (b) Middle English, and (c) English Philology. (a) Smith's Old English Grammar and Exercise Book (4th edition). (b) Mather's edition of Chaucer's Prologue, Knight's Tale, and Nun's Priest's Tale, Emerson's Middle English Reader. (c) Lectures on the beginnings of English Philology; Grimm's Law, Verner's Law, and the Law of Analogy. Junior and Senior elective. *Both terms, three hours.*

7. Advanced studies in (a) Old English and (b) Middle English.
(a) Wyatt's Beowulf, and the discussion of the Beowulf Saga in Vol. 3 of the Grundriss der Germanischen Philologie. (b) Skeat's editions of Chaucer's Minor Poems and Legend of Good Women, Book IV, in Vol. 2 of Ten Brink's History of English Literature, Root's Poetry of Chaucer, and Ten Brink's Language and Metre of Chaucer. Prerequisite, English 6 or its equivalent. Senior elective.
Both terms, two hours.
8. English Literary Criticism: a discussion of the function, aim, and method of literary criticism and the relation of criticism to creative literature. The emphasis of the course will be upon the development of literary criticism in England, foreign influence on English criticism, and the relation of the critical standards of the various periods of English literature to literary production. There will be assigned readings in the great critics from Plato to Pater. Vaughan's English Literary Criticism. Senior elective.
Both terms, two hours.
9. The Contemporary Drama. In this course the condition of the stage and the character of the plays in England from 1840 to the present day will be sketched. The lectures will deal particularly with the imitation and adaptation of French plays, the attempts to put into dramatic form problems of contemporary life and manners, the sociological and artistic tendencies of the modern drama, the manifestations of decadence, the influence of Ibsen, the recent German drama, the literary drama, and the present-day outlook. Representative modern dramas will be assigned for reading. Junior and Senior elective.
Both terms, two hours.

Professor GRAHAM.

10. Romanticism 1789-1830. Extensive readings in Wordsworth, Coleridge, Scott, Byron, Shelley, and Keats, with some consideration of Southey, Lamb, Jeffrey, Jane Austen, Leigh Hunt, DeQuincey, and Hazlitt. Lectures on

the various phases of the Romantic revival. Junior and Senior elective. *Both terms, two hours.*

11. English Fiction in the Nineteenth Century: lectures, recitation, and papers based on readings of the authors discussed. The history of the novel up to the nineteenth century is briefly reviewed, but the main emphasis is laid upon the work of Scott, Thackeray, Dickens, Trollope, George Eliot, Hawthorne, and Mr. Merideth. Cross's *The Development of the English Novel*, Perry's *A Study of Prose Fiction*. Junior and Senior elective. *Both terms, two hours.*

Professor SMITH.

12. English Syntax. Problems in advanced grammar will be studied historically. The course will consist chiefly of lectures. Sweet's *Syntax* (Vol. 2 of his *New English Grammar*), Smith's *Studies in English Syntax*, Kellner's *Historical Outlines of English Syntax*, Einkenkel's *Syntax* (in Vol. 1 of the *Grundriss der Germanischen Philologie*), and recent theses on questions of syntax. Senior elective. *Both terms, two hours.*

Professor GRAHAM.

13. English Literature 1690-1789: lectures and study of special texts. Topics discussed during the first term: the rise and culmination of Classicism in poetry, the development of prose; during the second: the decline of Classicism and the beginnings of Romanticism. Senior elective. *Both terms, two hours.*

Professor SMITH.

14. English Poetry 1840-1905: lectures and studies of assigned texts. The work will be based upon representative selections from Tennyson, Robert Browning, Arthur Hugh Clough, Rossetti, Matthew Arnold, Swinburne, William Watson, and Kipling. Junior and Senior elective. *Both terms, two hours.*

A certificate is granted to a student who has completed, with an average grade of not less than 85, courses 1, 2, 6, and six hours of additional elective work.

Public Speaking

Mr. POTTER.

1. Declamation and Voice Culture. Sight reading. Required of Freshmen. Not counted for a degree. *Both terms, one hour.*
2. Debate: theory and practice. Analysis of debates; preparation of briefs. Junior and Senior elective; prerequisite, Public Speaking 1. *Both terms, two hours.*

DEPARTMENT OF PHILOSOPHY

HENRY HORACE WILLIAMS, A.M., B.D., *Professor of Philosophy.*

1. Psychology: lectures, with text-books. Junior and Senior elective. *Both terms, three hours.*
2. Logic; lectures, with text-books; the study of logic in life. Junior and Senior elective. *Both terms, two hours.*
3. Ethics; criticisms and discussions. Junior and Senior elective. *Both terms, two hours.*
4. Philosophy; lectures; theses; a study of the forces that shape life. Junior and Senior elective. *Both terms, three hours.*

For course 5, see *Graduate School*.

DEPARTMENT OF HISTORY

KEMP PLUMMER BATTLE, LL.D., *Professor Emeritus of History.*

—————, *Alumni Professor of History.*

JOSEPH GREGOIRE DE ROULHAC HAMILTON, PH.D., *Associate Professor of History.*

HENRY MCGILBERT WAGSTAFF, PH.D., *Associate Professor of History.*

CHARLES LEE RAPER, PH.D., *Professor of Economics.*

Associate Professors HAMILTON and WAGSTAFF.

1. American History: a general course; text and source book.
Required of Freshmen in Group 2, elective in Group 3.
Both terms, three hours.

Associate Professor WAGSTAFF.

2. Mediæval European History: a general course covering the period 400-1648; text-books, readings, and lectures.
Junior and Senior elective. *Both terms, two hours.*
3. English History: a general course; text-books, lectures, and readings. Junior and Senior elective, open also to Sophomores. *Both terms, three hours.*
4. Modern European History: a general course covering the period 1648-1900; text-books, readings, and lectures.
Junior and Senior elective. *Both terms, two hours.*
To be omitted in 1908-1909.

Associate Professor HAMILTON.

6. North Carolina History: a general study of the political, constitutional, and economic phases of the life of the State during the period 1775-1900; lectures, readings, and reports. Junior and Senior elective. *Both terms, two hours.*
7. Comparative Constitutions: a general study, in a comparative way, of the history and principles of the constitutions of the leading nations, ancient and modern; a special study by means of cases of the constitution of the United States; text-book, lectures, and cases. Junior and Senior elective.
Both terms, three hours.

Associate Professor WAGSTAFF.

8. Classical History: a general course dealing largely with the Greeks and Romans; text-books, lectures, and readings.
Junior and Senior elective, open also to Sophomores.
Both terms, three hours.

Professor RAPER.

9. Seminary: lectures and reports on certain phases of American history; discussion of the ideals and methods of

original historical research. Senior elective; prerequisite, eight hours in History. *Both terms, three hours.*

Associate Professor HAMILTON.

10. Civil War and Reconstruction: a general history of the Civil War and Reconstruction periods; lectures, readings, and reports. Senior elective. *Both terms, two hours.*
12. The Protestant Revolt and the French Revolution: a detailed study of these two great movements in European development; text-books, lectures, and readings. Junior and Senior elective. *Both terms, two hours.*

To be omitted in 1908-1909.

A certificate is granted to a student who has completed with credit fifteen hours in History.

For courses 13 and 14, see *Graduate School*.

DEPARTMENT OF ECONOMICS AND FINANCE

CHARLES LEE RAPER, PH.D., *Professor of Economics.*

1. General Economics: A general study of the principles which are involved in the production, distribution, and consumption of wealth, and of the relation of wealth to welfare; a special study of land, labor, capital, business management, and the state, as factors in the production and distribution of wealth. Readings: Raper's *Principles of Wealth and Welfare*, and Seligman's *Principles of Economics*. Junior and Senior elective. *Both terms, two hours.*
2. Public Finance: a general study of the principles which are involved in the revenues and expenditures of the state, and of the relation to the state of the industries of its citizens; a special study of taxation and the tariff. Lectures and readings. Adam's *The Science of Finance*. Junior and Senior elective. *Both terms, two hours.*
3. Economic Institutions and Thought in England and the United States: a general study, largely from the historical point of view, of the economic institutions and the systems of economic thought in England and the United

States; a special study of socialism. Lectures, readings, and reports. Cheyney's *Industrial and Social History of England*, Brooks's *The Social Unrest*, Spargo's *Socialism*. Senior elective. *Both terms, two hours.*

4. Money, Banking, and Insurance. (a) A general study of the principles, functions, and forms of money and banking; a special study of current monetary problems. Lectures and readings. Scott's *Money and Banking*, Dunbar's *Theory and History of Banking*, (2nd Ed.). (b) A general study of the principles and methods of insurance; a special study of the regulation of insurance by the state. Lectures and readings. Junior and Senior elective. *Both terms, two hours.*
5. Transportation: a general study of the principles and forms of the modern system of transportation; a special study of the American railway system and its position in American life; a special study of the relation of the state to railway management. Lectures and readings. Johnson's *American Railway Transportation*. Junior and Senior elective. *Fall term, two hours.*
6. Labor: labor as an agent in the production of wealth; wages; some wages problems, as, for instance, woman and child labor, immigration, sweating system, and poverty; some of the solutions of these problems, as, for instance, strikes, boycotts, trades unions, conciliation and arbitration, profit sharing, cooperation, industrial education, and the factory acts; the relation of the state to wages problems. Adams and Sumner's *Labor Problems*. Junior and Senior elective. *Spring term, two hours.*

The Economics Society meets monthly for the discussion of important current industrial questions.

A certificate is granted to a student who has completed, with credit, courses 1-6.

DEPARTMENT OF MATHEMATICS

WILLIAM CAIN, C.E., *Professor of Mathematics.*

ARCHIBALD HENDERSON, PH.D., *Associate Professor of Mathematics.*

MARVIN HENDRIX STACY, A.M., *Associate Professor of Civil Engineering.*

THOMAS FELIX HICKERSON, PH.B., *Instructor in Mathematics.*

WILLIAM HENRY DÜLS, A.B., *Instructor in Mathematics.*

GEORGE WESTON MITCHELL, *Instructor in Drawing.*

WILLIAM TILLMAN MCGOWAN, A.B., *Fellow in Mathematics.*

Associate Professors HENDERSON and STACY, and Messrs. HICKERSON and DÜLS.

1. Algebra, from Quadratics to Determinants (Fisher and Schwatt's *Quadratics and Beyond*); Geometry, from Book IV. through Solid Geometry (Wells's *Essentials*); Plane Trigonometry and Logarithms (Lyman and Goddard's *Trigonometry*). Required of Freshmen. *Both terms, four hours.*

Professor CAIN.

2. Brief Course in Conic Sections (Ashton's *Analytic Geometry*); Elementary Course in Differential and Integral Calculus (Cain's *Brief Course in the Calculus*). Required of Sophomores in Group 3, elective in Groups 1 and 2. *Both terms, three hours.*

Associate Professor STACY.

3. Surveying (Raymond), and Higher Surveying. Junior and Senior elective. *Both terms, three hours.*

Mr. HICKERSON.

- 3A. (a) Higher Algebra. (b) Elementary Mechanics (Loney). Junior and Senior elective; prerequisite, Mathematics 1. *Both terms, three hours.*

Mr. MITCHELL.

- 3B. Graphics: Descriptive Geometry (Church); Shades, Shadows, and Perspective (Curtis); lectures and plates. Junior and Senior elective. *Both terms, two hours.*

Professor CAIN.

4. Calculus, Analytic Mechanics. Junior and Senior elective; prerequisite, Mathematics 2. *Both terms, three hours.*
5. Theory of Equations (Burnside and Pantan). Junior and Senior elective; prerequisite, Mathematics 2. *Both terms, three hours.*
6. Differential Equations (Murray). Senior elective; prerequisite, Mathematics 4. *Both terms, three hours.*

Associate Professor STACY.

7. Railroad Surveying and Railroad Engineering. Senior elective; prerequisite, Mathematics 3. *Both terms, three hours.*

Associate Professor HENDERSON.

- 7A. Hydraulics, Sanitary Engineering. Senior elective; prerequisite, Mathematics 4. *Both terms, two hours.*
8. Mechanics of Materials. Senior elective; prerequisite, Mathematics 4. *Both terms, three hours.*
10. Stresses in Bridges and Roof Trusses, Graphical Statics. Senior elective; prerequisite, Mathematics 4. *Both terms, three hours.*

For courses 12, 13, 14, 15, and 16, see *Graduate School*.

Drawing

Mr. MITCHELL.

1. Freehand Drawing and Mechanical Drawing: (a) freehand: pencil outline, pencil shading from flat models and casts; (b) mechanical: use of instruments; geometrical constructions; freehand lettering; dimensioning; (c) plotting. Not counted for a degree. *Both terms, two hours.*
2. Mechanical and Topographical Drawing. (a) Orthographic projection, intersections, developments. (b) Machine drafting, conventional signs for materials of construction, sketching of machine details. (c) A course in tinting. (d) Topography: conventional signs, hill shading, mapping. Not counted for a degree. *Both terms, two hours.*

3. Mechanical Drawing: machine drafting, work drawings; tracing and blue prints of machine details; assembly drawing; machine design; complete shop and erection drawings with bill of material, in accordance with modern drafting room systems and standards. Not counted for a degree; prerequisite, Drawing 1 and 2. *Both terms, two hours.*
4. Elements of Architecture. Not counted for a degree; prerequisite, Drawing 1 and 2. *Both terms, two hours.*
5. Advanced Freehand Drawing: charcoal and crayon, pen and ink, brush drawing; lectures. Not counted for a degree. *Both terms, two hours.*
6. Theory of Perspective: lectures and plates. Not counted for a degree. *Both terms, two hours.*
7. Structural Drafting: standard rolled sections, conventional riveting signs, standard connections, methods of framing and detailing structural work, beams, columns, plate girders, roof trusses, bridge details. Not counted for a degree. *Both terms, two hours.*

DEPARTMENT OF PHYSICS

JOSHUA WALKER GORE, C. E., *Professor of Physics.*

JAMES EDWARD LATTA, A.M., *Associate Professor of Physics.*

JAMES HOWARD McLAIN, *Instructor in Physics.*

PERCY HOKE ROYSTER, A.B., *Fellow in Physics.*

WALTER PARKER STACY, *Assistant in Physics.*

THOMAS JOSEPH McMANIS, *Assistant in Physics.*

Professor GORE.

- A. Elementary Physics; text-book, weekly written reviews, laboratory work. May be counted only for entrance to Groups 2 and 3; open also to students in the Schools of Medicine and Pharmacy. *Both terms, three hours.*
1. General Physics; lectures, with text-book; problems; laboratory work. Required of Sophomores in Group 3;

- elective in Groups 1 and 2; prerequisite, Mathematics 1. *Both terms, three hours.*
2. Advanced General Physics; lectures, recitations, and problem work. Junior and Senior elective; prerequisite, Physics 1. *Both terms, two hours.*
 4. General Study of Electricity and Magnetism, with laboratory work. Junior and Senior elective. *Both terms, two hours.*
 - 4A. Electromagnetic Apparatus; direct current dynamos and motors; elementary study of alternating current machinery; testing and study of typical forms in the laboratory. Junior and Senior elective; prerequisite, Physics 1 and 4. *Both terms, two hours.*
 5. Descriptive Astronomy: a general course; lectures and recitations; Junior and Senior elective; prerequisite, Physics 1. *Both terms, two hours.*

Associate Professor LATTA.

6. Thermodynamics. This study is based on Edser's *Heat for Advanced Students*, Ewing's *The Steam Engine and Other Heat Engines*, and Peabody's *Thermodynamics of the Steam Engine*. Junior and Senior elective; prerequisite, Physics 1 and Mathematics 2. *Both terms, three hours.*
7. Alternating Currents and Alternating Current Machinery; lectures and problem work; testing and study of alternating current machines in the laboratory. Text-books: Franklin and Williamson's *Alternating Currents and Alternating Current Machinery*, and Hay's *Alternating Currents*. Senior elective; prerequisite, Physics 1 and 4A. *Both terms, four hours.*
8. Primary and Secondary Batteries; Electric Lighting. Junior and Senior elective; prerequisite, Physics 1 and Chemistry 1. *Fall term, two hours.*
9. Electric Wiring and Distribution: a study of circuits for light and power. Senior elective; prerequisite, fall term of Physics 7. *Spring term, three hours.*

For courses for graduates, see *Graduate School*.

DEPARTMENT OF CHEMISTRY

CHARLES HOLMES HERTY, PH.D., *Smith Professor of General and Industrial Chemistry.*

ALVIN SAWYER WHEELER, PH.D., *Associate Professor of Organic Chemistry.*

JAMES EDWARD MILLS, PH.D., *Associate Professor of Physical Chemistry.*

ROYALL OSCAR EUGENE DAVIS, PH.D., *Instructor in Physical Chemistry.*

GEORGE FERREE LEONARD, A.B., *Fellow in Chemistry.*

FREDERICK BOOTH STEM, B.S., *Fellow in Chemistry.*

ROBINSON BATTLE HARDISON, A.B., *Assistant in Chemistry.*

JOHN QUINCY JACKSON, *Assistant in Chemistry.*

STROWD JORDAN, M.S., *Assistant in Chemistry.*

Professor HERTY and DR. DAVIS.

1. General Descriptive Chemistry: a study of the elements and their compounds, including an introduction to Organic Chemistry; lectures with laboratory work. Required of Sophomores in Group 3, elective in Groups 1 and 2. *Both terms, three hours.*

Laboratory fee: Fall term, \$1.00, Spring term, \$1.50.

Professor HERTY.

2. Technical Chemistry. (a) Industrial and Agricultural Chemistry; glass-making, acids, alkalies, phosphates, fertilizers, foods, clothing, hygiene, etc. (b) Metallurgy: mining, treatment of ores, smelting, chlorination, fuel, building materials, etc. Junior and Senior elective; prerequisite, Chemistry 1. *Both terms, three hours.*

Associate Professor WHEELER and Mr. JORDAN.

3. Qualitative Analysis; laboratory work with lectures. May be taken with Chemistry 1. Junior and Senior elective. *Both terms, two hours.*

Laboratory fee, \$5.00 a term.

Associate Professor MILLS.

4. Quantitative Analysis and Assaying; laboratory work, lectures, and stoichiometric exercises; a grounding in analytical methods. Junior and Senior elective; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*

Laboratory fee, \$5.00 a term.

Associate Professor WHEELER.

5. Organic Chemistry. Junior and Senior elective; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*

Laboratory fee, \$4.00 a term.

- 5A. Organic Chemistry; special preparations. Senior elective. *Both terms, laboratory, two hours.*

Laboratory fee, \$6.00 a term.

Professor HERTY.

6. The Theories of Chemistry. Senior elective; prerequisite, Chemistry 1, 3, 4, 5. *Both terms, two hours.*

Associate Professor MILLS.

7. Elementary Physical Chemistry. Junior and Senior elective; prerequisite, Chemistry 1 and 3. *Both terms, two hours.*

- 7A. Physical Chemistry; lectures and text-books, with laboratory work. Senior elective; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*

Laboratory fee, \$2.00 a term,

- 7B. Electro-Chemistry: theory and application of electricity to chemical processes. Senior elective; prerequisite, Chemistry 1 and 3. *Both terms, two hours.*

Professor HERTY.

8. Quantitative Analysis; laboratory work; gas analysis and extension of course 4 in technical lines; bacteriological examination of water (with Professor MacNider); research. Senior elective; prerequisite, Chemistry 1, 3, and 4. *Both terms, five hours.*

Laboratory fee, \$10.00 a term.

The Journal Club meets fortnightly. The current journals, American, English, German, and French, both the purely scientific and the technical, are reviewed by the students and instructors. Attendance is expected of students in all courses except 1 and 3.

For courses 9 and 10, see *School of Medicine* and *School of Pharmacy*.
For courses 11, 12, 13, 14, and 15, see *Graduate School*.

DEPARTMENT OF BIOLOGY

HENRY VAN PETERS WILSON, PH.D., *Professor of Zoology*.

WILLIAM CHAMBERS COKER, PH.D., *Associate Professor of Botany*.

CLEVELAND FAIN KIRKPATRICK, *Assistant in Zoology*.

LOUIS HARWARD WEBB, *Assistant in Zoology*.

BEVERLY OSCAR SHANNON, *Assistant in Botany*.

Zoology

Professor WILSON and Messrs. KIRKPATRICK and WEBB.

1. General Zoology: an introductory course giving an outline of the classification and structure of animals, with consideration of the fundamentals of histology, embryology, and physiology, and some consideration of biological theories; lectures with laboratory work. Junior and Senior elective, open also to Sophomores in Group 3, and to First Year medical students. *Both terms, three hours.*
2. Comparative Anatomy and Embryology of the Vertebrates; study of types of fishes, amphibia, reptiles, birds, mammals; development of the characteristic vertebrate organs in the frog and chick; fundamentals of microscopic technique; laboratory work with occasional lectures. Junior and Senior elective. *Both terms, three hours.*
3. Comparative Anatomy and Embryology of the Invertebrates; dissection and microscopic study of types of the chief orders, with some consideration of their embryology; laboratory work with occasional lectures. Junior and Senior elective. *Both terms, three hours.*

A certificate is granted to a student who has completed with credit courses 1, 2, and 3, and Botany 1.

Botany

Associate Professor COKER and Mr. SHANNON.

1. General Botany: an introduction to the structure and classification of plants; lectures with laboratory work. Junior and Senior elective, open also to Sophomores in Group 3. *Both terms, three hours.*
2. Special Morphology of the mosses, ferns, and higher plants, with particular consideration of homologies; lectures with laboratory and field work. Junior and Senior elective. *Both terms, three hours.*
3. Special Morphology of the Algae and Fungi, with attention to the culture of lower fungi, and the identification of mushrooms; lectures with laboratory and field work. Junior and Senior elective. *Both terms, three hours.*

DEPARTMENT OF GEOLOGY AND MINERALOGY

COLLIER COBB, A.M., *Professor of Geology and Mineralogy.*

JOSEPH HYDE PRATT, PH.D., *State Geologist and Professor of Economic Geology.*

HARRY NELSON EATON, A.M., *Instructor in Geology.*

HUBERT HILL, B.S., *Assistant in Geology.*

Professor COBB and Mr. HILL.

1. Elementary Geology; lectures with field work; laboratory work on the common minerals and rocks. Freshman elective in Group 3. *Both terms, three hours.*

Mr. EATON.

2. Mineralogy; lectures with laboratory and field work; Crosby's *Tables* and Dana's *Text-book of Mineralogy*. Junior and Senior elective; prerequisite, Geology 1 and Chemistry 3. *Both terms, three hours.*

Professor COBB.

3. General Critical Geology; lectures with field work; laboratory work on rocks and fossils; theses. Junior and Senior elective, open also to Sophomores in Group 3. *Both terms, three hours.*

Mr. EATON.

4. Economic Geology: ore deposits and minerals; lectures with laboratory and field work. Junior and Senior elective; prerequisite, Geology 1 or 3 and Chemistry 1 and 3. *Both terms, three hours.*
5. Petrography; lectures, laboratory work, and theses. Junior and Senior elective; prerequisite, Geology 1 or 3. *Both terms, three hours.*

Professor COBB.

6. Advanced field work and special research in Geology or Geography; problems and work adapted to the professional needs of the student. Senior elective; prerequisite, Geology 2 and 3. *Both terms, three hours.*
7. Advanced course in Physiography. Senior elective; prerequisite, Geology 3, Zoology 1, Botany 1. *Both terms, three hours.*
8. Origin and Nature of Soils; field work, laboratory work, and theses. Junior and Senior elective. *Both terms, three hours.*

Professor PRATT.

11. Mineral and Ore Deposits; lectures supplemented by laboratory and field work. Prerequisite, Geology 1 and 2 and Chemistry 3. *Twenty-four lectures (Spring term).*
12. Principles and Practice in General Mining; lectures supplemented by visits to different mining regions.

Professor COBB.

13. Advanced Geological Field Work and Special Research; studies in the Deep River and Wadesboro areas of the

Triassic rocks; a brief examination of the Potomac, Eocene, Lafayette, and Columbia deposits. This course is given in the summer. It covers five weeks, of which one is spent in Chapel Hill with daily meetings; the remaining four weeks are devoted to field work. Students who take this course will be expected to devote all their time to it. Junior and Senior elective. *One term, three hours.*

The Geological Seminary meets fortnightly for review and discussion of current geological literature, and for the presentation of original papers

For course 9, see *Graduate School*.

Course in Soil Investigation

Professor COBB and Mr. HEARNE.

1. Agricultural Soils: an elementary course covering the nature, origin, and classification of soils, based on G. P. Merrill's *Rocks, Rock Weathering and Soils*, F. H. King's *The Soil*, and reports and bulletins of the Bureau of Soils, U. S. Department of Agriculture; lectures, reading, and field and laboratory work. Open to Juniors and Seniors. *Fall term, three hours.*
2. Soils of the United States: an introductory study of the chief soil provinces, soil series, and soil areas of the United States, with special reference to the soils of North Carolina. Open only to graduates. *Spring term, two hours.*
3. Soil Mapping: preparation of large scale soil maps of the Chapel Hill region. Not counted for a degree.
4. Soil Seminary. Study of soil literature with preparation of reports on selected subjects. Open to students engaged in soil work. *One evening each week during February and March.*

DEPARTMENT OF EDUCATION

MARCUS CICERO STEPHENS NOBLE, *Professor of Pedagogy.*

NATHAN WILSON WALKER, A.B., *Professor of Secondary Education.*

LOUIS ROUND WILSON, PH.D., *Librarian.*

Pedagogy

Professor NOBLE.

1. The Science of Education: the practical application of scientific principles to the teaching of elementary branches; a brief study of modern educational problems; preparation of model lessons according to pedagogical principles; lectures and theses; De Garmo's *Essentials of Method*. Junior and Senior elective, open only to those who intend to teach (not counted for a degree unless Pedagogy 2 is also taken). *Full term, three hours.*
2. The Art of Teaching: a careful study of the principles and methods involved in successfully teaching those studies usually taught in the best public and private primary schools; lectures and theses; McMurray's *General Method*. Junior and Senior elective, open only to those who intend to teach; prerequisite, Pedagogy 1. *Spring term, three hours.*
3. The Philosophy of Education; Science and Practice of Education (Herbart): comparative study of the different systems of education in the several States of the Union; the development and arrangement of a High School course. Junior and Senior elective. *Full term, three hours.*
4. The General History of Education; the development of educational ideals in the past; the effect of the pedagogical doctrines of the great educators of the past upon modern educational systems; lectures; parallel readings; criticisms; theses; Seeley's *History of Education*, Monroe's *Educational Ideal*. Junior and Senior elective. *Spring term, three hours.*
5. The study of childhood in transforming modern methods of studying and teaching educational science; readings, dis-

cussions, and theses. Junior and Senior elective. *Fall term, two hours.*

6. Historical Pedagogy. The attempt is made in this course to investigate the Herbartian movement in Germany and the United States. The works of Rein, Story, Ziller, Lange, and others are studied. Theses. Junior and Senior elective. *Spring term, two hours.*

A certificate is granted to a student who has completed with credit courses 1-6 inclusive.

For course 7 see *Graduate School*.

Secondary Education

Professor WALKER.

1. High School Organization: a study of high school curricula and methods. Open to teachers. *Fall term, two hours.*
2. A study of present-day forces in American education, with special attention to the educational problems and conditions in the Southern States. Open to teachers. *Spring term, two hours.*

Library Administration

Dr. WILSON.

1. Library Administration: a study of library administration, bibliography, book selection, reading courses, debate references, indexing, and technical library methods; practice in the University library. This course may not be counted for a degree unless allowed by the Executive Committee. *Both terms, two hours.*

SCHOOL OF APPLIED SCIENCES

COURSES LEADING TO THE DEGREE OF BACHELOR OF SCIENCE.

In order to be recommended for the degree of Bachelor of Science, the student must have passed satisfactory examinations in all the studies required in one of the four courses outlined in this department. Each course combines instruction in certain sciences and their application to the arts with certain other general studies deemed essential for a liberal education. These courses are designed to furnish the fundamental instruction and to prepare students to pursue the technical professions to which they lead. The courses are four in number:

- I. Chemical Engineering.
- II. Electrical Engineering.
- III. Civil Engineering.
- IV. Mining Engineering.

I. CHEMICAL ENGINEERING

COURSES OF INSTRUCTION

Only those scientific courses which are specifically required in the School of Applied Sciences are repeated here. A choice of courses in ancient and modern languages is offered to Freshmen, as outlined on page 62. For complete description of these courses, see pages 35ff.

DEPARTMENT OF MATHEMATICS

Associate Professors HENDERSON and STACY, and Messrs. HICKERSON and DULS.

1. Algebra, from Quadratics to Determinants (Fisher and Schwatt's *Quadratics and Beyond*); Geometry, from Book IV. through Solid Geometry (Wells's *Essentials*); Plane Trigonometry and Logarithms (Ashton and Marsh's *Trigonometry*). Required of Freshmen. *Both terms, four hours.*

Professor CAIN.

2. Brief course in Conic Sections (Ashton's *Analytic Geometry*); Elementary Course in Differential and Integral Calculus (Cain's *Brief Course in the Calculus*). Required of Sophomores. *Both terms, three hours.*

Associate Professor STACY.

3. (a) Surveying (Raymond), and (b) Higher Surveying. Required of Sophomores in Course III., of Juniors in Course II., and of Seniors in Course IV. *Both terms, three hours.*

Mr. MITCHELL.

- 3B. Graphics: Descriptive Geometry (Church); Shades, Shadows, and Perspective (Curtis). Required of Juniors in Course III. *Both terms, two hours.*

Professor CAIN.

4. Calculus, Analytic Mechanics. Required of Juniors in Courses III. and IV., and elective in Course II.; prerequisite, Mathematics 2. *Both terms, three hours.*

Associate Professor STACY.

7. Railroad Surveying and Railroad Engineering. Required of Juniors in Course III.; prerequisite, Mathematics 3. *Both terms, three hours.*

Associate Professor HENDERSON.

- 7A. Hydraulics, Sanitary Engineering. Required of Seniors in Course III.; prerequisite, Mathematics 4. *Both terms, three hours.*
8. Mechanics of Materials. Required of Seniors in Course III.; prerequisite, Mathematics 4. *Both terms, three hours.*
10. Stresses in Bridges and Roof Trusses, Graphical Statics. Required of Seniors in Course III.; prerequisite, Mathematics 4. *Both terms, three hours.*

Drawing

Mr. MITCHELL.

1. Freehand Drawing and Mechanical Drawing: (a) freehand: pencil outline, pencil shading from the flat models and casts; (b) mechanical: use of instruments; geometrical constructions; freehand lettering; dimensioning; (c) plotting. Required of Sophomores in Course III. and of Juniors in Courses I., II., and IV. *Both terms, two hours.*
2. Mechanical and Topographical Drawing. (a) Orthographic projection; intersections; developments. (b) Machine drafting, conventional signs for materials of construction, sketching of machine details. (c) A course in tinting. (d) Topography: conventional signs; hill shading; mapping. Required of Juniors in Course III., and of Seniors in Courses II. and IV. *Both terms, two hours.*

DEPARTMENT OF PHYSICS

Professor GORE.

1. General Physics; lectures, with text-book; problems; laboratory work. Required of Sophomores; prerequisite, Mathematics 1. *Both terms, three hours.*
4. General Study of Electricity and Magnetism, with laboratory work. Required of Sophomores in Course II. *Both terms, two hours.*
- 4A. Electromagnetic Apparatus; direct current dynamos and motors; elementary study of alternating current machinery; testing and study of typical forms in the laboratory. Required of Juniors in Course II; prerequisite, Physics 1 and 4. *Both terms, two hours.*

Associate Professor LATTA.

6. Thermodynamics. This study is based on Edser's *Heat for Advanced Students*, Ewing's *The Steam Engine and Other Heat Engines*, and Peabody's *Thermodynamics of the Steam Engine*. Required of Juniors in Courses II. and IV. and of Seniors in Course I.; prerequisite, Physics 1 and Mathematics 2. *Both terms, three hours.*
7. Alternating Currents and Alternating Current Machinery; lectures and problem work; testing and study of alternating current machines in the laboratory. Text-books: Franklin and Williamson's *Alternating Currents and Alternating Current Machinery*, and Hay's *Alternating Currents*. Required of Seniors in Course II.; prerequisite, Physics 1 and 4A. *Both terms, four hours.*
8. Primary and Secondary Batteries; Electric Lighting. Required of Seniors in Course II.; prerequisite, Physics 1 and Chemistry 1. *Fall term, two hours.*
9. Electric Wiring and Distribution: a study of circuits for light and power. Required of Seniors in Course II.; prerequisite, fall term of Physics 7. *Spring term, three hours.*

DEPARTMENT OF CHEMISTRY

Professor HERTY and Dr. DAVIS.

1. General Descriptive Chemistry: a study of the elements and their compounds, including an introduction to Organic Chemistry; lectures with laboratory work. Required of Sophomores.. *Both terms, three hours.*

Laboratory fee: Fall term, \$1.00, Spring term, \$1.50.

Professor HERTY.

2. Technical Chemistry. (a) Industrial and Agricultural Chemistry: glass-making, acids, alkalies, phosphates, fertilizers, foods, clothing, hygiene, etc. (b) Metallurgy: mining, treatment of ores, smelting, chlorination, fuel, building materials, etc. Required of Juniors in Courses I. and IV., and of Seniors in Course II.; prerequisite, Chemistry 1. *Both terms, three hours.*

Associate Professor WHEELER and Mr. JORDAN.

3. Qualitative Analysis; laboratory work with lectures. May be taken with Chemistry 1. Required of Sophomores in Courses I., II., and IV. *Both terms, two hours.*

Laboratory fee, \$5.00 a term.

Associate Professor MILLS.

4. Quantitative Analysis and Assaying; laboratory work, lectures, and stoichiometric exercises; a grounding in analytical methods. Required of Juniors in Course I., and of Seniors in Course IV., Junior elective in Course II.; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*

Laboratory fee, \$5.00 a term.

Associate Professor WHEELER.

5. Organic Chemistry. Required of Juniors in Course I.; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*

Laboratory fee, \$4.00 a term.

- 5A. Organic Chemistry: special preparations. Senior elective in Course I. *Both terms, laboratory, two hours.*
Laboratory fee, \$6.00 a term.

Professor HERTY.

6. The Theories of Chemistry. Required of Seniors in Course I.; prerequisite, Chemistry 1, 3, 4, 5. *Both terms, two hours.*

Associate Professor MILLS.

7. Elementary Physical Chemistry. Required of Juniors in Course I.; prerequisite, Chemistry 1 and 3. *Both terms, two hours.*

- 7A. Physical Chemistry; lectures and text-books, with laboratory work. Senior elective in Course I.; prerequisite, Chemistry 1 and 3. *Both terms, three hours.*
Laboratory fee, \$2.00 a term.

- 7B. Electro-Chemistry; theory and application of electricity to chemical processes. Senior elective in Course 1; prerequisite, Chemistry 1 and 3. *Both terms, two hours.*

Professor HERTY.

8. Quantitative Analysis; laboratory work, gas analysis, and extension of course 4 in technical lines; bacteriological examination of water (with Professor MacNider); research. Required of Seniors in Course I.; prerequisite, Chemistry 1, 3, and 4. *Both terms, five hours.*
Laboratory fee, \$10.00 a term.

The Journal Club meets fortnightly. The current journals, American, English, German, and French, both the purely scientific and the technical, are reviewed by the students and instructors. Attendance is expected of students in all courses except 1 and 3.

DEPARTMENT OF GEOLOGY AND MINERALOGY

Professor COBB and Mr. HILL.

1. Elementary Geology; lectures with field work; laboratory

work on the common minerals and rocks. Freshman elective in Group 3. *Both terms, three hours.*

Mr. EATON.

2. Mineralogy; lectures with laboratory and field work; Crosby's *Tables* and Dana's *Text-book of Mineralogy*. Required of Juniors in Course IV. and of Seniors in Course I. *Both terms, three hours.*

Professor COBB.

3. General Critical Geology; lectures with field work; laboratory work on rocks and fossils; theses. Required of Sophomores in Course IV. and of Juniors in Course III. *Both terms, three hours.*

Mr. EATON.

4. Economic Geology: ore deposits and economic minerals; lectures with laboratory and field work. Required of Seniors in Course IV.; prerequisite, Geology 1 or 3 and Chemistry 1 and 3. *Both terms, three hours.*

Professor COBB.

6. Advanced field work and special research in Geology or Geography; problems and work adapted to the professional needs of the student. Required of Seniors in Course IV.; prerequisite, Geology 2 and 3. *Both terms, three hours.*

Professor PRATT.

11. Mineral and Ore Deposits; lectures supplemented by laboratory and field work. Required of Juniors in Course IV. *Twenty-four lectures (Spring term).*
12. Principles and Practice in General Mining; lectures supplemented by visits to different mining regions. Required of Seniors in Course IV.

The Geology Seminary meets fortnightly for review and discussion of current geological literature, and for the presentation of original papers.

THE GRADUATE SCHOOL

COMMITTEE

FRANCIS PRESTON VENABLE, PH.D., LL.D., PRESIDENT.
CHARLES ALPHONSO SMITH, PH.D., LL.D., DEAN.
JOSHUA WALKER GORE, C.E.
EBEN ALEXANDER, PH.D., LL.D.
WALTER DALLAM TOY, M.A.

CANDIDATES FOR GRADUATE WORK

Graduates of the University of North Carolina and of other universities and colleges of good standing are, upon application to the President or Dean, ordinarily admitted to advanced courses of instruction, free of charge for tuition. There is, however, a registration fee of twelve dollars and a half. An applicant for admission, unless a graduate of the University of North Carolina, is required to present his diploma and a certificate of scholarship and character. If in any department the preliminary training of candidates has not been sufficient to qualify them for strictly graduate work, they will be required to take such undergraduate courses as may be prescribed by the head of the department; but these courses will not be counted for hours in work leading to a graduate degree.

Students who are not graduates may, if they prove themselves qualified, take graduate courses; but no graduate degree will be given to a student who does not already hold a Bachelor's degree from some institution of approved standing.

All courses must be approved by the President or Dean.

DEGREES

The University offers to graduate students advanced work leading to the degrees of Master of Arts (A.M.), Master of Science (S.M.), and Doctor of Philosophy (Ph.D.).

Master of Arts

Candidates for the degree of Master of Arts must complete satisfactorily one year of graduate work consisting of at least fifteen hours a week of recitations or lectures, eight hours of which must be taken from courses in the Graduate Department, the remaining seven from courses in the Graduate Department or from undergraduate courses open only to Juniors and Seniors. The candidate shall select one major subject and two minor subjects. The course as a whole must have unity and must be pursued with definite aim.

A thesis based on the major subject of study and showing capacity for original research, must be submitted on or before May 1 of the given year, and must be filed in typewritten form on or before May 15.

Master of Science

The degree of Master of Science is conferred in the School of Applied Sciences under conditions similar to those stated above for the degree of Master of Arts.

Doctor of Philosophy

A candidate for the degree of Doctor of Philosophy is required to pursue, in residence at the University, a prescribed course of advanced study and research in one major subject and two allied minor subjects. In general a term of three years is required, but the degree may be secured in two years in the case of exceptional preliminary training in the major subject.

These requirements of residence and study are, however, entirely secondary. The degree is conferred not simply for faithful study in a determinate field of work for a prescribed period, but because of a high attainment in a special branch of learning, which the candidate must have manifested not only in examination, but by a thesis which gives evidence of independent research and contributes to knowledge. The candidate should choose his major subject in a department in which he has already pursued, for a considerable period, a systematic course of study. To receive this degree,

a knowledge of French and German will be found indispensable in most instances. The thesis must be accepted before the candidate may be admitted to examination. The examinations are both written and oral. They demand a minute knowledge of a special field of work as well as a general acquaintance with the department of learning in which the candidate offers himself for the degree.

COURSES OF INSTRUCTION

DEPARTMENT OF GREEK

Professor ALEXANDER.

7. Greek Drama: Euripides, Iphigenia among the Taurians; Sophocles, Oedipus Tyrannus; Aeschylus, Agamemnon; Aristophanes, Clouds; Aristotle, Poetics. *Both terms, three hours.*
8. Prose Composition, advanced course. *Fall term, two hours.*
11. Greek History: the selections from Greek historians in parts I. and II. of Baumeister's *Quellenbuch zur Alten Geschichte*. *Both terms, two hours.*
12. Bucolic Poetry: the Idylls of Theocritus, Bion, and Moschus. *Both terms, two hours.*

DEPARTMENT OF LATIN

Professor HOWE.

5. Pliny, selected letters; Juvenal, Satires; Martial, selected epigrams; reading with special reference to the private life of the Romans at the close of the first century A. D. *Both terms, two hours.*
9. Roman elegiac poets: a detailed study of the lives of Catullus, Tibullus, Propertius, and Ovid, with rapid reading of selected elegies. *Both terms, two hours.*
11. The study of a particular author or period in Roman literature; practice in rapid reading, with translation of the more difficult passages only. *Both terms, two hours.*

Associate Professor WILSON.

12. Lectures on comparative syntax of Greek and Latin; principles illustrated from Homer and Terence. *Both terms, two hours.*

DEPARTMENT OF GERMANIC LANGUAGES

Professor TOY.

4. Middle High German: Paul's *Mittelhochdeutsche Grammatik*; Bachmann's *Mittelhochdeutsches Lesebuch*; translation into New High German. *Both terms, three hours.*

Associate Professor COBB.

5. Old High German: Braune's *Althochdeutsche Grammatik*; Braune's *Althochdeutsches Lesebuch*. This course alternates with German 4. *Both terms, two hours.*

Professor TOY.

6. Gothic; Braune's *Gotische Grammatik* and Heyne's *Ulfilas*. This course is intended to lay a foundation for the philological study of the Germanic dialects. The journals at the disposal of students of Germanic philology are mentioned below under the department of *English*, p. 78. *Both terms, three hours.*
7. Goethe: Goetz von Berlichingen, Tasso, Dichtung and Wahrheit, Gedichte, Faust. In connection with the interpretation of the texts, the life of Goethe will be studied. Selected chapters of Herman Grimm's *Vorlesungen*, Scherer's *History of German Literature*, and Francke's *History of German Literature* will be read. *Both terms, three hours.*

DEPARTMENT OF ROMANCE LANGUAGES

Professor BRUNER.

3. The History and Theory of French Tragedy; rapid reading of the tragedies of Corneille, Racine, Voltaire, and Victor Hugo; constant reference, for purposes of comparison, to other tragedies, both ancient and modern; lectures and discussions. *Both terms, three hours.*
4. The History and Theory of French Comedy; rapid reading of the comedies of Moliere, Regnard, Marivaux, and Beaumarchais; constant reference, for purposes of comparison,

to other comedies, both ancient and modern; lectures and discussions. *Both terms, three hours.*

5. Old French Language and Literature, with special reference to the French element in English; rapid reading of Old French texts; lectures on the history of French sounds and inflections. *Both terms, two hours.*

To be omitted in 1908-1909.

DEPARTMENT OF ENGLISH

The resources of the Graduate Department of English have been greatly increased by the enlightened generosity of Mr. Eugene M. Armfield, of High Point, N. C., an alumnus of this institution, who has put at the disposal of the Department the annual sum of three hundred dollars for the purchase of books, pamphlets, journals, and other special studies in advanced English.

Candidates for the degree of Doctor of Philosophy who elect advanced work in the English language as their major subject will be expected to take one or more courses in the Germanic languages. All graduate work in the English language presupposes English 6, or its equivalent, and a reading knowledge of German; but, in exceptional cases, English 6 and German A may be taken along with the English graduate courses.

Associate Professor ROYSTER.

7. Advanced studies in (a) Old English and (b) Middle English.
(a) Wyatt's or Heyne's *Beowulf*, Thomas Arnold's *Notes on Beowulf*, Forster's *Beowulf-Materialien*, and the discussion of the Beowulf Saga in volume III. of the *Grundriss der Germanischen Philologie*. (b) Skeat's edition of Chaucer's *Minor Poems* and *Legend of Good Women*, Book IV. in volume II. of Ten Brink's *History of English Literature*, with selected chapters from Lounsbury's *Studies in Chaucer*, and Ten Brink's *Language and Metre of Chaucer*. *Both terms, two hours.*
8. English Literary Criticism: a discussion of the function, aim, and method of literary criticism and the relation of

criticism to creative literature. The emphasis of the course will be upon the development of literary criticism in England, foreign influence on English criticism, and the relation of the critical standards of the various periods of English literature to literary production. There will be assigned readings in the great critics from Plato to Pater. Vaughan's *English Literary Criticism*. *Both terms, two hours.*

Professor GRAHAM.

10. Romanticism 1789-1830. Extensive readings in Wordsworth, Coleridge, Scott, Byron, Shelley, and Keats, with some consideration of Southey, Lamb, Jeffrey, Jane Austen, Leigh Hunt, DeQuincey, and Hazlitt. Lectures on the various phases of the Romantic revival. *Both terms, two hours.*
13. English Literature 1690-1789: lectures and study of special texts. Topics discussed during the first term: the rise and culmination of Classicism in poetry, the development of prose; during the second: the decline of Classicism and the beginnings of Romanticism. *Both terms, two hours.*

Professor SMITH.

12. English Syntax. Problems in advanced grammar will be studied historically. The course will consist chiefly of lectures; Sweet's *Syntax* (volume II. of his *New English Grammar*), Smith's *Studies in English Syntax*, Kellner's *Historical Outlines of English Syntax*, Eichenkel's *Syntax* (in volume I. of the *Grundriss der Germanischen Philologie*), and recent theses on questions of syntax. *Both terms, two hours.*
14. English Poetry 1830-1905: lectures and studies of assigned texts. The work will be based upon representative selections from Tennyson, Robert Browning, Arthur Hugh Clough, Rossetti, Matthew Arnold, Swinburne, William Watson, and Kipling. *Both terms, two hours.*

Among the publications accessible to graduate students of English and German may be mentioned: *Anglia und Beiblatt*, (complete set), *Englische Studien*, (complete set), *Herrig's Archiv*, *Paul und*

Braune's Beiträge (complete set), *Publications of the Modern Language Association of America*, *Modern Language Notes*, *Modern Language Review* (London), *Dialect Notes*, *Publications of the Early English Text Society* (complete set), *Journal of English and Germanic Philology*.

DEPARTMENT OF PHILOSOPHY

Professor WILLIAMS.

5. Epistemology: a study of the Critical Philosophy; lectures; theses. First year: Prolegomena and Practical Reason and the works that prepared the way for Kant. Second year: *Kritik der reinen Vernunft*. Both terms, three hours.

DEPARTMENT OF HISTORY

Professor RAPER.

9. Seminary: lectures and reports on certain phases of American history; discussions of the ideals and methods of original research. Both terms, two hours.

Associate Professor HAMILTON.

10. Civil War and Reconstruction: lectures and research in the history of the Civil War and Reconstruction. Both terms, two hours.
14. American Politics: research in the history of the political parties in the United States. Both terms, two hours.

Associate Professor WAGSTAFF.

13. The American Constitution: research in the history of the Constitution of the United States. Both terms, two hours.

DEPARTMENT OF ECONOMICS

Professor RAPER.

3. Economic Institutions and Thought in England and the United States; a general study, largely from the historical point of view, of the economic institutions and systems of economic thought in England and the United States; a

special study of socialism. Lectures, readings, and reports. Cheyney's *Industrial and Social History of England*, Brooks's *The Social Unrest*, Spargo's *Socialism*. *Both terms, two hours.*

DEPARTMENT OF MATHEMATICS

Professor CAIN.

4. Calculus; Analytic Mechanics; prerequisite, Mathematics 2. *Both terms, three hours.*
5. Theory of Equations (Burnside and Panton). *Both terms, three hours.*
6. Differential Equations (Murray). *Both terms, three hours.*
15. Advanced Differential and Integral Calculus (Byerly, Edwards); lectures. *Both terms, two hours.*

Associate Professor HENDERSON.

- 7A. Hydraulics, Sanitary Engineering. *Both terms, three hours.*
8. Mechanics of Materials; prerequisite, Mathematics 4. *Both terms, three hours.*
10. Stresses in Bridges and Roof Trusses; Graphical Statics; prerequisite, Mathematics 4. *Both terms, three hours.*

Associate Professor STACY.

7. Railroad Surveying and Railroad Engineering. *Both terms, three hours.*

DEPARTMENT OF PHYSICS

Associate Professor LATTA.

6. Thermodynamics. This study is based on Edser's *Heat for Advanced Students*, Ewing's *Steam Engines and Other Heat Engines*, and Peabody's *Thermodynamics of the Steam Engine*; prerequisite, Physics 1 and Mathematics 2. *Both terms, three hours.*
7. Alternating Currents and Alternating Current Machinery; testing and study of alternating current machines in the laboratory; lectures and problem work. Text books:

Franklin and Williamson's *Alternating Currents* and Hay's *Alternating Currents*; prerequisite, Physics 1 and 4A. *Both terms, four hours.*

9. Electric Power Transmission. *Spring term, two hours.*
10. Electric Testing; experimental study of electromagnetic machinery and other apparatus; prerequisite, Physics 7. *Both terms, three hours.*

DEPARTMENT OF CHEMISTRY

Professor HERTY.

11. Research in Inorganic and Analytical Chemistry. This course (with 12 and 13) is intended only for applicants for the degree of Doctor of Philosophy or properly equipped students who desire special training in advanced chemical research. It requires, in addition to the laboratory work, daily conferences with the professor and continual reference to the literature touching the matter under investigation. The work is usually assigned by the professor, but by special permission the student may elect to work upon problems to which he wishes to give particular attention. *Both terms, six hours.*

Associate Professor WHEELER.

12. Research in Organic Chemistry. The statements made in regard to course 11 apply also to this course. *Both terms, six hours.*

Associate Professor MILLS.

13. Research in Physical Chemistry. Acquaintance with the Calculus is required for this course. *Both terms, two hours.*

Professor HERTY.

14. Advanced Inorganic Chemistry. The elements are studied with the idea of showing the fundamental laws of Chemistry and the deepseated relations involved in and leading

up to the Periodic System. Attention is also given to those portions of Inorganic Chemistry not usually dwelt upon in the regular courses. The applications of physico-chemical laws and generalizations are emphasized throughout the course. *Both terms, two hours.*

Associate Professor WHEELER.

15. Advanced Organic Chemistry. The most important modern investigations are reviewed and, in addition, special consideration is given to Class Reactions with reference to their application to organic research. *Both terms, two hours.*

The *Journal Club* meets fortnightly. The current journals, American, English, German, and French, purely scientific and technical, are reviewed by the students and instructors. Attendance upon the meetings of the Club is expected of all students taking the above courses.

DEPARTMENT OF BIOLOGY

Zoology

Professor WILSON.

2. Comparative Anatomy and Embryology of the Vertebrates; study of types of fishes, amphibia, reptiles, birds, mammals; development of the characteristic vertebrate organs in the frog and chick; fundamentals of microscopic technique; laboratory work with occasional lectures. *Both terms, three hours.*
3. Comparative Anatomy and Embryology of the Invertebrates; dissection and microscopic study of types of the chief orders, with some consideration of their embryology; laboratory work with occasional lectures. *Both terms, three hours.*
4. Animal Morphology: advanced zoological work, with detailed study of problems in comparative anatomy or embryology; laboratory work with use of classical text books and original memoirs; theses. *Both terms, five hours or more.*

Botany

Associate Professor COKER.

2. Special morphology of the mosses, ferns, and higher plants, with particular consideration of homologies; lectures with laboratory and field work. *Both terms, three hours.*
3. Special Morphology of the algae and fungi, with attention to the culture of lower fungi, and the identification of mushrooms; lectures with laboratory and field work. *Both terms, three hours.*
4. Plant Morphology; advanced work in the embryology and anatomy of plants. The student is required to collect and prepare material for the microscopic study of special problems. Theses. *Both terms, five hours or more.*

DEPARTMENT OF GEOLOGY

Mr. EATON.

5. Petrography; lectures, laboratory work, and theses. *Both terms, three hours.*

Professor COBB.

6. Advanced field work and special research in geology and geography; problems assigned individually and work adapted to the professional needs of the student. *Both terms, three hours.*
9. Research course in historical geology. *Both terms, three hours.*

DEPARTMENT OF EDUCATION**Pedagogy**

Professor NOBLE.

5. The study of childhood in transforming modern methods of studying and teaching educational science; readings, discussions, and theses. *Fall term, two hours.*
6. Herbartian Pedagogy. The attempt is made in this course to investigate the Herbartian movement in Germany and

in the United States. The works of Rein, Story, Ziller, Lange, and others are studied. Theses. *Spring term, two hours.*

7. American Education: a study of the development of public and private school systems in the United States; research and lectures. *Both terms, two hours.*

MEDALS AND PRIZES

THE HOLT MEDAL IN MATHEMATICS. (Established in 1874.) A gold medal is offered annually by Mr. John Allen Holt and Mr. Martin H. Holt, the principals of Oak Ridge Institute, to that student who shall take the highest rank in Mathematics 4. No student will be recommended for the medal unless he attain to grade 2.

THE LITERARY ESSAY MEDAL. (Established in 1890.) A gold medal is offered annually by Professor Thomas Hume to that member of the Senior Class who shall present the best essay or thesis on some distinctly literary subject.

THE MANGUM MEDAL IN ORATORY. (Established in 1878.) A gold medal founded by the Misses Mangum, late of Orange county, in memory of their father, Willie Person Mangum, is continued by his granddaughters, Mrs. Julian A. Turner, Mrs. Stephen B. Weeks, and Miss Preston Leach, and awarded to that member of the Senior Class who shall deliver the best oration at Commencement.

THE BINGHAM PRIZE IN DEBATE. (Established in 1899.) This prize is offered by Mr. R. W. Bingham, in memory of his great-grandfather, grandfather, father, and brother. It is given annually for excellence in debate. The contestants are representatives of the Literary Societies, and the contest is held on Monday evening of Commencement week.

THE KERR PRIZE IN GEOLOGY AND MINERALOGY. (Established in 1889.) A prize of fifty dollars is offered annually by Mr. William H. Kerr in memory of his father, Professor Washington Caruthers Kerr, to any undergraduate or graduate student, for the best thesis containing original work in the geology or mineralogy of North Carolina.

THE GREEK PRIZE. (Established in 1887.) A prize of ten dollars is offered annually to that member of the Sophomore class,

who shall present the best rendering into English of selected passages of Greek not previously read.

THE WORTH PRIZE IN PHILOSOPHY. (Established in 1883.) Mr. Charles Williams Worth, in memory of his father, David Gaston Worth, of the class of 1853, will print the best thesis submitted by a student in Philosophy 4.

THE EARLY ENGLISH TEXT SOCIETY PRIZE. (Established in 1886.) A special prize is offered annually by the Early English Text Society, of London, for advanced work in Anglo-Saxon and Middle English.

THE BRYAN PRIZE. (Established in 1903.) A prize will be given annually by Mr. William Jennings Bryan for the best thesis in Political Science.

THE HUNTER LEE HARRIS MEMORIAL. (Established in 1903.) Dr. Charles Wyche, of St. Louis, offers annually in memory of Hunter Lee Harris, of the class of 1893, a gold medal for the best original story by any student in the University.

THE THOMAS HUME PRIZE. (Established in 1904.) A prize of fifty dollars is offered annually by Mr. W. G. Peckham, of New York, for the best work in the Old English Ballads and Shakspeare or Milton.

Certain prizes are offered also in the Professional Schools of Law, Medicine, and Pharmacy. For these, see under the several Schools.

PECUNIARY AID AND EXPENSES

Fellowships and Scholarships

THE TOCH FELLOWSHIP IN CHEMISTRY. (Established in 1905 by Mr. Maximilian Toch.) The holder is expected to devote himself to research work in technical chemistry. This fellowship yields \$100 annually.

THE SUTHERLAND FELLOWSHIP IN CHEMISTRY. (Established in 1906 by Mr. Phocius Leonidas Sutherland.) The holder is expected to devote himself to research in Chemistry. This fellowship yields \$100 annually.

THE CAMERON SCHOLARSHIPS. (Established in 1892.) The heirs of Paul Carrington Cameron founded, in his memory, ten scholarships of the value of sixty dollars each.

THE DIALECTIC AND PHILANTHROPIC LITERARY SOCIETIES' SCHOLARSHIPS. (Established in 1893.) The Dialectic and Philanthropic Literary Societies of the University founded two scholarships of the value of sixty dollars each, recipients of which shall give assistance in the Library.

THE MOORE SCHOLARSHIPS. (Established in 1881.) Bartholomew Figures Moore, of Raleigh, bequeathed five thousand dollars, the interest of which shall be devoted to paying the tuition of students.

THE MARY ANN SMITH SCHOLARSHIPS. (Established in 1891.) Miss Mary Ann Smith bequeathed thirty-seven thousand dollars for the foundation of scholarships, the number of scholarships to be determined by the amount of income.

THE MARY RUFFIN SMITH SCHOLARSHIPS. (Established in 1885.) Miss Mary Ruffin Smith bequeathed to the University, in memory of her brother, Dr. Francis Jones Smith, a valuable tract of land in Chatham county of fourteen hundred and sixty acres, known

as Jones's Grove. The will provides that the rents of the land, or the interest on the purchase money, if sold, shall be used to pay the tuition of such poor students as the Faculty shall appoint.

THE SPEIGHT SCHOLARSHIPS. (Established in 1892.) The late Mrs. Mary Shepard Speight bequeathed ten thousand dollars to the University. The income shall be used to pay the tuition of needy students; but if tuition is ever made free, the income shall be used toward paying the salaries of the professors.

THE WOOD SCHOLARSHIP. (Established in 1892.) Mrs. Mary Sprunt Wood, of Wilmington, has founded, in memory of her late husband, Dr. Thomas Fanning Wood, a scholarship of the value of sixty dollars.

THE WEIL SCHOLARSHIP. (Established in 1898.) A fund, established by Mr. Henry Weil, of Goldsboro, furnishes one scholarship of the value of sixty dollars.

THE ARMFIELD SCHOLARSHIPS. (Established in 1901 and 1904.) These scholarships are founded by the generosity of Mr. Eugene M. Armfield, of the class of 1888, of Highpoint, N. C.

THE ALUMNI SCHOLARSHIPS. These scholarships have been established by the gifts of Alumni. A scholarship will be awarded for each one thousand dollars given.

THE KENNETH MURCHISON SCHOLARSHIPS. (Established in 1904.) These scholarships have been founded by Mrs. Shirley Carter, of Baltimore, Md., and Mrs. James Sprunt, of Wilmington, N. C., in memory of their father. They are awarded by the founders.

None of these scholarships is open to students in the professional Schools of Law, Medicine, and Pharmacy.

All applications for scholarships must be filed in the President's office on or before August 15, and must be in the regular form prescribed by the University. Blank forms are supplied on application to the Registrar.

Free Tuition

By an act of the Legislature in 1887, free tuition is given to candidates for the ministry, to the sons of ministers, to young men

under bodily infirmity, to teachers, and to young men preparing to teach. This enables the University to aid effectively the public school teachers of the State.

Loan Funds

THE DEEMS FUND. (Established in 1879.) A fund of six hundred dollars was established by Rev. Charles Forte Deems, D.D., late pastor of the Church of the Strangers, New York City, formerly a Professor in the University, in memory of his son, Lieutenant Theodore Disoway Deems. In 1891 the gift was greatly enlarged through the munificence of Mr. William H. Vanderbilt, by gift of ten thousand dollars, "as an addition to the Deems fund, to be loaned to indigent students of the University."

THE MARTIN FUND. This fund has been established by the bequest of Mr. Thomas D. Martin, of Raleigh. Only the interest of this fund can be used for loans. It becomes available during the session of 1907-1908.

All applications for loans must be filed in the President's office on or before August 15.

Applications for loans will not be considered unless accompanied by testimony from responsible persons as to poverty and merit. The funds are limited in amount and are loaned only on the security of two approved signatures and at the legal rate of interest.

Expenses

Every effort is made to reduce to the lowest point the necessary expenses of an education at the University. The charges for each of the two terms are as follows:

| | |
|---------------------------------|---------|
| Tuition fee..... | \$30.00 |
| Fee for Matriculation, etc..... | 12.50 |

Total.....\$42.50

Students taking courses in the laboratories are charged a small fee for materials. Every student must keep on deposit with the Bursar two dollars as security for damages. Willful damage to University property is charged to the perpetrator, if known, other-

wise it is assessed upon all students of the University. Any balance is returned to the student at the end of the year.

Good board is furnished at Commons for nine dollars a month. A few students earn their board at Commons by waiting on the tables. In private clubs board may be reduced to a minimum of six dollars a month. The entire annual expenses need not exceed three hundred dollars, and they may be reduced to two hundred dollars.

It is confidently believed that no institution offers wider opportunities of self-help to meritorious students of slender means. The desire is that no worthy boy, however poor, shall ever be turned away for lack of means. To such the University and town offer unusual opportunities for support. Many students are now working their way through college by every form of honorable labor. A number are here as a result of money earned or borrowed. Seventy are aided by loans, and about five hundred have received aid from the University in loans and scholarships in the past twenty years. A few students are selected by the authorities as waiters at commons. Otherwise all opportunities available in the University and town must be secured by the personal efforts of the individual, or with the assistance of the Faculty Committee on Self-Help. They are not assigned by the President.

Dormitory Accommodations

The University buildings contain one hundred and seventy-four unfurnished double rooms, available for the accommodation of students. There is no charge for service in addition to the rent. All rooms are fitted with electric lights. Room rent ranges from 75 cents to \$2.75 a month for each occupant, the price depending upon the location of the room.

All the buildings of the University are heated by hot water according to the most improved methods. In the dormitories the charge for heating and light will be \$2.00 a month for each room.

REGULATIONS

Registration

All students are expected to present themselves for registration on *Monday, Tuesday, or Wednesday, September 7, 8, or 9, 1908,* and *Monday or Tuesday, January 4 or 5, 1909,* between the hours of 9 A. M. and 4 P. M., at the office of the Registrar.

Arrangement of Courses

Every student, when he presents himself for registration, must submit a list of courses, required and elective, which he desires to pursue.

No student will be allowed to take less than 15 hours; nor more than 18 hours of class-room work a week without special permission of the Faculty or of the President.

Students desiring to change their courses must make written application to the President for the desired change. The application will be considered by the President and the instructors in the departments concerned and will be granted only after a careful consideration of the facts in each case. No changes will be permitted after the first Tuesday following the registration days except such as are granted after application to, and approval by, the Faculty.

Candidates for more than one degree shall not offer the same elective in two courses nor a required study in one course as an elective in another.

Assignment of Rooms

The University buildings contain one hundred and seventy-four unfurnished double rooms, available for the accommodation of students. These rooms are assigned to students by the Bursar, at

the beginning of each term, in the order of application. All occupants are required to sign the following contract:

Messrs. and having paid \$..... room fee, are entitled to the use of Room No..... Building and service from 190.. to 190.. It is mutually agreed, as part of this contract, that the Bursar shall provide satisfactory service, and shall make all repairs for damages committed previous to this contract, if notice of same shall be given at this date; also that the tenants shall be responsible for all damage, by whomsoever committed, in or upon the room during this contract, as well as for all damage committed by the tenants, either one or both, upon any University property. It is also further agreed that this contract shall be forfeited and that tenants, either one or both, shall vacate the room at the written request of the Bursar, if they fail to make good at once all damages committed in or upon their room or by either of them elsewhere, or if they cause any malicious damage of University property, or if they make any disturbance of order by noises or ball-playing in or near the University buildings.

The President reserves also the right to require any student whom for any reason he considers an undesirable tenant to vacate a room in the University buildings.

The contract quoted above is subject to the following special rules:

1. In order to retain his room for the next session, a student must notify the Bursar in writing before *May 20*.

2. The room thus signed for will be retained until the *first day of September*, provided a deposit of \$10 be made with the Bursar on or before that date. This deposit will be forfeited in case the room so retained is not rented for the first term. In order to have a room reserved beyond the above date, the rent for the first term must be paid. Double rooms signed for by only one person will not be retained after that date unless the full rent has been paid. No one signing for a room can transfer the same.

3. Rooms not signed for, or forfeited by failure to pay at the proper date will be assigned in the order of application.

4. No dogs shall be kept in the University dormitories. Breach of this regulation leads to forfeiture of the room.

Conduct

By order of the Board of Trustees the Faculty is directed to dismiss from the University any student who is known to engage in drinking intoxicating liquors, gambling, hazing in any form, or to be guilty of dissolute conduct.

Students persistently neglectful of duty, or addicted to boisterous conduct or rowdyism, may be requested to leave the University.

Attendance

Regular attendance upon lectures and recitations is required of all students.

In any term, absences are counted from the first regular meeting of each class. In no case will a student be considered present at any class until he has been registered as a member of that class. No student will be allowed more than five unexcused absences during a month. When this number is exceeded he will be notified that any unexcused absence on his part during the subsequent month will necessitate his withdrawal from college. This notice will be sent to his parents or guardian also.

Any student whose absences from a class during any month equal the number of scheduled meetings of the class for one week is required to stand a special examination on that month's work, within the first two weeks of the succeeding month at an hour to be announced by the instructor. In the case of those whose absences in a given month reach the number indicated above, and who fail to stand the examination provided for such absences, it is left to the discretion of the instructor to retain them in his class.

Students who are absent from a class during the months of December and May as much as 25 per cent. of the scheduled meetings of the class, must stand an examination for these months before being entitled to any grade on the term examination. This special examination is to be held in connection with the regular

term examination, or at some time during the examination period.

Students who are absent during any term as much as $33\frac{1}{3}$ per cent. of the scheduled meetings of the class, except in case of prolonged sickness necessitating at least half the absences, may at the discretion of the instructor be debarred from the term examination.

Attendance at Chapel is compulsory for all students in the University except for members of the professional departments and for such others as are specially excused. Absence from Chapel will subject the student to discipline by the Executive.

No student is allowed to absent himself from the University without written permission from the President or his representative. This permission may, at the discretion of the executive officer, be granted only upon the formal request of the parent or guardian.

Examinations.

Regular examinations in all subjects are held at the close of each term. Excuses from examinations are granted only in case of absolute necessity. Such an excuse, to be valid, must be obtained from the President by the day of examination, and communicated officially to the instructor holding the examination.

Freshmen, Sophomores, and Juniors who have been excused from an examination or have received the grade 5 (see page 96) in any subject will be given two and only two opportunities to make good the deficiency by special examination. Those conditioned on the Fall term of a subject may make good the deficiency either in the following September, according to the schedule given below, or at the regular examination of the next lower class in December. Those conditioned on the Spring term of a subject may make good the deficiency either in the following September, according to the schedule given below, or at the regular examination of the next lower class in May. In case a student fails in both of the special examinations, he must repeat the subject with the class of the succeeding year. If the unremoved condition be in an elective subject not offered for the succeeding year, the student must take another elective valued at the same number of hours.

Seniors who have been excused from an examination or have received the grade 5 in any subject at either the Fall or Spring examination will be given but one opportunity to make good the deficiency by special examination, viz., during the regular examination period of the three lower classes in May.

Papers handed in at special examinations by students who have been officially excused from the regular examination will be graded. All others will be marked either "passed" or "failed." Students who hand in papers at regular examinations are considered to have relinquished any claim to grades on special examinations.

Students who absent themselves from regular examinations without having obtained an official excuse, and those who are present at the regular examinations but do not hand in papers, are given the grade 6 (see page 96). They are required to repeat the subject with the next lower class, or, in case of an elective not offered in the succeeding year, to take another elective valued at the same number of hours.

A student wishing a special examination in any subject must deposit an application in the office of the Registrar at least one week before the beginning of the period of regular examinations.

Each student is required to subscribe his name to the following pledge on every paper: I hereby certify that during this examination I have neither given nor received aid. No paper without the pledge will be read.

The order of examinations for the removal of conditions in September, 1908, will be as follows:

Wednesday, September 2.

| | | | |
|----------|----------|------------|------------|
| 10 A. M. | Physics. | 2:30 P. M. | Chemistry. |
| | Greek. | | History. |
| | | | Economics. |

Thursday, September 3.

| | | | |
|----------|----------|------------|----------|
| 10 A. M. | English. | 2:30 P. M. | Zoology. |
| | | | Botany. |

Friday, September 4.

| | | | |
|----------|---------|------------|--------------|
| 10 A. M. | German. | 2:30 P. M. | Mathematics. |
| | French. | | |

Saturday, September 5.

| | | | |
|----------|-------------|------------|-----------|
| 10 A. M. | Latin. | 2:30 P. M. | Geology. |
| | Philosophy. | | Pedagogy. |

Standing.

Semi-annual reports of the standing of all students in all the studies of the previous term are sent to parents or guardians. These reports are based upon the following system of marking:—

Grade 1, 95–100 per cent.

Grade 2, 90–95 per cent.

Grade 3, 80–90 per cent.

Grade 4, 70–80 per cent.

Grade 5, 60–70 per cent.

Grade 6, below 60 per cent.

Students must attain a grade of 4 to pass in any study. Grade 5 indicates that the student is conditioned, but may remove the deficiency by special examination as explained on page 94. Students receiving grade 6 in any study must take such study again with the next lower class, or in case of an elective not offered in the succeeding year, must take another elective valued at the same number of hours.

A student who has failed to pass all the examinations of the year in any College study may not take a higher class in that department, until he makes good his deficiency.

A student who, at the close of the period of special examinations in September, is deficient by an amount equal to eight hours of class-room work for a year will be ranked with the next lower class.

In addition to the semi-annual reports, there are sent out during the session six monthly reports in which the standing of students is indicated in a general way.

Certificates

A certificate is granted to a student who has completed, with credit, in any department except those of Mathematics, Chemistry, Physics, and Geology, all work required for a degree together with elective work also in the same department. (For detailed statement of requirements see under the several departments of instruction.)

Graduation

Each Senior will be officially informed by the Registrar in August of all deficiencies standing against him.

Every member of the Senior Class is required to write a thesis or an oration for graduation. Those electing theses must announce their subjects by February 1 to the Dean of the Faculty, who will report them to the professors in the departments concerned. On May 2 the theses shall be read before the professors, subject to criticism and correction. The corrected and approved theses must be handed to the Registrar in typewritten form on or before May 15.

The number of orations is limited to four. The candidates must be members of the College or the School of Applied Sciences, and must announce their subjects to the Dean of the Faculty by February 1. The orations shall be delivered in private before a committee of the Faculty on May 1, who shall decide upon the relative merits of the orations. The four successful candidates are known as the Commencement Orators of the Senior Class.

Athletic and Other Organizations

No student will be allowed to take part in athletic contests, concerts, debates, etc., entailing absence from the University, whose parent or guardian objects to such participation.

A student who was in attendance upon the University during a previous term or session must have passed satisfactory examinations upon at least six hours of work before he will be allowed to represent the University in an athletic contest or in any other public capacity.

No student reported as deficient in a majority of his classes may participate in any athletic contest or otherwise publicly represent the University, until the deficiency is made good.

No team or club will be allowed to be absent from the University for more than five lecture days during the term.

The manager of each athletic team or musical club shall submit to the President a schedule of all engagements before positive arrangements are made.

The rules governing the eligibility of players are as follows:

1. Before any student can become a member or a substitute member of any athletic team in the University, and take part in any intercollegiate contest, he must make application to the Committee on Athletics in the University and secure the endorsed approval of that Committee to his application. It shall be the duty of the Athletic Committee to have the executive officers of the University endorse such application to the effect that the applicant is a regular student of the University, registered within thirty days after the beginning of the fall session.

2. It shall be the duty of the Athletic Committee to inquire into and make a record of the athletic experiences of the applicant, and it shall be the duty of the applicant to appear before the Committee and answer on his honor such questions as the Committee may see fit to ask.

3. It shall be the duty of the Athletic Committee to require a pledge in writing of the applicant, certifying on his honor that he has never accepted directly or indirectly remuneration, compensatory gift, valuable consideration, or promise thereof, for his athletic services, and that he is in the proper and strict sense of the word an amateur player in collegiate athletic sports, before the Committee endorses his application.

4. No student of this University who has been a member or a substitute member of a baseball or football team at another college or university shall be permitted to become a member of either baseball or football team at this University during the session in which he matriculates and until he shall have been a student in residence at this University for at least five months.

5. No person whose name is in the faculty list or appears in the catalogue list of officers of instruction and administration of

the University, and who receives a remuneration therefrom, shall be a member of any athletic team representing the University.

6. Whereas a member of an athletic team of this University is a representative student and enjoys special honor in thus representing the University, this privilege shall be withheld from any student whose scholastic standing is discreditable.

7. Any student who has participated as a player on a college team in either football or baseball for a period of four years shall thereafter be ineligible for such athletic contests of the University.

Fraternities

Undergraduate students may join fraternities after registration in their Sophomore year. Fraternity men are not allowed to pledge Freshmen to join fraternities.

THE SCHOOL OF LAW

FRANCIS PRESTON VENABLE, PH.D., D.Sc., LL.D., *President*.

JAMES CAMERON MACRAE, LL.D., *Dean*.

JAMES CAMERON MACRAE, LL.D., *Professor of Law*.

LUCIUS POLK MCGEHEE, A.B., *Professor of Law*.

THOMAS RUFFIN, LL.M., D.C.L., *Professor of Law*.

CHARLES LEE RAPER, PH.D., *Professor of Economics*.

JOSEPH GREGOIRE DE ROULHIAC HAMILTON, PH.D., *Associate Professor of History*.

WILLIAM DEBERNIERE MACNIDER, A.B., M.D., *Lecturer on Medical Jurisprudence*.

HISTORICAL SKETCH

The School of Law is the outgrowth of a Law School established in 1843 at Chapel Hill, on a private foundation, by Hon. William H. Battle, who was then a judge of the Superior Court of North Carolina and later became a justice of the Supreme Court of the State. Judge Battle was assisted by Hon. Samuel F. Phillips, a member of the Bar of North Carolina, who afterwards was Solicitor General of the United States under the administrations of Presidents Grant, Hayes, Garfield, and Arthur. In 1845 this school was incorporated into the University, and Judge Battle was made Professor of Law, in which capacity he served until the closing of the University in 1868. The courses offered covered the requirements for admission to the Bar of North Carolina, and occupied the time of independent students for two years, or were sometimes completed by students doing additional work in the College in two and one-half years; and the degree of Bachelor of Law was conferred upon those students satisfactorily accomplishing the full course.

With the reopening of the University in 1875, the School of Law was revived by Judge Battle, and upon his retirement in 1879 the classes were conducted by Hon. Kemp P. Battle, then President of the University; and this continued until 1881, when President Battle was relieved from such duties by the election of Hon. John Manning as Professor of Law.

From 1881 until his death in 1899, Dr. Manning was in charge of the School, assisted during much of the time by Hon. James E. Shepherd, Chief Justice of the Supreme Court, by Hon. J. Crawford Biggs, now a judge of the Superior Court, and by Thomas D. Warren, Esq., who has since become a prominent member of the Bar of North Carolina. During these years the scope of the School was enlarged and its attendance and influence greatly increased. Much that is good, now felt in methods and spirit, is due to the administration of Dr. Manning.

In 1899 Hon. James C. MacRae, sometime a judge of the Superior Court and later a justice of the Supreme Court of North Carolina, became Professor of Law and Dean of the School; and in 1900 Dr. Thomas Ruffin succeeded Mr. Biggs as Associate Professor of Law. In 1903 Dr. Ruffin was made a professor, and, upon his resignation in 1904, was succeeded in this position by Mr. Lucius P. McGehee, formerly Associate Editor of the American and English Encyclopaedia of Law. In 1907 a third professorship was created by the Board of Trustees, and Dr. Ruffin was recalled from active practice to fill that position.

With the enlargement of the faculty to a corps of three professors, who give their entire time to the teaching of law, the curriculum of the School has been readjusted and much enriched, and now presents work requiring the full time of the student for at least two years, and sufficient, it is believed, to equip him thoroughly for the practice of law in the State of North Carolina or in any other State of the Union having the common law of England as a basis of its jurisprudence.

GENERAL OBJECTS OF INSTRUCTION

The objects of the instruction here offered are, through means of text-books, cases, lectures and moot-court practice, to teach the

principles of jurisprudence as applied in America; to bring before the mind of the student the nature and growth of law; to show that our legal principles lie imbedded in our basic conceptions of justice and right; to trace the development of these principles, historically; to inculcate habits of independent thought and legal reasoning, giving prominence to the reasons for propositions of law rather than to the concrete propositions themselves;—and thus to give to the student a proper foundation whereupon to make of himself a scientific lawyer, through a comprehension of theoretical principles and a development of his reasoning faculties in the logical application of those principles to practical statements of fact.

ARRANGEMENT OF COURSES

Six regular courses, three for the Junior Law Class and three for the Senior Law Class, are arranged for those students taking the work leading to the degree of Bachelor of Laws. Each course begins in September and ends in May of the University year. Thirteen and one-half hours of class instruction a week, divided into nine lectures of one and one-half hour each, are provided for each of the two classes; and to the courses as now scheduled two or three additional hours of lectures a week are expected soon to be offered in both Junior and Senior years. Dr. MacNider will also deliver a special series of lectures on Medical Jurisprudence, at times hereafter to be announced; and law students registered for less than three of the regular courses, or whose engagements otherwise permit, will be admitted without additional expense to the college courses in Economics and History of Professors Raper and Hamilton. Also, from time to time, distinguished members of the Bench and of the Bar will be invited to deliver lectures upon special topics before the School.

REQUIREMENTS FOR ADMISSION

A good English education is essential to success at the Bar, and the completion of a full collegiate course before beginning the study of law is urged in all possible cases. No absolute requirement in scholarship, however, is prescribed for candidates for ad-

mission into the School, except that all applicants for the degree of Bachelor of Laws shall have satisfactorily completed academic courses equivalent to those prescribed for the Freshman and Sophomore classes in the University. Other students than applicants for degrees may be admitted upon satisfying the Dean of their possession of such education as will enable them to make fair use of their opportunities in the School of Law.

Seniors in the College will be admitted to courses I., II., or III., as stated on page 104.

All candidates for admission should present themselves on the same days and at the same hours as candidates for admission to the college, either in September or January; and students already members of this School, as well as all students first matriculating, must conform to the regulations for registration found on page 91.

DEGREES

The degree of Bachelor of Laws (LL.B.) will be conferred upon those students who shall have applied for the same during a residence of at least two years at the University, and who have, in the opinion of the faculty, completed with credit the courses prescribed for the Junior and Senior Law Classes (including any work additional to that below scheduled which may hereafter be assigned to these courses), and who shall have submitted approved theses on legal subjects satisfactory to the Dean of the law faculty; provided that in every case they shall have conformed to the requirements before stated as to preliminary education. A diligent student may by accomplishing three courses each year prepare himself for this degree in two years; or the student who prefers to take the work more deliberately, with fuller opportunity for reflection and parallel reading, will find two courses each year for three years suitable to his purposes.

COURSES OF INSTRUCTION

For the Junior Law Class, Courses I., II., and III., as follows:

COURSE I., by Professor MacRae, embracing the Law of Evidence, Private Corporations, Municipal Corporations, and Executors and Administrators.

The text-books used the past year were Greenleaf on Evidence (Vol. 1), supplemented by statutes; Clark on Corporations, Dillon on Municipal Corporations, and Schouler on Executors and Administrators.

COURSE II., by Professor McGehee, embracing the Law of Contracts, Crimes, Torts, and Bailments.

The text-books used the past year were Clark on Contracts, May on Criminal Law, Burdick on Torts, Goddard's Outlines of Bailments and Carriers.

COURSE III., by Professor Ruffin, embracing the Law of Persons (Domestic Relations and Sales), Personal Property, and Real Property.

The text-books used the past year were Blackstone (Vol. 1), Long on Domestic Relations, ——— on Sales, Schouler on Personal Property, Blackstone (Vol. 2), and Tiffany on the Modern Law of Real Property.

For the Senior Law Class, Courses IV., V., and VI., as follows:

COURSE IV., by Professor MacRae, embracing Constitutional Law, Jurisdiction of Courts, Pleading and Civil Procedure, and International Law.

The text-books used the past year were Cooley's Constitutional Limitations, Blackstone (Vol. 3) and Code of Civil Procedure, Davis on International Law.

COURSE V., by Professor McGehee, embracing the Law of Insurance, Quasi-Contracts, Negotiable Paper, and Agency.

The text-books used the past year were Vance on Insurance, Bigelow on Negotiable Instruments, Huffcut on Agency, and Woodruff's Cases on Quasi-Contracts.

COURSE VI., by Professor Ruffin, embracing Equity Jurisprudence and Equity Pleading, Conflict of Laws, and Partnership.

The text-books used the past year were Bispham on Equity, Heard's Equity Pleading, Minor on Conflict of Laws, and ——— on Partnership.

SCHEDULE OF LECTURES

| | 8:45 to 10:15 | 10:15 to 11:45 | 12:00 to 1:30 |
|-----------|---------------|----------------|---------------|
| MONDAY | MacRae IV* | McGehee II | Ruffin VI |
| TUESDAY | MacRae I | McGehee V | Ruffin III |
| WEDNESDAY | MacRae IV | McGehee II | Ruffin VI |
| THURSDAY | MacRae I | McGehee V | Ruffin III |
| FRIDAY | MacRae IV | McGehee II | Ruffin VI |
| SATURDAY | MacRae I | McGehee V | Ruffin III |

**QUALIFICATIONS FOR LICENSE TO THE NORTH
CAROLINA BAR**

By the rules of the Supreme Court, examinations are held for admission to the Bar of North Carolina in August and February of each year. Two years of preparatory study are required to qualify applicants for the examination. This study, however, is not required to be done in a law school, and the course of reading prescribed by the court may be covered by a diligent student within less time than two years. Therefore, in order to prepare for the Bar examination in one year students who have previously read law for a year elsewhere, the courses above outlined have been arranged so as to include within one scholastic year and an additional summer term (hereafter to be mentioned) the entire course of reading prescribed by the court. Through this arrangement a student, who cannot remain in this School two years, may

*These numerals refer to the numbered courses as found on the preceding page.

enter either in September or in January, and, by taking the courses open to him in the scholastic year and at a summer term may fulfill all qualifications as to the amount of reading required for the Bar examination within twelve months from his entrance.

It is urged that all students who possibly can shall take a full two years course in a law school before applying for license to practice; for it is coming more and more to be recognized that such a period, or even a longer time, under skilled instructors, is necessary to the proper qualification of the lawyer; and certainly a lesser time is believed to be insufficient for the student to digest the law that he must learn or to acquire the habits of thought and mental attitude of the lawyer. The suggestion of the one year's work is made, therefore, for those students who find it impossible to prosecute their studies longer in this School.

The satisfactory accomplishment of the courses including the work thus suggested will entitle the student to a certificate to that effect from the Dean of the law faculty.

MOOT COURT

The Moot Court has become an important factor in legal educational methods, in familiarizing the student with the practical side of law. It is the purpose of the University Court to acquaint the student with the legal details so necessary to be acquired, yet so difficult of access; and, in order to facilitate this work, the Court has been formed into two divisions, Civil and Criminal, each with its own judge and other officers. Sessions of both courts are held weekly, and, through regular assignments of cases, every student of the School has frequent opportunities for practice. The work embraces preparation of cases for trial, drawing of pleadings, selection of jurors, examination of witnesses, arguments on law and facts to judge and jury, and preparation and argument of appeals,—all according to the forms of practice of the North Carolina Courts.

The organization for the Spring Term, 1908, was as follows:

Court of Appeals

Judge, Professor MACRAE.

Superior Court

(Civil Division)

Judge, J. J. PARKER.
Clerk, J. T. MOREHEAD, JR.
Sheriff, BOB HOWELL.

Superior Court

(Criminal Division)

Judge, F. L. DUNLAP.
Clerk, H. S. KIRKPATRICK.
Solicitor, C. C. FRAZIER.
Sheriff, D. B. PAUL.
Coroner, R. A. MILLER, JR.

UNIVERSITY PRIVILEGES

Besides the Moot Court, there are open to all students of this School the Dialectic and Philanthropic Literary Societies of the University, where they may take part in or witness weekly debates of a high order, and train themselves in parliamentary law. They are further admitted to all privileges of a law library of 2000 volumes, to the University library of 50,000 volumes, to the University gymnasium, and the organizations of the University generally, literary, social, or athletic.

PRIZES

A prize of twenty-five dollars in gold is offered each year by Shepard Bryan, Esq., of the Atlanta Bar, in honor of his father, the Honorable Henry R. Bryan, of New Berne, N. C., to be awarded to the member of the Senior Law Class who shall submit the best thesis upon an approved legal subject.

FEES AND EXPENSES

| | |
|--|---------|
| Tuition for Fall and Spring terms, each..... | \$35.00 |
| Registration Fee..... | 12.50 |

There are no scholarships in this School. Good board is furnished at Commons Hall for \$9 a month. In the village board may be secured for from \$8 to \$15, or, with rooms, from \$10 to \$20 a month.

The rent of unfurnished rooms in the dormitories ranges from seventy-five cents to \$2.50 a month, for each occupant; and for each room a charge of one dollar a month is made for electric light and one dollar a month for heat.

THE SUMMER LAW SCHOOL

A session of the School of Law is maintained during each summer for the purpose of providing:

- 1st. A course for those who wish to begin the study of law.
- 2nd. A thorough review of the course prescribed by the Supreme Court of North Carolina for applicants for license.
- 3rd. An opportunity for instruction for men who cannot become resident students during the scholastic year.
- 4th. An opportunity for members of the Bar to review any branch of the law.

Session

The term for the summer of 1908 begins June 17 and ends August 28, three days prior to the examination before the Supreme Court for admission to the Bar of North Carolina.

Lectures and Recitations

At this session daily lectures and recitations of one hour and a half each, will be held by Professors MacRae and Ruffin. In addition there will be frequent quizzes. The two courses offered will cover the requirements for reading prescribed for admission to the Bar of North Carolina; and will include, by way of review, as much as possible of the regular work of the School of Law as

taught during the scholastic year. Also, during the term, special lectures are expected to be delivered by prominent lawyers, later to be announced. The instruction is conducted by means of text-books, lectures, leading cases, quizzes, and moot-court.

An outline of the work of the two courses includes:

1. Ewell's Essentials of the Law (embracing the law of Domestic Relations, Real Property, Personal Property, Crimes, Contracts, and Torts). Other text-books to be used are 1st Blackstone; 2nd Blackstone and Tiffany on Real Property; 3rd Blackstone and Code Pleading; 4th Blackstone; Clark on Contracts; Burdick on Torts; Creasy's English Constitution.
2. 1st Greenleaf on Evidence and N. C. Revisal chapter on Evidence; Bispham on Equity; Clark on Corporations; Schouler on Executors, with N. C. Revisal chapters on Widows, Wills, Testaments, Descent, and Distribution; First volume of N. C. Revisal of 1905, with Clark's Code of Civil Procedure; Constitutions of the United States and North Carolina; Sharswood's Legal Ethics; 3rd Blackstone and Code pleading; Cooley's Principles of Constitutional Law.

Examinations

No entrance examination is required; but each student must satisfy the faculty that he has sufficient general education to enable him to take the courses with profit to himself. Examinations are required as each subject is completed, and at the end of the term certificates to that effect are issued to such students as have passed with credit all examinations in both courses.

Fees and Expenses

| | |
|---------------------------------------|---------|
| Tuition for term..... | \$30.00 |
| Registration and Incidental Fees..... | 5.00 |

The above mentioned fees cover privileges of University library, gymnasium, and baths.

There are no scholarships in this school. Board in the village, with room, will cost from \$10 to \$20 a month; without room, from \$9 to \$15.

For further information address President F. P. Venable, or Hon. James C. MacRae, Dean of the School of Law, Chapel Hill, N. C.

THE SCHOOL OF MEDICINE

Faculty at Chapel Hill

FRANCIS PRESTON VENABLE, PH.D., D.Sc., LL.D., PRESIDENT.

HUBERT ASHLEY ROYSTER, A. B., M. D., *Dean of the Department at Raleigh and Professor of Gynecology.*
 WISCONSIN ILLINOIS ROYSTER, M. D., *Professor of Medicine.*
 AUGUSTUS WASHINGTON KNOX, M. D., *Professor of Surgery.*
 RICHARD HENRY LEWIS, A. B., M. D., *Professor of Diseases of the Eye and of General Hygiene.*
 KEMP PLUMMER BATTLE, JR., A. B., M. D., *Professor of the Diseases of the Ear, Nose, and Throat.*
 HENRY McKEE TUCKER, M. D., *Professor of Obstetrics.*
 ANDREW WATSON GOODWIN, M. D., *Professor of the Diseases of the Skin and of the Genito-Urinary System.*
 JAMES McKEE, M. D., *Clinical Professor of Mental and Nervous Diseases.*
 JAMES WILLIAM McGEE, JR., M. D., *Professor of Diseases of Children.*
 ROBERT SHERWOOD McGEACHY, M. D., *Instructor in Therapeutics.*
 WILLIAM DEBERNIERE MACNIDER, M. D., *Instructor in Medical Diagnosis.*
 RALPH SANDERS STEPHENS, M. D., *Demonstrator of Clinical Pathology.*
 WILLIAM MONCURE, JR., M. D., *Instructor in Orthopaedic Surgery.*
 CLAUDE OLIVER ABERNETHY, B. S., M. D., *Physician in Chief to the Dispensary and Demonstrator of Anaesthetics.*
 EVANDER McNAIR McIVER, Ph. B., *Assistant Demonstrator of Clinical Pathology.*

FOUNDATION

Instruction in Medicine is given in two distinct schools, one situated at the seat of the University, Chapel Hill, and the other in the city of Raleigh.

The School at Chapel Hill furnishes instruction in the fundamental branches of Medicine — those studies which constitute the scientific basis of medicine and surgery, and which compose the first two years of the medical curriculum. This School was founded in 1890. In 1898 it was admitted to membership in the Association of American Medical Colleges; in 1901 it was incorporated as an integral part of the University on the same footing as the graduate and the other professional schools.

Owing to the absence of clinical facilities at Chapel Hill, instruction in the third and fourth years of the medical curriculum is conducted by the School at Raleigh. This School was opened in the fall of 1902. It enjoys the hospital and other clinical advantages to be found in a city. Its course is limited to the curriculum of the third and fourth years.

COURSE LEADING TO THE DEGREE OF DOCTOR OF MEDICINE

In order to be recommended for the degree of Doctor of Medicine (M.D.), the student must have completed with credit the course of study outlined below. Candidates must have devoted at least four full years to the study of medicine and the fourth year, at least, must have been spent in this school, the other three in this or other recognized schools of medicine.

THE CURRICULUM

The course is arranged in four sessions of nine months each as follows:

First Year

Physics. Lectures and two laboratory hours a week: total, 128 hours.

General Chemistry. Three lectures and two laboratory hours a week in the fall; three lectures and six laboratory hours a week in the spring: total, 186 hours.

Microscopic Anatomy. Two lectures and six laboratory hours a week for twenty weeks: total, 160 hours.

Embryology. Two lectures and six laboratory hours a week for twelve weeks: total, 96 hours.

Anatomy 1. Thirty weeks: total, 260 hours.

Second Year

Physiology. Five lectures a week throughout the year; six laboratory hours a week from February to May: total, 250 hours.

Physiological Chemistry and Toxicology. Two lectures and six laboratory hours a week until February 1: total, 128 hours.

Anatomy 2. Nine hours a week for sixteen weeks: total, 144 hours.

Anatomy 3. Six hours a week for 10 weeks: total, 60 hours.

Minor Surgery. Two hours a week for ten weeks: total, 20 hours.

Bacteriology. Two lectures and six laboratory hours a week until February 1: total, 128 hours.

Pathology. Two lectures and ten laboratory hours a week, beginning in February: total, 192 hours.

Materia Medica and Pharmacology. Five lectures and four laboratory hours a week, beginning in February: total, 144 hours.

Third Year

Medicine. Three lectures and six clinic and dispensary hours a week for thirty weeks: total, 270 hours.

Surgery. Three lectures and six clinic and dispensary hours a week for thirty weeks: total, 270 hours.

Obstetrics. Two lectures and one clinic hour a week for thirty weeks: total, 90 hours.

Physical Diagnosis. One lecture and three clinic hours a week for thirty weeks: total, 120 hours.

Hygiene. One lecture a week for thirty weeks: total, 30 hours.

Clinical Pathology. Two lectures and two clinic hours a week for thirty weeks: total, 120 hours.

Therapeutics. Three lectures a week for thirty weeks: total, 90 hours.

Fourth Year

Medicine. Three lectures and six clinic and dispensary hours a week for thirty weeks: total, 270 hours.

Surgery. Three lectures and six clinic and dispensary hours a week for thirty weeks: total, 270 hours.

Gynecology. One lecture and four clinic hours a week for thirty weeks: total, 150 hours.

Obstetrics: outdoor work. Total, 90 hours or more.

Pediatrics. Two lectures and one clinic hour a week for thirty weeks: total, 90 hours.

Clinical Pathology. One laboratory hour a week for thirty weeks: total, 30 hours.

Diseases of the Eye. One lecture and one clinic hour a week for thirty weeks: total, 60 hours.

Diseases of the Ear, Nose, and Throat. One lecture and one clinic hour a week for thirty weeks: total, 60 hours.

Diseases of the Skin and Genito-Urinary System. One lecture and two clinic hours a week for thirty weeks: total, 90 hours.

Nervous and Mental Diseases. One lecture and one clinic hour a week for thirty weeks: total, 60 hours.

THE SCHOOL AT CHAPEL HILL

ADMISSION

Candidates for admission and students already members of the School should present themselves to the President for registration on *Monday, Tuesday, or Wednesday, September 7, 8, or 9, 1908,* and *Monday or Tuesday, January 4 or 5, 1909.*

ENTRANCE REQUIREMENTS

Students desiring to matriculate will be required to present satisfactory certificates covering the equivalent of a four-year high-school course; or to pass entrance examinations equivalent to it. Students who are unable to pass these examinations may matriculate provided they are not deficient in more than one subject. The deficiency must be made up before entering the second year. For such deficient students instruction will be provided without additional tuition fees.

Students intending to study Medicine are advised to pursue, before applying for admission to the School, the following course of undergraduate study:

English 1 (3), German A (3), Biology 1 (3), Physics A (3), Chemistry 1 (4), Chemistry 3 (2). Beginning with the session 1909-1910, this preparatory course will be a requirement for entrance to the School of Medicine.

EXPENSES

The following are the charges a term payable at the beginning of each term in September and January respectively:

| | |
|----------------------------------|---------|
| Tuition..... | \$35.00 |
| Fee for matriculation, etc. | 12.50 |

In addition, first-year students pay a laboratory fee in histology of \$5 a term; and in chemistry of \$1.25 a term. Second-year students pay a laboratory fee in chemistry of \$5 a term.

Good board is furnished at Commons Hall for \$9.00 a month. The rent of unfurnished rooms in the dormitories ranges from seventy-five cents to \$2.75 a month, for each occupant. For each room a charge of \$2.00 a month is made for electric light and heat.

PRIZES AND SCHOLARSHIPS

THE HARRIS PRIZE. (Established in 1895). Mrs. Thomas W. Harris offers, in honor of the late Dr. Thomas W. Harris a

pocket case of instruments to that student who shall make the best grade in Anatomy.

THE WOOD SCHOLARSHIP. (Established in 1895). Mrs. Mary Sprunt Wood, of Wilmington, has founded, in memory of her husband, the late Dr. Thomas Fanning Wood, a scholarship of the value of ninety dollars.

THE GENERAL PLAN OF INSTRUCTION

The course of instruction provided at Chapel Hill extends over a period of two college years. In the number of hours and subjects it conforms to the requirements of the curriculum adopted by the Association of Medical Colleges in July, 1905, and its successful completion entitles the student to entrance into the third year of high grade medical colleges.

In the arrangement of the courses of study the attempt is made to follow their natural sequence. In the first year the student devotes his time to anatomical and chemical studies, Gross and Microscopic Anatomy, Embryology, Chemistry, and Physics, a thorough knowledge of which is necessary to the proper appreciation and understanding of the subjects to follow. Students who have had courses in Physics and Chemistry are advised to elect General Zoology and Botany rather than any of the second year studies.

In the second year Gross Anatomy is continued and completed. Physiology is begun and continues throughout the year. Physiological Chemistry, Toxicology, Bacteriology, and Minor Surgery are begun and completed in the first half of the year; Materia Medica, Pharmacology, Pathology, and Experimental Physiology in the second half; so that at the expiration of the two years the student will have completed the fundamental branches of medicine and be prepared to enter upon the study of more practical subjects.

The School is well equipped to pursue the methods of instruction required by modern educational ideals. It has an adequate corps of trained instructors and, when advisable, the classes are divided into small sections so that the work of each student is under the direct supervision and close observation of

the instructor. A building containing ten rooms with a total floor space of six thousand square feet has been set apart for its use. In this there are the lecture rooms, the Bacteriological, Histological, Pathological, and Physiological laboratories, all of which are well equipped with modern conveniences and apparatus necessary for a careful training of the student and the more advanced work of the instructor. The laboratories devoted to microscopic work are especially well lighted. The dissecting rooms are located in a new building and are adequately equipped for the work of the student and the care of anatomical material. Instruction in Chemistry, Physics, Zoology, and Botany is given in the rooms used by the undergraduate students, which are described elsewhere. The University library, gymnasium, and the laboratories of all departments of the University are open to the medical students who are encouraged to avail themselves of the unusual opportunities for scientific training and literary culture.

Instruction is given by lectures, oral and written quizzes, and in the laboratory. As far as possible, the lecture and laboratory courses are given contemporaneously, for in this way not only does the student acquire technical skill, but it is believed he will gain a more thorough grasp of the subject.

COURSES OF INSTRUCTION

Chemistry

Professor HERTY and Dr. DAVIS.

General Descriptive Chemistry (Chemistry 1). The elements are studied in a systematic manner. The laws governing their combination and the compounds resulting are considered with appropriate reference to their occurrence and relationships to medicine. The latter part of the course is taken up with organic chemistry. Text: Holleman's *Analytical Chemistry*; Remsen's *Organic Chemistry*.

Associate Professors WHEELER and MILLS and Dr. DAVIS.

Qualitative Analysis and Toxicology (Chemistry 9). Laboratory work with lectures. The behavior of the ele-

ments and their compounds is studied in the laboratory. Practice is given in the analysis of known and unknown mixtures with especial reference to the detection of poisons and determination of the purity of drugs. Text: Venable and Wheeler's *Qualitative Chemical Analysis* and the professor's notes.

Professor MANNING and Associate Professor WHEELER.

Physiological Chemistry (Chemistry 10). This course is designed to give the student some laboratory training in organic chemistry and its application in the study of physiological problems. Students will perform a series of experiments bearing more or less directly on problems of metabolism, studying the proteins, carbohydrates, and fats, the digestive juices and their action, blood, urine, milk, and such tissues as will afford evidences of the general course of metabolic processes. They will prepare as many synthetical compounds illustrating the fundamental laws of organic chemistry as time will permit. Each student will be required to keep a laboratory note-book. Lectures discussing the theories of physiological chemistry will be given contemporaneously with the laboratory course. Text: Haskins and McLeod, Simon.

Physics

Associate Professor LATTA.

Elementary Physics (Physics A). The fundamental facts of Physics are studied with some special attention to heat and electricity. Text-book, lectures, and experiments. Text: Carhart and Chute.

Zoology

Professor WILSON.

General Zoology (Zoology 1): an introductory course giving an outline of the classification and structure of animals, with consideration of the fundamentals of histology, embryology, and physiology, and some consideration of

biological theories; lectures with laboratory work. Text: Thomson. Elective in the first year.

Botany

Associate Professor COKER.

General Botany (Botany 1): an introduction to the structure and classification of plants; lectures with laboratory work. Elective in the first year.

Microscopic Anatomy

Professor DOLLEY, Messrs. SHULL and WIGGINS.

This course is divided into three parts, as follows:

1. Histology. Stress is laid on the proper conception of the fundamental tissues, which are studied, first in section, and then in fresh or macerated preparations, apart from the consideration of organs.
2. Microscopic Anatomy of Organs (excepting the central nervous system). Sections from all organs are supplied in sufficient number to cover the finer details of structure. Fresh and preserved abattoir material is furnished along with the sections.

Throughout the course, each student stains and mounts his own sections and is required to make specified drawings and descriptions. By means of prepared slides, loaned to each student, details requiring special technique are shown, such as elastin stains, silver nitrate impregnations, injections, etc. Including mounts of fresh tissues and blood smears, a minimum of 150 slides is prepared in the laboratory. Lectures supplement the laboratory work, but a considerable part of this time is devoted to oral and written recitations. The final examination is both written and practical, and the latter consisting of two parts, the diagnosis and the written description of slides.

3. Microscopic Technique. This portion of the course is given out of schedule hours. Under supervision, each student using several methods of fixation and both celloidin and paraffin imbedding, carries 5 tissues from the raw state

to the stained section, which must be approved by the instructor. Text: Bailey. Reference, Boehm-Davidoff.

Vertebrate Embryology

Professor MANGUM.

The lectures will embrace the phenomena of cell division, ovulation and impregnation, and the development of the human body to the end of the foetal stage. In the laboratory the student will verify the facts by the study of organogeny in the chick and in the pig and the foetal membranes in mammals. Text: Marshall, Minot's *Laboratory Text*.

Anatomy

Professor MANGUM, Dr. LAWSON, Messrs. SUMNER and MOORE.

The method of instruction is one of dissection and demonstration rather than of lectures:

1. In the first year the body is studied by systems, first the bones, then the muscles, etc. The student does much of the dissecting for himself, but the more difficult dissections are made by the instructor. Frequent practical examinations are held, upon which stress is laid, in order to enforce proper study of the cadaver.
2. In the second year the study proceeds by regions. The student does all the dissecting, but is still under the supervision of an instructor, who examines him upon the work done, and indicates the bearing of anatomical facts upon surgical operations.
3. Neurology. Special laboratory study of the anatomy of the central nervous system. Text: Cunningham or Morris; Whitehead's *Anatomy of the Brain*.

Physiology

Professor MANNING.

This course consists of lectures and laboratory work. In the lectures a brief account of general and cell physiology is

given as an introduction; then follows a detailed discussion of the facts and theories of human physiology with a brief account of such experiments on the lower animals and such clinical observations and experiments as bear upon the subjects. Contemporaneously with the lectures, a laboratory course is given in which the student learns the methods of experimental physiology and performs such experiments as will demonstrate the more obvious facts. Text: Howell, Stewart and Porter.

Materia Medica and Pharmacology

Professor MACNIDER.

In this course, consisting of lectures and laboratory work, the general appearance and composition of a carefully selected number of drugs, their preparations and doses, their physiological action and the indications for their rational usage, will be studied. Emphasis will be given to the pharmacopoeal standards. In the laboratory the student demonstrates the action of the more important drugs upon the lower animals. Text: Wood, Sollmann.

Pathology

Professor DOLLEY assisted by Professor MACNIDER.

1. Pathological Histology. General pathological processes are first studied, followed by the special pathology of the different organs and systems. Each student receives and is required to stain, mount, and study about 250 sections, and to draw or describe those designated by the instructor. In addition, rarer lesions and those requiring special technique are shown by demonstration slides, and at frequent intervals tumors are given out for diagnosis. The list of sections illustrative of general pathology, particularly tumors, is made as complete as practicable, and in special pathology, cardiac and vascular diseases, typhoid fever, and the various forms of pneumonia, of cirrhosis of the liver, and of nephritis, are emphasized. The class is

encouraged to study gross appearances in museum material in connection with sections. Oral and written recitations are held frequently. The examination is both written and practical. Text: Delafield and Pruden, Stengel. Reference: American Text-book.

Professor MACNIDER.

2. Bacteriology. The student learns by practical experience the methods of cultivating, staining, and identifying the principal bacteria, the pathological significance of which is explained by lectures and demonstration by inoculation of animals. In this way the chief bacteria are learned. The necessary manipulations are all carried on by the student, who thus obtains a useful practical knowledge of the subject. Text: Muir and Ritchie.

Minor Surgery

Professor MACNIDER

The class practices the application of bandages, and learns the modern methods of dressing wounds. Text: Davis on Bandaging.

THE SCHOOL AT RALEIGH

LOCATION AND FACILITIES

The advantages afforded by the city of Raleigh for the advanced work of the University Medical School are numerous. It is the most accessible of the State's larger cities and has already become one of its educational centres. Comprising, with the suburbs, a population of 25,000, it offers clinical facilities second to none in North Carolina. Three hospitals admit students of medicine for instruction. These hospitals are attended by the Faculty of the Medical School and special care is given to individual teaching with the varied material found in them. Besides these hospitals, there are available many public institutions which furnish valuable privileges to the students of the University.

ADMISSION

Students will be admitted to the Medical School at Raleigh upon completion of the preparatory two years' course at Chapel Hill, or its equivalent. Preliminary examinations will be held if deemed necessary.

Students may be admitted to advanced standing who present evidence of having fulfilled the requirements of this department with respect to preliminary education, and having completed at accredited medical schools the courses required in the preceding years.

REGISTRATION

Students should present themselves to the Dean for registration on *Monday, Tuesday, or Wednesday, September 7, 8, or 9, 1908,* and on *Monday or Tuesday, January 4 or 5, 1909.*

EXPENSES

The following are the charges a term, payable at the beginning of each term:

Tuition.....\$37.50

At graduation a charge of \$5.00 is made for the diploma. Board may be obtained in the city at prices ranging from \$12.50 to \$15.00 a month.

COURSES OF INSTRUCTION

Medicine

Professor W. I. ROYSTER and Dr. MACNIDER.

This subject is taught by lectures, ward classes, and general clinics. Cases are assigned to students and examinations are held upon their work. History writing receives due attention.

In the third year are treated the infectious diseases, diseases of the blood and digestive system. Individual instruction is given in the methods of physical diagnosis.

In the fourth year are studied the diseases of the respiratory system, heart, and kidneys, and the general diseases.

There are weekly clinics and ward classes.

Texts: Hare, Tyson.

Surgery

Professor KNOX.

In the third year are treated the principles of surgery, wounds, minor operations, and bandaging. Ward classes and dispensary work furnish ample demonstrations of the subjects described in the lectures.

The fourth year is devoted to the general practice of surgery and the major operations. A special course in anaesthetics is given to each student. At all the clinics students will be able, by personal observations at short range, to witness every step of an operation and thus familiarize themselves with the details. Text: Da Costa.

Obstetrics

Professor TUCKER.

This course is conducted by means of lectures, recitations, and clinics. Fundamental obstetric principles receive the closest attention. A number of maternity cases are available for instructing students in the management of labor and the lying-in period. Each student must have attended the prescribed number of labors before he is entitled to a diploma. Text: Hirst.

Gynecology

Professor H. A. ROYSTER.

Lectures are given covering the entire field of the diseases of women from the simplest procedure to the more serious operations. Illustrative clinics are held weekly. In many cases students are allowed to assist in the operations. Practice in pelvic examinations is given constantly to each student, for the purpose of enabling him to make gynecological diagnoses. An abundance of material is always available. Text: Penrose.

Therapeutics

Dr. McGEACHY.

The whole subject is thoroughly discussed by means of recitations and demonstrations, with constant drill on important drugs. Prescription writing. Text: Hare.

Diseases of the Eye

Professor LEWIS.

This course is conducted by means of lectures with clinics and dispensary classes, and furnishes what is absolutely essential for the general practitioner. Mastery of the principles is insisted upon. An abundance of illustrative material is presented in clinics and dispensary classes. Text: May.

Diseases of the Ear, Nose, and Throat

Professor BATTLE.

This course consists of lectures and demonstrations with opportunities for investigating cases under direct supervision. A knowledge of these diseases is recognized as necessary for every physician. Particular care is devoted to personal demonstration. Text: Bishop.

Pediatrics

Professor MCGEE.

Lectures and bed-side demonstrations. Special emphasis is given to the diagnosis and treatment of the infectious diseases and to the care of infants. A large number of dispensary cases is seen. Text: Holt.

Clinical Pathology

Dr. STEVENS and Mr. McIVER.

Great stress is laid upon the association of laboratory technique with cases actually under observation. Examinations of blood, urine, sputum, pus, tumors, etc., are made by the student with the assistance of the demonstrators. The equipment is excellent. Text: Simon.

General Hygiene

Professor LEWIS.

The principles and laws of hygiene and sanitation and the most approved practical methods established by modern science. A knowledge of hygiene and sanitation is very necessary for physicians in every community. Extraordinary opportunities will be given for investigating the working of the State sanitary laws. Text: Egbert.

Nervous and Mental Diseases

Clinical Professor McKEE.

Practical instruction is given in the principles of the subject from material furnished by one of the State's largest insane hospitals.

Diseases of the Skin and Genito-Urinary System

Professor GOODWIN.

Instruction is given by means of lectures, recitations, and dispensary work. Attention to correct diagnosis is insisted upon. Modern methods are carefully studied. Texts: Walker on Skin; Keyes and Chetwood on Genito-Urinary.

Orthopaedic Surgery

Dr. MONCURE.

The chief aim in this course is to give a thorough knowledge of the basic principles which underlie this branch of surgery. Students are taught the application of the various bandages and apparatus, and are required to do much of the work themselves.

The City Free Dispensary

Dr. ABERNETHY, *Physician in Chief*.

By special arrangement, the city of Raleigh has allowed the establishment of a Free Dispensary, to which all the out-

ble case is utilized as clinical material for students of medicine. Here will be found unusual privileges of personal observation. At certain times each student may conduct the dispensary work on his own account under the direction of the instructors. Senior students are graded on their work in the Dispensary.

SCHOOL OF PHARMACY

FACULTY

FRANCIS PRESTON VENABLE, PH.D., D.SC., LL.D., PRESIDENT.

EDWARD VERNON HOWELL, A.B., PH.G., *Dean and Professor of Pharmacy.*

JOSHUA WALKER GORE, C.E., *Professor of Physics.*

HENRY VAN PETERS WILSON, PH.D., *Professor of Zoology.*

WILLIAM DEBERNIERE MACNIDER, M.D., *Professor of Pharmacology and Bacteriology.*

ISAAC HALL MANNING, M.D., *Professor of Physiology.*

WILLIAM COLEMAN WOODARD, JR., *Assistant in Chemistry.*

CLEVELAND FAIN KIRKPATRICK, *Assistant in Zoology.*

LOUIS HARWARD WEBB, *Assistant in Zoology.*

BEVERLY OSCAR SHANNON, *Assistant in Botany.*

THOMAS JOSEPH McMANIS, *Assistant in Physics.*

WALTER PARKER STACY, *Assistant in Physics.*

FOUNDATION

The School of Pharmacy was established in 1897 and was opened for students in September of that year. Its location at the seat of the University assures to its students the most modern scientific instruction with all the laboratory facilities of the undergraduate department, as well as the courses of instruction in allied branches. These opportunities will meet the requirements of a large number of students who were compelled heretofore to obtain their pharmaceutical education in other states. Briefly stated, the advantages are as follows:

1. Thorough, careful, *individual* training.
2. The practical experience derived from active work in the laboratories.
3. Intimate association with the other departments of the University, to all of which the student of pharmacy has access, and the daily contact with students pursuing various branches of learning.
4. The use of the large library and reading room and the well equipped gymnasium.
5. The comparatively small cost at which a two-years' course may be obtained.
6. The length of the course, which consists of two sessions of nine months each,—nearly a fourth longer than in many of the colleges of pharmacy.

The success of the students of this School in their examinations before State boards has been very gratifying. Students of this School have been applicants before the State boards of Maryland, Pennsylvania, and North Carolina. None of the graduates of this School applying for license before State boards has failed to pass the examination.

ADMISSION

Candidates for admission into the School of Pharmacy should present themselves on the same days and at the same hours with candidates for admission into the College. For the next academic year, these days will be *Monday, Tuesday, or Wednesday, September 7, 8, 9, 1908, and Monday or Tuesday, January 4 or 5, 1909.* The

session of the School of Pharmacy is of the same length as the College year, beginning *September 7, 1908*, and ending *June 1, 1909*.

Candidates for the degree of Ph.G. must be, on entering, at least 17 years old, and must have completed a high school course of study.

The members of the School of Pharmacy enjoy all the privileges extended to other students in the University.

EXPENSES

The charges for each term are payable at the beginning of the term. They are as follows:

| | |
|---------------------------------------|---------|
| Tuition | \$30.00 |
| Registration and incidental fees..... | 12.50 |

For Chemistry 1 there is a fee of \$1.25 a term; for Chemistry 9 and 10, a fee of \$5.00 a term. In the prescription course there is a fee of \$10.00.

The students of Pharmacy are entitled to the use of the gymnasium, the library and reading room, and, in case of sickness, to medical attention and the use of the infirmary.

Good board is furnished at Commons Hall for \$9.00 a month. The rent of unfurnished rooms ranges from 75 cents to \$2.75 a month. For each room is made a charge of \$2.00 a month for electric light and heating.

PRIZES

The Bradham Prize, offered by Mr. C. D. Bradham, of Newbern, N. C., will be given to the student making the highest general average during the two years of study.

The Gilpin Langdon Prize, offered by Messrs. Gilpin Langdon & Co., of Baltimore, Md., will be given to the student making the best line of preparations in the pharmaceutical laboratory.

Prizes will also be given:

1. For the best thesis.
2. For the best collection of native medicinal herbs.

3. For the best exhibit of chemical salts made by a second year student.
4. For the best work in the recognition of materia medica specimens.
5. To the student recognizing the largest number of pharmaceutical preparations.

EXAMINATIONS

Final examinations are held at the end of each term on the subjects embraced in the course.

Quizzes upon the different branches are held regularly. Specimen quizzes upon Materia Medica, Chemistry, and Pharmacy are held once a week, and consist in the recognition and correct writing of the official names of the specimens presented.

Students are required to make an average of 70 per cent. on all examinations and quizzes.

COURSE LEADING TO THE DEGREE OF GRADUATE OF PHARMACY

In order to be recommended for the degree of Graduate of Pharmacy (Ph.G.), the student must have completed with credit the course of study outlined below. This course extends over two sessions of nine months each. The student must have completed the work of both sessions in the School of Pharmacy of this University, or of one session (the second) here after one in some other recognized college of Pharmacy. He must obtain satisfactory marking in attendance and make a general average of 70 per cent. in the various branches, and submit a satisfactory thesis. The thesis must be an original essay embodying the results of the student's personal research in some branch of pharmacy, which he has prosecuted under the direction of the professor who has assigned him the subject. The subject of such thesis must be announced on or before February 1 to the Dean of the Faculty. On May 2 the thesis shall be read before the Dean of the School, subject to criticism and correction. The corrected and approved thesis must be handed to the Registrar in type-written form on or before May 15. It will be published at the discretion of the Dean of the

School. He must also have had a practical experience of at least four years with some qualified pharmacist in a dispensing store. Satisfactory evidence on this point must be submitted to the Dean of the School, and a certificate deposited with the Registrar on or before May 15. Students who have not had the full four years' experience will be permitted to stand examinations for graduation; but their diplomas will be withheld until they shall have satisfied this requirement. Of the three years of experience required for license by the State Board of Pharmacy, the work done in the Pharmaceutical laboratory will count for one and only one.

First Year

Pharmacy 1 (5)*
Pharmacy 4 (4)
Elementary Physics A (2)
Chemistry 1 (3)

Second Year

Pharmacy 2 (5)
Pharmacy 5 (8)
Materia Medica (3)
Materia Medica and Pharmacology (5)
Chemistry 9 (3)
Chemistry 10 (3).

COURSES OF INSTRUCTION

Pharmacy

Professor HOWELL.

1. Theory and Practice of Pharmacy. The course consists of lectures upon the following subjects, with practical demonstrations and the employment of proper apparatus whenever necessary: metrology, comminution, heat, evaporation, distillation, sublimation; fusion, calcination, granulation, oxidation, reduction, etc.; solution of solids, liquids, and gases; deliquescence, efflorescence, etc.; col-

* Numbers in parentheses indicate number of hours a week.

ation, filtration, decolorization, clarification, precipitation, etc.; maceration, expression, infusion, decoction, etc.; percolation, and study of the following: waters, syrups, honeys, glycerites, mucilages, mixtures, spirits, elixirs, liniments, collodions, tinctures, wines, vinegars, and fluid extracts. Text: Remington, *Theory and Practice of Pharmacy*. First year. *Both terms, five hours.*

2. Theory and Practice of Pharmacy. The official forms and preparations of drugs are taken up in detail. Beginning with the inorganic compounds, the salts are considered with regard to their commercial qualities and pharmaceutical uses and preparations. The organic compounds are studied, commencing with the salts of the organic acids and passing to the natural and organic compounds. Second year. *Both terms, five hours.*
3. Lectures on Pharmaceutical Botany. This course is preparatory to the study of Materia Medica, and takes up the study of the flower, the various topics of fruits, seeds, etc., and a careful study of the descriptive terms as applied to leaves, stems, and roots. Instruction is given in the gathering and proper mounting of specimens of the official herbs that grow in this vicinity. First year. *Spring term, two hours.*
4. Operative Pharmacy: a practical course with laboratory work. First year. *Both terms, four hours.*
5. Operative Pharmacy: a continuation of course 4. Second year. *Both terms, two hours.*

Materia Medica and Pharmacology

Professor HOWELL.

1. Materia Medica. Lectures on the geographical and botanical sources of drugs; descriptions and uses of the same, together with their preparation and doses. Opportunity is given to the student to familiarize himself with most of the crude drugs and their preparations. Text: White and Wilcox. *Fall term, three hours.*

Professor MACNIDER.

2. **Materia Medica and Pharmacology.** This course is devoted to the study of the origin and constitution of remedial measures, their preparations and doses; and in particular, their physiological action and the indications for their rational use. Opportunity will be given to students to familiarize themselves with the more important crude drugs and their preparations. Instruction is given by means of lectures, recitations and demonstrations. The lectures intended to accompany the work in Toxicology are given as a part of the course in Materia Medica.

Physics

Professor GORE.

Elementary Physics (Physics A). The fundamental facts of Physics are studied with some special reference to heat and electricity. Text book, lectures, and experiments. Text: Carhart and Chute. First year. *Both terms, three hours.*

Chemistry

Professor HERTY and Dr. DAVIS.

1. **General Descriptive Chemistry.** The elements are studied in a systematic manner. The laws governing their combination, and the compounds resulting, are considered with appropriate reference to their occurrence and relationships to medicine. The latter part of the course is taken up with organic chemistry. Texts: Holleman's *Inorganic Chemistry*, and Remsen's *Organic Chemistry*, supplemented by lectures and quizzes. First year. *Both terms: lectures, three hours; laboratory, two hours (fall term).*

Associate Professor WHEELER.

9. **Qualitative Analysis and Toxicology;** laboratory work with lectures. The behavior of the elements and their compounds is studied in the laboratory. Practice is given in the analysis of known and unknown mixtures with especial reference to the detection of poisons and determination of

the purity of drugs. Text: Venable and Wheeler's *Qualitative Chemical Analysis* and the instructor's notes. Second year. *Spring term, three hours.*

OPTIONAL COURSES

The following courses are not required of students in Pharmacy, but may be elected profitably:

Elementary Physiology

Professor MACNIDER.

The study of physiology is begun in the spring term of the first year, during which the physiology of digestion, the digestive glands, blood, respiration, metabolism, excretion, and animal heat is considered in lectures illustrated by experiments. The study is continued in the fall term of the second year by the consideration of the physiology of the muscles and of the nervous system. During this term also the student learns the methods of experimental physiology by means of class work in the laboratory. Texts: *American Text-Book*, Stewart, or Kirke. *Both terms, three hours.*

Zoology

Professor WILSON.

General Zoology. An introductory course giving an outline of the classification and structure of animals, with consideration of the fundamentals of histology, embryology, and physiology, and some consideration of biological theories; lectures with laboratory work. Text: Thomson. *Both terms, three hours.*

Botany

Associate Professor COKER.

General introduction to Systematic Botany, with special attention to medical plants; laboratory and field work with recitations. *Spring term, three hours.*

Prescription Filling

Professor HOWELL.

In order that students may gain experience in prescription filling, a course in the practical everyday work of a drug store and in selling poisons and filling prescriptions is given. The prescriptions selected are those that will give the largest amount of practical experience. For this course a fee of ten dollars is required, to cover the cost of ingredients, bottles, labels, etc. *Both terms, at least two hours.*

Chemistry

Professor HERTY.

Industrial Chemistry. Lectures. The application of chemistry to the arts and industries. This course includes metallurgy, glass making, pottery, (*fall term*); food, clothing, building materials, explosives, photography, etc., (*spring term*). *Three hours.*

Agricultural Chemistry. Lectures. This course includes the chemistry of the plant and the soil, and the discussion of plant food, etc. Many specimens have been collected in the Industrial Museum to illustrate this course and the preceding one. *Spring term, three hours.*

Dr. DAVIS.

Quantitative Analysis and Assaying. Laboratory work. This course is intended to give the student a thorough grounding in analytical methods and manipulations. *Three hours.*

Professor HERTY.

Quantitative Analysis. Laboratory work. The student in this course is led further into the study and practice of analytical methods. The work may take any special direction desired by him, fitting him to be an agricultural chemist, iron chemist, manufacturing chemist, physician, druggist, or teacher of chemistry. Encouragement is given to the student to make original researches. *Five hours.*

Mr. EATON.

Determinative Mineralogy. Lectures with laboratory work.
Dana's *Text-Book of Mineralogy*. Both terms, two hours.

Bacteriology

Professor MACNIDER.

The student learns by practical experience the methods of cultivating, staining, and identifying the principal bacteria, and their pathological significance is explained by lectures and demonstrations by inoculation of animals. In this way the chief pathogenic bacteria are studied in pure culture on the various media, after which the methods of obtaining pure culture from mixtures of bacteria are learned. The necessary manipulations are carried out by the students, who thus obtain a practical knowledge of the subject which can be gained in no other way. *Fall term, six hours.*

Students in Pharmacy have also the privilege of attending any of the regular academic courses.

THE PHARMACEUTICAL LABORATORY

OFFICERS

EDWARD VERNON HOWELL, A.B., PH.G., DIRECTOR and *Professor of Pharmacy.*

JAMES BENBOW WHITTINGTON, *Assistant in the Pharmaceutical Laboratory.*

The rooms of the Pharmaceutical Laboratory are admirably adapted to this purpose. They are conveniently situated on the first floor, are well lighted and well equipped with water, electric lights, and gas. To each student is assigned a desk, provided with lock and key, and containing all the apparatus necessary for the every day work of the pharmacist. In the store room is kept a supply of materials for practical work, as well as the apparatus for the more complex operations. Ample space is provided for work at the prescription counter, where practical instruction in the compounding and dispensing of prescriptions is given.

A small deposit fee is required to cover the cost of breakage of apparatus. At the end of the session this fee will be returned, less the amount of breakage.

OTHER LABORATORIES

The laboratories of Physics, Chemistry, and Biology are open to students in Pharmacy. These laboratories are all equipped with the most approved apparatus for experimentation and illustration of lectures.

READING ROOM AND LIBRARY

The Pharmaceutical School is provided with a well selected library and with a reading room, inaugurated by the class of 1897, in which are filed a large number of medical and pharmaceutical journals.

In addition to these advantages, students of this department enjoy the privileges of the University reading room, in which are filed all the leading newspapers and magazines, and free access to the University Library, which numbers forty-seven thousand volumes and seventeen thousand pamphlets.

THE UNIVERSITY LIBRARY

OFFICERS

EBEN ALEXANDER, PH.D., LL.D., *Supervisor.*

CHARLES LEE RAPER, PH.D., *Committeeman.*

CHARLES ALPHONSO SMITH, PH.D., LL.D., *Committeeman.*

EDWARD KIDDER GRAHAM, A.M., *Committeeman.*

LOUIS ROUND WILSON, PH.D., *Librarian.*

NAN SPOTTSWOOD STRUDWICK, *Assistant Librarian.*

BENJAMIN EARL WASHBURN, A.B., *Library Fellow.*

LEONARD ROSS HOFFMAN, A.B., *Library Fellow.*

MARMADUKE ROBINS, *Assistant in the Library.*

JOHN WESLEY UMSTEAD, JR., *Assistant in the Library.*

The University Library contains forty-seven thousand and forty-five volumes and about seventeen thousand pamphlets. This collection has been largely re-classified and recatalogued according to the Dewey, or decimal system, and its contents have been rendered easily accessible by means of a thorough dictionary catalogue.

The Library funds are expended under the direction of the Librarian, the Library Committee, and the Professors in charge of Departments, with special reference to the instruction given in the University. The annual addition of books from purchase, donations, and exchanges is about twenty-five hundred volumes, all of which are carefully classified and catalogued as they are received.

The Librarian and Assistants are in attendance to give help in any line of research or reading. A special collection of reference books is provided for general use in the reference room. At the Librarian's desk are kept complete indexes to material to be found in the current or bound periodicals. The reading rooms for the students and members of the faculty are supplied with two hundred of the best American and foreign periodicals and leading newspapers of the State and nation. Brief instruction in the use of the dictionary catalogue, the periodical indexes, and the ref-

erence books generally, is given new students at the beginning of the academic year. In addition to the general Library there are a number of departmental libraries which are open to all students who work in the departments and have need of special departmental books.

The Library is open on week days from 8:45 A. M. to 1:15 P. M., and from 2:00 P. M. to 5:00 P. M.; on week day evenings, Saturday excepted, from 7:30 P. M. to 9:00 P. M.; on Sunday from 2:30 P. M. to 4:30 P. M.

On September 30, after a suspension of five weeks during which the equipment of the new building was being installed and the contents of the old were moved into the new, the new Library was opened. From the point of view of the administration the new quarters are admirably suited to the needs of the University, and with the increased income from endowment funds, the Library offers far greater possibilities for service than it ever has before.

During the year the Library has received the hearty support of the Philanthropic and Dialectic Literary Societies, in recognition of whose long continued interest and generous aid the Library bears the official title, The Library of the University of North Carolina Endowed by the Dialectic and Philanthropic Literary Societies.

In addition to the gifts made to the University for Library purposes for which the University has made acknowledgement, the Library wishes to acknowledge the gifts of publications from the Agricultural and Mechanical College, E. A. Alderman, Eben Alexander, American Lumberman, American Museum of Natural History, American Peace Society, Asheville Literary Association, Atlanta Carnegie Library, E. S. Balsch, K. P. Battle, M. Benjamin, J. V. V. Booraem, Boston Public Library, Mrs. Bridgers, Brotherhood of St. Andrew, Brown University, J. L. Burpee, W. F. Burns, California State Library Commission, Canadian Geological Survey, Carnegie Institution, Charlotte Carnegie Library, Walter Clark, D. I. Craig, R. D. W. Connor, C. L. Davis, Mr. Fuller, Guilford College, Harvard University, Miss Alice Heartt, D. Huckel, Indiana State Library, Iowa State Historical Society, John Crerar Library, J. Y. Joyner, Kansas State Historical Society, W. W. Kitchin, Lake Mohonk Peace Conference, J. Lindley, J. C. McNeill, Library of Congress, Manufacturers'

Record, Maryland Bureau of Labor and Statistics, Massachusetts State Board of Charities, H. A. Michael, S. W. Mitchell, J. H. Myrover, National Prison Association, New Jersey State Library, New York State Library, North Carolina State Government and Officers, North Carolina State Library, Ohio Geological Survey, Peabody Institute, Pennsylvania State Historical Society, J. S. Post, J. H. Pratt, Pratt Institute, Providence Public Library, Rhodes Memorial Association, Royal Society of Canada, St. Louis Public Library, W. Salter, C. Alphonso Smith, M. M. Smith, Smithsonian Institution, South Carolina College, South Carolina State Government, Southern Conference for Education, State Normal and Industrial College, W. M. Strickler, Trinity College Library, Union Club of New York City, United States Superintendent of Public Documents and other Federal Officers and Departments, University Club of New York City, University of Alabama, University of Chicago Press, University of Georgia Library, University of Texas, University of Virginia Library, F. P. Venable, Virginia Corporation Commission, Virginia State Library, W. D. Weatherford, Mrs. S. Whitaker, H. W. Wilson Company, Wisconsin State Historical Society, Yackety Yack Committee, Young Men's Christian Association of America, Advocate of Peace, Alumni Register, American Economist, Baptist Courier, Case and Comment, Caucasian, Central Presbyterian, Chapel Hill News, Charity and Children, Christian Advocate, Columbia State, Columbia University Quarterly, Concord Evening Times, Delineator, Duplin Journal, Durham Daily Sun, Eastern Carolina News, Exchanges of the Tar Heel and the University Magazine, Fayetteville Observer, Golden Age, Gospel Messenger, Greensboro Record, Hartford Seminary Record, Morganton News-Herald, Newton Enterprise, North Carolina Journal of Education, Polk County News, Presbyterian Standard, Princeton Theological Review, Progressive Farmer, Raleigh Christian Advocate, Raleigh Evening Times, Roanoke-Chowan Times, Robesonian, Lincoln County News, Salvation, Sampson Democrat, Smithfield Herald, Southern Churchman, Southern Presbyterian, Statesville Landmark, Sylvan Valley News, Tar Heel, Technology Review, Texas Quarterly, Trinity Archive, University Magazine, Vanderbilt Quarterly, Virginian-Pilot, Webster's Weekly, Washington Messenger, Winston-Salem Journal, Woman's Home Companion.

THE JOHN CALVIN McNAIR LECTURES

The lecture fund established by the will of John Calvin McNair of the class of 1849 became available in 1906, and the interest therefrom rendered it possible to begin the lectures in 1908. The honorarium for the lectures amounts to \$500, and the remainder of the interest from the fund provides for the suitable publication of the lectures. Under the will the object of the lectures "shall be to show the mutual bearing of science and religion upon each other and to prove the existence of attributes (as far as may be) of God from nature."

The lectures for 1908 were delivered by Professor Francis H. Smith, LL.D., of the University of Virginia. The three lectures were:

1. The general theme: God Manifest in the Material Universe.
2. His Attributes as Manifested in Physics.
3. His Attributes as Manifested in Astronomy.

The lectures for 1909 will be delivered by President Charles Cuthbert Hall, D.D., LL.D., of Union Theological Seminary, New York.

THE WILLIAM PRESTON BYNUM, JR., GYMNASIUM

ROBERT BAKER LAWSON, M.D., *Director*.

CHARLES DIGBY WARDLAW, *Assistant*.

The William Preston Bynum, Jr., Gymnasium, the gift of Judge William Preston Bynum, in memory of his grandson, William Preston Bynum, Jr., of the class of 1893, is a handsome, two-storied brick building, furnished with modern apparatus, swimming pool, baths, lockers, and running track. It contains also the trophy room and the office of the Instructor in Physical Training.

Exercise in the Gymnasium is required three hours a week of all the students in College except Seniors. A thorough physical examination of each student is made in the fall, and, in case students desire it, another in the spring. The measurements are indicated in a Prescription of Exercise pamphlet and are furnished to the students free of charge in the fall term. This book contains directions for the developing of every part of the body as well as suggestions on hygiene and personal care of the body; it is free from technicalities and confusing terms. Too much importance cannot be attached to the physical examination, since it enables the student to work intelligently and to economize his time. The physical examination is designed to aid the student by pointing out defects, and causing him to direct his efforts toward the correction of them.

LABORATORIES AND MUSEUMS

THE PHYSICAL LABORATORY

JOSHUA WALKER GORE, C.E., *DIRECTOR and Professor of Physics.*

JAMES EDWARD LATTI, A.M., *Associate Professor of Physics.*

JAMES HOWARD McLAIN, *Instructor in Physics.*

PERCY HOKE ROYSTER, A.B., *Fellow in Physics.*

THOMAS JOSEPH McMANIS, *Assistant in Physics.*

WALTER PARKER STACY, *Assistant in Physics.*

The Physical Laboratory occupies the eastern half of the main floor and almost the whole of the basement floor of the Alumni Building, amounting to about seven thousand square feet of floor space.

The main floor is divided into a lecture room, an apparatus room, laboratory for students in the general course, Physics 1, and a laboratory for X-ray and photometric work.

In the rooms of the basement are located the dynamos, motors, electrical laboratory, electric furnaces, storage battery, and the workshops for wood and metal.

A special appropriation granted by the Legislature in 1903 has made it possible to equip the Physical Laboratory with standard types of electrical machines: dynamos, motors, transformers, meters, switchboard, storage battery, electric furnace, and the accessories, needed for practical instruction in electrical engineering. The facilities for the general teaching of Physics experimentally have likewise been increased.

The electric light and central heating plants constitute valuable adjuncts to the laboratory.

CHEMISTRY HALL

CHARLES HOLMES HERTY, PH.D., DIRECTOR and *Smith Professor of General and Agricultural Chemistry.*

ALVIN SAWYER WHEELER, PH.D., *Associate Professor of Organic Chemistry.*

JAMES EDWARD MILLS, PH.D., *Associate Professor of Physical Chemistry.*

ROYALL OSCAR EUGENE DAVIS, PH.D., *Instructor in Chemistry.*

GEORGE FERREE LEONARD, A.B., *Fellow in Chemistry.*

FREDERICK BOOTH STEM, B.S., *Fellow in Chemistry.*

ROBINSON BATTLE HARDISON, A.B., *Assistant in Chemistry.*

JOHN QUINCY JACKSON, *Assistant in Chemistry.*

STROWD JORDAN, M.S., *Assistant in Chemistry.*

WILLIAM COLEMAN WOODARD, JR., *Assistant in Chemistry.*

The overcrowded condition of the laboratories and lecture room in Person Hall and the unsatisfactory ventilation of the laboratories made urgent the need for a larger and better arranged building for the Department of Chemistry. These facts, together with complete plans for a new building, were laid before the Legislature in 1905 and an appropriation of \$50,000 asked. The appropriation was voted, and in a short while the work of construction was under way.

The new building, "Chemistry Hall," is located east of Alumni Hall and north of the New East building, facing west. By the selection of this location good water pressure is assured for all of the laboratories in the building.

The outer walls are of salt and pepper pressed brick laid with black mortar.

The main building, 120 x 68 x 48, comprises a first floor, a second floor, and a commodious basement. Adjoining this main building and to the rear of the centre is the lecture room, 41 x 62 x 22.

To the right on entering the main building are the office and the private laboratory of the Director, the department library, and a small lecture room; to the left are the office and private laboratory of the Associate Professor of Organic Chemistry, a large

laboratory for organic chemistry, containing locker desks for twenty-four students, and a combustion room.

On the rear or east side of the first floor are the laboratories for quantitative analysis (thirty-two desks), and adjacent fume room, advanced quantitative analysis (twenty-four desks), and technical chemistry (six desks). At each end of the corridor are balance rooms.

On the second floor are the laboratories for general chemistry (sixty-six desks), qualitative analysis (sixty desks), physical chemistry (eight desks), electro-chemistry (eight desks), a research laboratory (sixteen desks), a laboratory for physiological chemistry (forty-eight desks), a fume room, and a small lecture room. At the ends of the corridor on the second floor are a balance room, preparation room, and a dark room for spectroscopic work.

In the basement are the assay laboratory, rooms for gas machine, electric furnace, technical chemistry, constant temperature, a photographic dark room, a carpenter shop, store room for heavy chemicals, and a large stock room for chemicals and apparatus. From this stock room material is supplied to each floor of the building by an elevator.

Each laboratory is furnished with ample fume closets for the removal of noxious gases, while pivoted window sash insure proper ventilation of the rooms.

The entire building is heated by hot water from the central system of the University.

The main entrance hall leads direct to the lecture room, which is well lighted by high arched windows and has a seating capacity of two hundred, which can be increased somewhat as need requires. To the rear of the lecture room are a preparation room and a museum for specimens of typical chemicals, minerals, and products illustrating the various phases of chemical industries. Above these two last rooms is a small room for filing charts, diagrams, etc., used in illustrating lectures.

THE BIOLOGICAL LABORATORY AND MUSEUM

HENRY VAN PETERS WILSON, PH.D., DIRECTOR and *Professor of Zoology*.

WILLIAM CHAMBERS COKER, PH.D., *Associate Professor of Botany*.

LOUIS HARWARD WEBB, *Assistant in Zoology*.

CLEVELAND FAIN KIRKPATRICK, *Assistant in Zoology*.

BEVERLY OSCAR SHANNON, *Assistant in Botany*.

The Biological Laboratory occupies the fourth floor and a part of the third floor of the New East Building, and includes a lecture room, a main laboratory, three smaller laboratories for advanced students in Zoology and Botany, two private workrooms, and a storeroom. The entire floor space is something over four thousand square feet.

The equipment is especially adapted to the needs of modern microscopical work, and includes compound and dissecting microscopes, microtomes, paraffin and hot air baths, incubator, camera lucida, immersion lenses, etc. All rooms in the laboratory are supplied with running water. In addition to the sinks, there are several large aquarium tables in which living animals may be kept for breeding purposes, study of their habits, or class work.

The museum collections are arranged in cases in the main laboratory. The marine fauna of the Atlantic coast is well represented. There are very serviceable collections of bird skins, bird eggs, insects, algae, and flowering plants. Students engaged in advanced zoological work have access to microscopic preparations, illustrating the classification, anatomy, and development of sponges and corals, the histology of medusae, the development of amphibia and teleosts, and other subjects of morphological interest. Students of Botany have the use of many preparations illustrating the anatomy and embryology of plants. The department library includes many valuable books of reference, treatises, zoological and botanical journals.

THE GEOLOGICAL LABORATORY AND MUSEUM

COLLIER COBB, A.M., DIRECTOR and *Professor of Geology and Mineralogy*.

JOSEPH HYDE PRATT, PH.D., *State Geologist and Professor of Economic Geology*.

HARRY NELSON EATON, A.M., *Instructor in Geology.*

HUBERT HILL, B.S., *Assistant in Geology*

The Geological Laboratory occupies the first floor of the New East Building. In addition to a lecture room with a seating capacity of about ninety, there is a large laboratory supplied with working collections of minerals, rocks, and fossils, and with photographs, maps, and models illustrating geological structure. The laboratory is furnished with two petrographical microscopes, with microscopes for soil study, and with apparatus for the slicing and polishing of rocks. Microscopic slides have been made of most of the specimens from North Carolina; and the department has, also, sections of the typical European rocks. Sections of the rocks around Chapel Hill, and the igneous rocks of the Boston Basin, made by the late Hunter Lee Harris, of the class of 1889, were given to the geological department. There is a room for photographic work.

The University possesses a collection of more than two thousand specimens of building stones, coals, and various products illustrating the economic geology of the State. These are arranged in an exhibition room of six hundred and fifty square feet of floor space. Here are kept also the sections taken with a diamond drill in the coal regions of Pennsylvania, in the region around King's Mountain, where the Summer School of Geology held its sessions, in the Dan River coal fields, and in the Triassic Rocks at Durham, N. C. A complete set of the ores of the precious metals found along the line of the Atchison, Topeka, and Santa Fé Railroad is included in the collection. Valuable additions have been made to the collections of fossils also, affording increased opportunity for laboratory work in historical geology and palaeontology. A small collection of tertiary type fossils from Florida, the gift of Mr. Joseph Willcox of Philadelphia, is the most recent addition to the palaeontological collection. The collection illustrating economic geology has been largely increased.

The department library, which occupies a room adjoining the exhibition room, is supplied with State and United States Reports, the papers of working geologists, the best works upon Geology, and scientific periodicals.

THE UNIVERSITY ORGANIZATIONS

THE DIALECTIC AND PHILANTHROPIC LITERARY SOCIETIES

The Dialectic and Philanthropic Literary Societies were organized in 1795, the year of the opening of the University. Their existence has been inseparably linked with that of the University, and they have shown remarkable power in developing character as well as in training the intellect. They offer facilities for practice in debate, oratory, declamation, and essay writing; and their members become practically familiar with parliamentary law and usage.

Each society owns a large, handsomely furnished hall, the walls of which are hung with oil portraits of illustrious members. Meetings are held by each society every Saturday evening during the college year, admission being confined to members. Public contests in debate between the two societies are conducted twice a year, and, in addition to these, there is a system of intercollegiate debates. On Saturday evening before Commencement the Inter-Society Banquet is held, after which each society has its annual reunion. On Monday evening preceding Commencement day four representatives elected from the two societies have a public competition in debate, and a prize is awarded to the successful competitors.

By immemorial custom, students from the eastern half of the State usually join the Philanthropic Society, while those from the western half join the Dialectic Society. Although membership in the Societies is entirely optional, yet it is earnestly recommended by the Faculty as furnishing unusual opportunities not only for literary culture, but also for the development of self-control and the power to persuade and control others.

THE ELISHA MITCHELL SCIENTIFIC SOCIETY

WILLIAM CHAMBERS COKER, PH.D., *President*.

JAMES EDWARD LATTA, A.M., *Vice-President*.

FRANCIS PRESTON VENABLE, PH.D., D.Sc., LL.D., *Permanent Secretary and Treasurer*.

ALVIN SAWYER WHEELER, PH.D., *Recording Secretary*.

The Elisha Mitchell Scientific Society holds monthly meetings during the college year for the discussion of scientific subjects. A Journal which is the official organ of the North Carolina Academy of Science, is issued quarterly. The object of the Society is to encourage scientific research and to record such matters as pertain to the natural history of the State. The membership is at present restricted to the Faculty and students of the University, and members of the staff of the Geological Survey.

At the monthly meetings, which are ordinarily held on the second Tuesday of each month, excellent opportunities are afforded the students to get beyond the ordinary routine of the class room by hearing, reading, and discussing papers on scientific subjects.

The Journal is in a measure a bulletin of the scientific laboratories of the University, and contains many articles written by research students. It is now in the twenty-third year. The volumes already issued contain twenty-three hundred pages. By the exchange of the Journal with more than three hundred scientific journals and periodicals, over ten thousand books and pamphlets have been collected, all of which are arranged in the University Library.

NORTH CAROLINA HISTORICAL SOCIETY

CHARLES LEE RAPER, PH.D., *President*.

KEMP PLUMMER BATTLE, LL.D., *Vice-President*.

JOSEPH GREGORIE DE ROULHAC HAMILTON, PH.D., *Corresponding Secretary*.

ERNEST COFIELD RUFFIN, *Recording Secretary*.

The North Carolina Historical Society was founded in 1833 by Governor David L Swain. When Governor Swain became presi-

dent of the University, the Society was moved from Raleigh to Chapel Hill. Under his leadership it became the centre of historical work in the State and the medium of many notable contributions to the history of the State. On March 22, 1875, through the activity of Kemp Plummer Battle, LL.D., the Society was chartered by an act of the General Assembly. The purpose of the Society is to collect, classify, and publish material illustrative of the history of the State. The Society possesses a valuable collection of books, pamphlets, manuscripts, newspaper files, coins, and other subjects of historic interest. The educational aim of the Society is to create a love for historical study and to give training in scientific methods of historical investigation. To this end meetings are held monthly in the History lecture room, at which papers, based on original research, are read and discussed. All members of the University are eligible to membership.

THE PHILOLOGICAL CLUB

JAMES FINCH ROYSTER, PH.D., *President*.

PALMER COBB, A.M., *Vice-President*.

LOUIS ROUND WILSON, PH.D., *Secretary and Treasurer*.

The Philological Club meets on the first Tuesday evening of each month during the college year. Its membership consists of the instructors and advanced students in the language departments of the University. The object of the Club is to stimulate original investigation in philology and to afford an opportunity for the interchange of views on subjects relating to such work. At each meeting papers are read and discussed. All persons interested in the work of the Club are invited to attend its meetings.

THE ECONOMICS SOCIETY

CHARLES LEE RAPER, PH.D., *President*.

THOMAS WINGATE ANDREWS, *Secretary*.

The Economics Society, to which any advanced student of Economics and Finance may belong, meets monthly for the discussion of Southern industrial problems.

No other section of the United States has so many important and interesting economic problems to solve as the Southern States

at the present time. The Economics Society was organized under the conviction that the intelligent Southern man is the one upon whom the solution of these problems rests.

THE MODERN LITERATURE CLUB

EDWARD KIDDER GRAHAM, A.M., *President*.

WILLIAM ELMER YELVERTON, *Vice-President*.

HERBERT BROWN GUNTER, *Secretary and Treasurer*.

In December, 1904, the Modern Literature Club was formed. It is composed of the members of the Faculty and student body who are interested in modern literary movements, and who signify their willingness to read original papers at the monthly meetings of the club. This organization fills a niche in University life and has already vindicated the wisdom of its founders.

ODD NUMBER CLUB

HARVEY HATCHER HUGHES, A.B., *President*.

SIMON RAE LOGAN, *Vice-President*.

HERBERT BROWN GUNTER, *Secretary and Treasurer*.

The Odd Number Club was organized in the fall of 1905. It is composed of students actively engaged in creative literary work. Its object is to stimulate this class of work among the students. Meetings are held monthly, and original essays, poems, sketches, and stories are read by the members.

This club has recently become a member of an organization composed of similar clubs in several of the large colleges and universities throughout the South.

DER DEUTSCHE VEREIN

WALTER DALLAM TOY, M.A., *President*.

SIMON RAE LOGAN, *Vice-President*.

PERCY HOKE ROYSTER, A.B., *Secretary and Treasurer*.

The Verein was organized with the view of stimulating interest among the officers and students of the University in all topics pertaining to German life. Weekly meetings are held throughout

the year at which the German language only is employed. Subjects of general interest pertaining to German literature, history, art, and politics are discussed. An effort is made also to provide students of German with an opportunity to perfect their pronunciation and to improve their control of the spoken language. It is part of the purpose of the Verein to arrange from time to time for public lectures in German. All officers and students of the University interested in the study of German are eligible to membership.

LE CERCLE FRANCAIS

ADOLPHE VERMONT, *President*.

LUTHER WOOD PARKER, A.B., *Vice-President*.

SIMON RAE LOGAN, *Secretary*.

Le Cercle Francais holds weekly meetings at which topics of general interest pertaining to French literature, and French life, manners, and customs are discussed. The French language is employed exclusively. It is the aim of the club to stimulate interest in the French language, to provide its members with an opportunity to hear idiomatic French spoken, and to use the language with more facility. All officers and students of the University interested in the study of French are eligible to membership.

TERTULIA ESPANOLA

ADOLPHE VERMONT, *President*.

THOMAS LEVY SIMMONS, *Vice-President*.

JAMES MELLVILLE PORTER, *Secretary*.

This club meets weekly and its aims are to provide the same opportunity for students of Spanish as Le Cercle Francais does for those interested in French.

MUSICAL ASSOCIATION

CHARLES ALEXANDER VOGLER, *President*.

STANLEY WINBORNE, A.B., *Business Manager*.

CHARLES THOMAS WOOLLEN, *Conductor*.

The aim of the Association is to foster the love of music and to afford opportunity of instruction to those interested in music. The

organization consists of an orchestra, a brass band, and a glee club, which are representative of the musical talent of the University.

YOUNG MEN'S CHRISTIAN ASSOCIATION

FRANK PORTER GRAHAM, *President*.

HENRY PLANT OSBORNE, *Vice-President*.

WILLIAM PRESSLEY GRIER, *Recording Secretary*.

DARSEY BATTLE TEAGUE, *Treasurer*.

The Young Men's Christian Association is a voluntary organization of the students of the University, and is entirely under student management. The Faculty are heartily in sympathy with the organization and render service whenever requested to do so.

"The object of this Association is to unite all students who desire to strengthen the spiritual life and influence of the University; to promote growth in Christian character and fellowship, and aggressive Christian work, especially by and for students; to train its members for Christian service; and to lead them to devote their lives to Jesus Christ where they can accomplish the most for the Kingdom of God."*

The Association now occupies a comfortable and well furnished building which cost about twelve thousand dollars.

The work of the Association embraces regular and special religious meetings, Bible and mission study courses, special work for new students, and neighborhood work.

Two hundred and thirty students are enrolled this session as members of the Association. About two hundred are enrolled in nineteen Bible classes.

Bible Courses

1. Studies in the Life of Christ. (Bosworth).

Leaders, J. H. Boushall, Walter Dixon, H. O. Craver, L. D. Bryan, Monroe Gaddy, J. A. Highsmith, L. C. Kerr, S. S. Nash, J. R. Nixon, H. P. Osborne, J. T. McKinney, J. M. Reeves, J. B. Reeves, P. D. Roseman, Jno. Tillett, and R. T. Webb.

* Article II, Constitution of the Young Men's Christian Association of the University of North Carolina.

2. Studies in the Acts and Epistles. (Bosworth).
W. P. Grier.
3. Old Testament characters.
F. P. Graham, G. F. Leonard.
4. Teachings of Jesus and his apostles.
J. A. Fore, Jr.

Time of meeting Sunday of each week at 12:30 P. M.

Mission Courses

Mr. F. B. RANKIN.

A handbook of Comparative Religion. (Kellogg).

Mr. L. N. TAYLOR.

Japan and its Regeneration. (Cary).

Mr. H. O. CRAVER.

Missions in China. (Beach).

Mr. J. W. UMSTEAD.

Evangelization of the World in this Generation. (Mott).

The time of meeting is arranged to suit the classes.

ONE HUNDRED AND TWELFTH COMMENCEMENT (1907)

SUNDAY, JUNE 2

BACCALAUREATE SERMON

The Right Reverend Eugene Russell Hendrix, D.D., LL.D.

SERMON BEFORE THE YOUNG MEN'S CHRISTIAN ASSOCIATION

The Reverend Claytor S. Cooper.

MONDAY, JUNE 3

THE ALUMNI ADDRESS

Hon. Charles M. Stedman, Class of '61.

THE DEBATE BY REPRESENTATIVES FROM THE DIALECTIC AND PHIL- ANTHROPIC LITERARY SOCIETIES

Dialectic.

Patrick Murphy Williams,
Thomas Levy Simmons,

Philanthropic.'

Oscar Ripley Rand, Jr.,
John William Hester.

TUESDAY, JUNE 4, COMMENCEMENT DAY

SENIOR SPEAKERS

Roby Council Day,
Edwin McKoy Highsmith,

Stuart Grayson Noble,
John Johnston Parker.

THE COMMENCEMENT ADDRESS

Andrew Fleming West, Ph.D., Litt.D., LL.D.

DEGREES IN COURSE**Bachelors of Arts**

| | |
|---------------------------------|-------------------------------|
| George Sitgreaves Attmore, Jr., | Charles Herbert Keel, |
| Marvin Arthur Bowers, | Thomas Cleveland Kerns, |
| Clarence Victor Cannon, | George Ferree Leonard, |
| Numa Reid Claytor, | James Thomas McAden, |
| Ernest Leach Cole, | William Tillman McGowan, |
| Edwin Erwin Connor, | George McFarland McKie, |
| James Herron D'Alemberte, | William DeRoy McLean, |
| Roby Council Day, | Quincy Sharpe Mills, |
| Thomas Wyatt Dickson, | Allen Turner Morrison, |
| William Samuel Dickson, | Stuart Grayson Noble, |
| William Henry Duls, | John Johnston Parker, |
| Francis Gillam, | Luther Wood Parker, |
| DeLeon Fillyaw Green, | John de Jarnett Pemberton, |
| Oscar Lawrence Hardin, | Wiley Hassell Marion Pittman, |
| Robinson Battle Hardison, | Samuel Wharton Rankin, |
| Oscar Vernon Hicks, | Percy Hoke Royster, |

| Edwin Bedford Jeffress, Jr., | Duncan Patterson Tillett, |
| William Adrian Jenkins, | Charles Lewis Weill, |
| Charles Jackson Katzenstein, | John Carroll Wiggins, |
| | Victor Williams. |

Bachelors of Philosophy

| | |
|------------------------|---------------------------------|
| Michael Penn Cummings, | Stahle Linn, |
| Thomas Holt Haywood, | John Mosely Robinson, |
| Ernest Clyde Herring, | Wm. Smith O'Brien Robinson, Jr. |
| Edwin McKoy Highsmith, | Kirby Cleveland Sidbury, |
| James Burton James, | Stanley Winborne. |

Bachelors of Science

| | |
|---------------------------|---------------------------|
| Daisy Burrows Allen, | Hubert Hill, |
| William Jefferson Barker, | Thomas O'Berry, |
| Roy Pritchard Burns, | Charles Cleveland Sharpe, |
| Hampden Hill, | Frederick Boothe Stem. |

Bachelors of Laws

| | |
|-----------------------------|-----------------------|
| Benjamin Kittrell Lassiter, | Bennett Hester Perry. |
|-----------------------------|-----------------------|

Graduates in Pharmacy

| | |
|---------------------------|-----------------------|
| Charles McDonald Andrews, | David Simeon Chapman, |
| Donah Josiah Atkins, | Ralph Emory Kibler, |
| Andrew McDowd Secrest. | |

Masters of Arts

| | |
|-------------------------|------------------------|
| Thomas Felix Hickerson, | Frank McLean, |
| George McFarland McKie, | Bessie Lewis Whitaker. |

Masters of Science

| | |
|---------------------------|----------------|
| Frank Parker Drane, | Strowd Jordan, |
| Joseph Ezekiel Pogue, Jr. | |

Doctor of Philosophy

Edgar Eugene Randolph.

***Doctors of Medicine**

| | |
|--------------------------|---------------------------|
| Julius Jackson Barefoot, | Robert Primrose Noble, |
| Henry Blount Best, | Wilbur Calhoun Rice, |
| Julius Vance Dick, | Ivie Alphonso Ward, |
| John Atkinson Ferrell, | Alert Gideon Woodard, |
| Emmett Wightman Gibbs, | William Tillson Woodward. |

HONORARY DEGREES**Doctor of Laws**

Governor Robert Brodnax Glenn,
Hon. Charles Brantley Aycock.

*Conferred May 9, 1907 at the closing exercises of the School of Medicine.

MEDALS, PRIZES AND FELLOWSHIPS

The Holt Medal: J. W. Speas.

The Harris Prize: R. E. Summer.

The Greek Prize: K. D. Battle.

The Worth Prize: W. A. Jenkins.

The Early English Text Society Prize: Frank McLean.

The Thomas Hume Prize: H. H. Hughes.

The Kerr Prize: J. E. Pogue, Jr.

The Bradham Prize: R. E. Kibler.

The Henry R. Bryan Prize: B. H. Perry.

The Toch Fellowship in Chemistry: F. B. Stem.

The Sutherland Fellowship in Chemistry: G. F. Leonard.

The W. J. Bryan Prize: R. C. Day.

The Prizes in Pedagogy: G. F. Leonard, J. L. Hathcock.

The Bingham Prize: O. R. Rand.

The Mangum Medal: J. J. Parker.

CERTIFICATES

Chemistry: D. B. Allen, W. S. Dickson, Hampden Hill,
Hubert Hill, W. S. Hunter, G. F. Leonard, F. B. Stem.

Economics: C. V. Cannon.

English: N. R. Claytor, M. G. Morrison, J. H. Vaughan.

French: C. L. Weill.

Geology: E. B. Jeffress, Jr.

German: J. A. Fore, Jr., E. M. Highsmith, P. H. Royster,
W. H. Royster.

Greek: P. H. Royster, W. H. Royster.

Latin: P. H. Royster.

Mathematics: J. M. Porter, J. W. Speas, G. T. Whitley.

Pedagogy: J. L. Hathcock.

Physics: P. H. Royster.

STUDENTS (1907 - 1908).

GRADUATES

| NAME | YEAR | RESIDENCE |
|---|----------------|-------------------|
| Allen, Ridsen Tyler, S.B., 1906. Geology, Chemistry. Candidate for S.M. | <i>Second,</i> | Wadesboro. |
| Bryan, William Frank, Ph.B., 1900. English, German. Candidate for A.M. | <i>Second,</i> | Goldshoro. |
| Day, Roby Council, A.B.1907. History, English, Philosophy. Candidate for A.M. | <i>First,</i> | Starkville, Miss. |
| Dickson, William Samuel, A.B., 1907. Chemistry, Geology. Candidate for S.M. | <i>First,</i> | Chapel Hill. |
| Duls, William Henry, A.B., 1907. Mathematics, Chemistry, Drawing | <i>First,</i> | Wilmington. |
| Faires, Rosabella Simonton, A.B., 1882, Simonton Female College. English, History. | <i>Third,</i> | Chapel Hill. |
| Gresham, Leroy, A.M., 1893, Princeton University; LL.B., 1896, University of Maryland; B.D., 1906, Union Seminary of Virginia. | <i>Second,</i> | Chapel Hill. |
| Grimes, Alice Dugger, St. Mary's College. English. | <i>First,</i> | Raleigh. |
| Hardison, Robinson Battle, A.B., 1907. Geology, Chemistry. | <i>First,</i> | Morven. |
| Hawley, Frank Morton, B.D., 1904, Presbyterian Theol. Seminary. Economics, History, Philosophy. | <i>First,</i> | Charlotte. |
| Hickerson, Thomas Felix, Ph.B., 1904. Mathematics, Drawing. Candidate for A.M. | <i>Third,</i> | Ronda. |
| Hill, Hubert, S.B., 1907. Geology, Chemistry. Candidate for S.M. | <i>First,</i> | Raleigh. |
| Hines, Julian Colegate, Jr., S.B., 1905. Physics, Mathematics, Drawing. Candidate for S.M. | <i>Second,</i> | Morven. |
| Hoffman, Leonard Ross, A.B., 1907. Philosophy, English, Economics. Candidate for A.M. | <i>First,</i> | Lowell. |

- Hughes, Harvey Hatcher, *First*, Yorkville, S. C.
A.B., 1907. English, History, Pedagogy. Candidate for A.M.
- Jordan, Strowd, *Second*, Durham.
S.M., 1907. Chemistry, Physics. Candidate for Ph.D.
- Lewis, Anna Hartwell, *First*, Goldsboro.
St. Mary's College. English, Economics, French, German, History.
- McCulloch, R. W., *First*, Atlanta, Ga.
A.B., 1906. English, Latin, Pedagogy. Candidate for A.M.
- McGowan, William Tillman, *First*, Swan Quarter.
A.B. 1907. Mathematics, English, Economics. Candidate for S.M.
- Morrow, Rufus Clegg, *Third*, Oaks.
A.B., 1905. Mathematics, German, English. Candidate for A.M.
- Noble, Stuart Grayson, *First*, Bushnell, Fla.
A.B., 1907.
- Parker, Luther Wood, *First*, Chapel Hill.
A.B., 1907. French, English, Economics. Candidate for A.M.
- Royster, Percy Hoke, *First*, Raleigh.
A.B., 1907. Physics, English, Mathematics. Candidate for A.M.
- Southard, Lawrence Gedding, *First*, Jonesville, S. C.
S.B., 1906, Clemson College. Geology, Botany, Chemistry. Candidate for S.M.
- Stack, Ervin Blakeney, *First*, Monroe.
B.E., 1905, N. C. A. & M. College. Chemistry.
- Stacy, Marvin Hendrix, *Fourth*, Morven.
A.M., 1904, Mathematics, Physics.
- Stem, Frederick Booth, *First*, Darlington, S. C.
S.B., 1907. Chemistry, Drawing, English, Physics.
- Swift, Wiley Hampton, *Second*, Greensboro.
Ph.B., 1901. Pedagogy, History, Philosophy. Candidate for A.M.
- Washburn, Benjamin Earl, *Second*, Rutherfordton.
A.B., 1906. English, Pedagogy, History. Candidate for A.M.
- Wilson, John Kenyon, *Second*, Elizabeth City.
A.B., 1905. History, English, Philosophy. Candidate for A.M.

THE SUMMER SCHOOL FOR TEACHERS

FACULTY

FRANCIS PRESTON VENABLE, Ph.D., LL.D., President.

NATHAN WILSON WALKER, A.B., Director of the Summer School;
Professor of Secondary Education.

WALTER DALLAM TOY, M.A., *Professor of the Germanic Languages
and Literatures.*

GEORGE HOWE, Ph.D., *Professor of the Latin Language and Literature.*

JAMES DOWDEN BRÜNER, Ph.D., *Professor of the Romance Languages
and Literatures.*

JAMES EDWARD LATTA, A.M., *Associate Professor of Physics.*

MARVIN HENDRIX STACY, A.M., *Associate Professor of Civil Engineering.*

JOSEPH GEGOIRE DE ROULIAC HAMILTON, Ph.D., *Associate Professor of History.*

LOUIS ROUND WILSON, Ph.D., *Librarian.*

JAMES MOSES GRAINGER, A.M., *Instructor in English.*

GENERAL INFORMATION

The University Summer School for Teachers will be conducted again on the same general plan as that of last summer. It will open on Wednesday, June 10th, and continue for six weeks, closing July 21st.

Courses of Instruction

Courses will be offered in English, Latin, History, Mathematics, French, German, Physics, and Library Administration. The

instruction in these branches will be given by regular members of the University faculty. The work will be thorough and of a high order, and will be designed especially to meet the needs of those teachers who are striving to equip themselves for better service. Only solid work will be attempted and only earnest workers invited to come.

Those Who May Be Benefited

1. Teachers in high schools and those intending to teach who desire better general training for their work.
2. Teachers who desire special training in any department. The work will be so graded that a teacher can obtain special training and make considerable progress by attending two or three summers in succession.
3. Teachers in elementary schools who wish to improve their general scholarship.
4. Prospective students of the University who wish to make up deficiencies in their entrance requirements.

The Growth of Public High Schools and the Demand for High School Teachers

The growth of public high schools in North Carolina causes an increasing demand for well-equipped high school teachers and principals. During the past two years the University has had calls for about two hundred men to engage in educational work in this and other Southern states. It has been able to supply barely one-third of that number. This demand for better trained teachers is becoming more and more insistent all over the South and it means greater opportunity for the teacher who is preparing himself to fill a higher position this year than he filled last. To be able to do this is the ambition and constant aim of every true teacher. The University is maintaining the Summer School in order that it may better serve the schools by sending into them more efficient teachers and that it may better serve the teachers by giving them an opportunity to improve their scholarship and thus fit themselves for better work.

Examinations and Certificates

At the close of the term regular examinations will be held, and certificates will be issued upon the satisfactory completion of all courses.

Those teachers in the Summer School who wish to apply to the State Board of Examiners for the High School Teacher's certificate or the Five-Year State Certificate will be allowed to take the examinations for those certificates at the close of the term. This arrangement will be of especial advantage to teachers who expect to take either of those examinations, for otherwise they would be required to return to their respective counties early in July in order to do so. This plan, however, gives them an opportunity to review thoroughly the main subjects on which they are to be examined, and then to take the examinations at a time when they should be best able to pass them successfully. Teachers who take either of those examinations will be excused from the regular examinations mentioned in the paragraph above.

Fees and Expenses

The only charge, for teachers, will be a registration fee of \$3.00; for others, there will be an additional charge of \$10.00 for tuition. Board and lodging can be obtained in the village at reasonable rates, varying from \$10.00 to \$20.00 a month.

COURSES OF INSTRUCTION

ENGLISH

MT. GRAINGER.

1. Grammar and Composition. Especial attention to the analysis of sentences and the application of the principles of grammar in composition. Frequent written exercises will be required, and the written work will be discussed in the class-room. Text-book: Smith's *Our Language—Grammar*. *Six hours a week.*

2. Literature. The literature required for entrance to the leading colleges of the United States will form the basis of this course. Methods of teaching; lectures, readings, and class discussions. *Six hours a week.*

HISTORY

Associate Professor HAMILTON.

1. The History of England. Lectures and assigned readings. Text-book: Walker's *Essentials in English History*. *Six hours a week.*
2. The History of the United States to the close of Reconstruction. Lectures and assigned readings. Text-book: Hart's *Essentials in American History*. *Six hours a week.*
3. A course of six lectures and discussions on the place of history in secondary schools and methods of teaching will be given to those students taking either course 1 or 2 in history.

LATIN

Professor HOWE.

1. Elementary course. Pronunciation, inflection, syntax of cases and verbs; special study of the subjunctive, indirect discourse, relative and conditional sentences; reading of Caesar's Gallic War. Text-books: Bennett's *Latin Grammar*. Any standard text of Caesar. *Six hours a week.*
2. Course either in Vergil's Aeneid, books I-VI, or in Cicero's Orations against Catiline. Translation and syntax. Text-book: Any standard text of Vergil's Aeneid, or of Cicero's Orations against Catiline. *Six hours a week.*
3. Course in Livy and Horace's Odes, alternating with course 2. Text-book: Any standard text of Livy, book I, and of Horace's Odes. *Six hours a week.*

GERMAN

Professor TOY.

1. Elementary course. Grammar. Written exercises. Dictation. Translation. Text-books: Thomas's *German*

Grammar; Mosher's *Willkommen in Deutschland*. Six hours a week.

2. Advanced course. Review of Grammar. Composition. Translation. Text-books: Thomas's *German Grammar*; Wesselhoeft's *German Exercises*; Freytag's *Die Journalisten*. Six hours a week.

FRENCH

Professor BRUNER.

1. Elementary course. Grammar. Reading of easy prose. Text-books; Joynes's *Minimum French Grammar*; Chateaubriand's *Le Dernier Abencerage*. Six hours a week.
2. Advanced course. Reading of novels and dramas. Text-books Feuillet's *Le Jeune Homme Pauvre*; Hugo's *Hernani*. Six hours a week.

MATHEMATICS

Associate Professor STACY.

1. Secondary Algebra. Lectures and assigned work embracing the introductory chapters and including Factoring, Simultaneous Equations, Exponents, Involution and Evolution, Quadratic Equations, etc. Text-book: Fisher and Schwatt's *Secondary Algebra*. Six hours a week.
2. Plane and solid Geometry. Lectures and assigned work. Text-book: Wells' *Essentials of Plane and Solid Geometry*. Six hours a week.

PHYSICS

Associate Professor LATTA.

1. Elementary course. Mechanics of solids, liquids, and gases. Sound. Six hours a week.
2. Elementary course. Magnetism and electricity. Heat and light. Text-book: Millikan and Gale's *A First Course in Physics*. Six hours a week.

Courses 1 and 2 may be taken together.

LIBRARY ADMINISTRATION

Dr. WILSON.

Library administration and methods. Lectures on the organization and management of school and public libraries, book selecting, preparation of bulletins, use of reference books, reading lists, debate helps, technical library methods. Practice in the Library illustrating the details of subjects treated in the lectures. *Six hours a week.*

SPECIAL LECTURES

Each week during the Summer School there will be one or two special lectures to all teachers. These lectures will be upon topics of vital interest to every teacher and will be of genuine help to all.

Among those who have accepted invitations to address the summer school are the following gentlemen:

Hon. J. Y. Joyner, State Superintendent of Public Instruction.

Dr. F. P. Venable, President of the University of North Carolina.

Dr. C. Alphonso Smith, Dean of the Graduate School and Professor of the English Language in the University of North Carolina.

Mr. H. H. Williams, Professor of Philosophy in the University of North Carolina.

Mr. E. C. Brooks, Professor of Education in Trinity College.

Mr. F. M. Harper, Superintendent of Raleigh City Schools.

Professor J. I. Foust, President of the State Normal and Industrial College, Greensboro.

Mr. Allen J. Barwick, of the State Department of Education, Raleigh, N. C.

THE ASSOCIATION OF THE ALUMNI.

THE GENERAL ASSOCIATION.

THOMAS STEPHEN KENAN, A.B., *President.*

HENRY ARMAND LONDON, A.B., *Secretary.*

JAMES COLE TAYLOR, B.S., *Treasurer.*

The membership includes all persons who have matriculated at the University of North Carolina in any department except the Summer School and all who are or have been officers of the institution.

An effort is now being made to accomplish a more thorough organization of the Alumni. The desire is that the individual alumni shall form into Local Alumni Associations in every community. These Local Associations are to form by proportional representation the General Association of the Alumni. The next meeting of the General Association will be held in Gerrard Hall at the University at the Commencement in June, 1908. Local Associations have been formed in certain cities and others will be established in the course of the year. It is to be hoped that every alumnus will concern himself in assisting the organization in his county or town. A printed statement of the plan of organization has been prepared and will be supplied on request. Inquiries should be directed to Mr. James C. Taylor, Chapel Hill, N. C.

INDEX

- Absences, 93.
Act of Incorporation, 8.
Administration, Officers of, 17.
Admission, of Women, 11.
 to Advanced Standing, 28.
 to the College, 23-27.
 to the School of Law, 102.
 to the School of Medicine, 115, 124.
